# INTRODUCTION

---

### Introduction

This is the Mid-Year Update (the “Financial Plan”) to the First Quarterly Update for Fiscal Year (FY) 2026. The State’s FY 2026 began on April 1, 2025 and ends on March 31, 2026. The Division of the Budget (DOB) expects to update its Financial Plan projections following the close of the third quarter with the FY 2027 Executive Budget.

Factors affecting the State’s financial condition are numerous and complex. This Financial Plan contains “forward-looking statements” relating to future results and economic performance as defined in the Private Securities Litigation Reform Act of 1995. Since many factors may materially affect fiscal and economic conditions in the State, forecasts, projections, and estimates should not be regarded as a representation that actual results will not vary. The forward-looking statements contained herein are based on the State’s expectations at the time they were prepared and are necessarily dependent upon assumptions, estimates, calculations, and data that it believes are reasonable as of the date made, but that may be incorrect, incomplete, imprecise, or not reflective of actual results. Forecasts, projections, and estimates are not intended as representations of fact or guarantees of results. The words “expects,” “forecasts,” “projects,” “intends,” “anticipates,” “estimates,” “calculates,” “assumes” and analogous expressions are intended to identify forward-looking statements. Any such statements inherently are subject to a variety of risks and uncertainties that could cause actual results to differ materially and adversely from projections. Such risks and uncertainties include, but are not limited to, general economic and business conditions; natural calamities; foreign hostilities or wars; domestic or foreign terrorism; changes in political, social, economic and environmental conditions, including climate change and extreme weather events; epidemics or pandemics; cybersecurity events; impediments to the implementation of gap-closing actions; regulatory initiatives and compliance with governmental regulations; litigation; Federal tax law changes; actions by the Federal government to reduce or disallow expected aid, including Federal aid authorized or appropriated by Congress, but subject to sequestration, administrative actions, or other actions that would reduce aid to the State; and various other events, conditions and circumstances. Many of these risks and uncertainties are beyond the control of the State. These forward-looking statements are based on the State’s expectations as of the date of this Financial Plan (October 2025).

## Significant Budgetary and Accounting Practices

Unless clearly noted otherwise, all financial information is presented on a cash basis of accounting.<sup>1</sup>

The State accounts for receipts and disbursements by the fund in which the activity takes place (such as the General Fund), and the broad category or purpose of that activity (such as Agency Operations). The Financial Plan tables present State projections and actuals by fund and category.

Fund types of the State include<sup>2</sup>: the General Fund; State Special Revenue Funds, which receive certain dedicated taxes, fees, and other revenues used for specified purposes; Federal Special Revenue Funds, which receive certain Federal receipts; State and Federal Capital Projects Funds, which account for costs incurred in the construction, maintenance, and rehabilitation of roads, bridges, prisons, university facilities, and other infrastructure projects; and Debt Service Funds, which account for the payment of principal, interest, and related expenses for debt issued by the State and on the State's behalf by its public authorities.

The State's **General Fund** receives most State tax collections, and all receipts not earmarked for a specified program or activity. Tax receipts and General Fund balance are affected by the Pass-Through Entity Tax (PTET); however, DOB expects that the PTET will, on a multi-year basis, be revenue neutral for the State. In December 2021, electing entities began making estimated PTET payments that were classified as business taxes and set aside entirely in FY 2022 to offset the decrease in Personal Income Tax (PIT) receipts in future years. The reserve balance established at the inception of the program has and is expected to cover the difference between PTET collections and related PIT credits each fiscal year. The discussion of tax receipts throughout the Financial Plan excludes the impact of PTET, unless otherwise noted.

State law requires the General Fund to end each fiscal year in balance, and directs the Governor to submit, and the Legislature to enact, a General Fund Budget that is balanced on a cash basis of accounting for the upcoming year. The State Constitution and State Finance Law do not provide a precise definition of budget balance. In practice, the General Fund is considered balanced if sufficient resources are, or are expected to be, available during the fiscal year for the State to: (a) make all planned payments, including PIT refunds, without the issuance of deficit notes or bonds, or extraordinary cash management actions; (b) restore the balances in the Tax Stabilization Reserve Fund and the Rainy Day Reserve Fund (collectively, the "Rainy Day Reserves") to levels at or above those on deposit when the fiscal year began; and (c) maintain other reserves, as required by law. For purposes of calculating budget balance, the General Fund includes transfers to and from other funds.

---

<sup>1</sup> State Finance Law also requires the DOB to prepare a pro forma Financial Plan using Generally Accepted Accounting Principles (GAAP) to the extent practicable. The GAAP-basis Financial Plan is informational only. DOB does not use it as a benchmark for planning or managing State finances during the fiscal year and does not update it on a quarterly basis. The GAAP-basis Financial Plan follows, to the extent practicable, the accrual methodologies and fund accounting rules applied by the Office of the State Comptroller (OSC) in preparation of the audited Basic Financial Statements, but there can be no assurance that the pro forma GAAP-basis Financial Plan conforms fully to GAAP.

<sup>2</sup> The State's Fund Structure and listing of funds can be found at <https://www.budget.ny.gov/citizen/nyfund/index.html>.

Projections for future years often show budget gaps in the General Fund. Budget gaps represent the difference between: (a) the projected General Fund disbursements, including transfers to other funds, needed to maintain current service levels and specific commitments, and (b) the projected level of resources, including transfers from other funds, to pay for these disbursements. The General Fund projections are based on many assumptions and are developed by DOB in conjunction with other State agencies. Some projections are based on specific, known information (e.g., a statutory requirement to increase payments to a prescribed level), while others are based on uncertain or speculative information (e.g., the pace at which a new program will enroll recipients). The multi-year projections generally assume that money appropriated in one fiscal year will continue to be appropriated in future years, even for programs that were not created in permanent law and that the State has no obligation to fund. Funding levels for nearly all State programs are reviewed annually in the context of the current and projected fiscal positions of the State.

At times, DOB will informally designate unrestricted balances in the General Fund for specific fiscal and/or policy goals (e.g., reserve for economic uncertainties; reserve for timing of payments; reserve for future operational needs). These amounts are typically, but not uniformly, identified with the phrase “reserved for.” These unrestricted amounts are not held in distinct accounts within the General Fund and may be used for other purposes.

The General Fund is the sole financing source for the School Tax Relief (STAR) fund and is typically the financing source of last resort for the State’s other major funds, including the Health Care Reform Act (HCRA) Fund, the Dedicated Highway and Bridge Trust Fund, and the Lottery Fund. Therefore, General Fund projections account for any estimated funding shortfalls and/or surpluses in these funds. Since the General Fund is required by law to be balanced for the upcoming year, the focus of the State’s budgetary and gap-closing discussion in the Financial Plan is generally weighted toward the General Fund.

**State Operating Funds** is a broader measure of spending (as distinct from capital purposes) that is funded with State resources and includes the funds that provide a funding offset and/or surpluses to the General Fund as described above. The State Operating Funds perspective includes financial activity in the General Fund, as well as State-funded Special Revenue Funds and Debt Service Funds (spending from Capital Projects Funds and Federal Funds is excluded). As significant financial activity occurs in funds outside the General Fund, the State Operating Funds perspective is, in DOB’s view, a more comprehensive measure of operations funded with State resources (e.g., taxes, assessments, fees and tuition). The State Operating Funds perspective eliminates certain distortions in operating activities that may be caused by, among other things, the State’s complex fund structure and the transfer of money between funds. For example, the State funds its two largest programs (Medicaid and School Aid) from both the General Fund and State Special Revenue Funds. The State Operating Funds perspective captures disbursements from both the General Fund and State Special Revenue Funds, giving a more complete accounting of State-funded disbursements for these large programs. Accordingly, projections often emphasize the State Operating Funds perspective.

## INTRODUCTION

The State also reports disbursements and receipts activity for **All Governmental Funds** (All Funds), which includes spending from Capital Projects Funds and Federal Funds, in addition to State Operating Funds. The All Funds basis is the most comprehensive view of the cash-basis financial operations of the State.

The terms “actual”, or “actuals”, or “results” are used throughout the Financial Plan to mean year-to-date unaudited data and (i) prior to the release of audited financial statements by OSC on or before July 29<sup>th</sup> of each year, year-end actual but unaudited data, or (ii) after the release of audited financial statements by OSC, year-end actual audited data.

Differences may occur from time to time between DOB and OSC financial reports in presentation and reporting of receipts and disbursements. For example, DOB may reflect a net disbursement amount while OSC may report the gross disbursement amount. Any such differences in reporting between DOB and OSC could result in differences in the presentation and reporting for total receipts and disbursements under different fund perspectives (e.g., State Operating Funds and All Funds).

# **FINANCIAL PLAN OVERVIEW**

---

## Overview

FINANCIAL PLAN AT-A-GLANCE: KEY MEASURES (millions of dollars)					
	FY 2025 Actuals	FY 2026			
		First Quarter	Change	Mid-Year	
<b>State Operating Funds Disbursements<sup>1</sup></b>					
Size of Budget	\$133,654	\$146,103	\$1,410	\$147,513	
Annual Growth	4.0%	9.3%		10.4%	
<b>Other Disbursement Measures</b>					
General Fund (Including Transfers) <sup>2</sup>	\$108,676	\$125,512	\$970	\$126,482	
Annual Growth	8.5%	15.5%		16.4%	
Capital Budget (State and Federal)	\$16,975	\$19,359	(\$423)	\$18,936	
Annual Growth	15.4%	14.0%		11.6%	
Federal Operating Aid	\$90,842	\$88,916	\$3,022	\$91,938	
Annual Growth	-0.9%	-2.1%		1.2%	
All Funds	\$241,471	\$254,378	\$4,009	\$258,387	
Annual Growth	2.8%	5.3%		7.0%	
<b>Inflation (CPI)</b>	2.8%	3.2%		2.8%	
<b>All Funds Receipts<sup>3</sup></b>					
Taxes	\$113,431	\$120,224	\$1,615	\$121,839	
Annual Growth	6.3%	6.0%		7.4%	
Miscellaneous Receipts	\$34,761	\$38,996	(\$168)	\$38,828	
Annual Growth	3.0%	12.2%		11.7%	
Federal Receipts (Operating and Capital)	\$96,713	\$94,090	\$3,926	\$98,016	
Annual Growth	2.6%	-2.7%		1.3%	
Total All Funds Receipts	\$244,905	\$253,310	\$5,373	\$258,683	
Annual Growth	4.3%	3.4%		5.6%	
<b>General Fund Cash Balance</b>	\$56,916	\$44,919	\$3,169	\$48,088	
Principal Reserves	\$21,603	\$14,103	\$500	\$14,603	
Timing of PTET/PIT Credits	\$18,218	\$16,170	\$2,200	\$18,370	
Extraordinary Monetary Settlements	\$732	\$392	\$0	\$392	
All Other	\$16,363	\$14,254	\$469	\$14,723	
<b>State Workforce (FTEs)</b>					
Executive	112,952	124,632	63	124,695	
University Systems	62,947	63,032	1,582	64,614	
Independent Agencies	4,704	5,204	0	5,204	
<b>Debt</b>					
Debt Service (excl. prepayments) as % All Funds Receipts	2.5%	2.7%		2.9%	
State-Related Debt Outstanding	\$55,881	\$63,980	(\$674)	\$63,306	
Debt Outstanding as % Personal Income	3.3%	3.6%		3.6%	

<sup>1</sup> FY 2026 spending includes \$1.2 billion in State share reimbursements related to the Managed Care Organization (MCO) assessment transaction that are cost neutral with an offset of MCO receipts.

<sup>2</sup> General Fund spending grows 9.8 percent excluding the \$7.1 billion transfer to the Federal Unemployment Account.

<sup>3</sup> All Funds tax receipts are adjusted to exclude the planned payment of \$2 billion inflation tax refunds to qualified New York tax filers.

This Mid-Year Financial Plan Update reflects revisions to the annual projections of receipts and spending in all years based on an updated economic forecast and operating results for the first half of the fiscal year, programmatic experience and outcomes, ongoing operational needs, and the impact of the Federal House of Representatives Bill 1 (H.R. 1) legislation.

At the time of the Enacted Budget Financial Plan release in June 2025, the State faced elevated recession fears among economists and business leaders. The U.S. economy had experienced its first contraction in three years during the first quarter of 2025 coupled with significantly lower growth rates and higher inflation estimates that were raising concerns about “stagflation.” DOB’s outlook at the time, like other independent forecasts, was driven by softening employment trends, higher unemployment projections, significantly higher tariff expectations that created economic uncertainty and financial market volatility. Accordingly, the Enacted Budget Financial Plan prudently included downward revisions to projected tax receipts totaling roughly \$4 billion in each fiscal year beginning in FY 2027. The receipts revisions were mostly concentrated in PIT at the time, consistent with the forecasted slowdown in employment growth, which was expected to drive lower withholding collections, and an expected decline in finance and insurance bonuses after historically high bonuses in the first quarter of 2025.

The economic outlook has now improved significantly from DOB’s previous forecast, reflecting strong wage growth, continued stock market strength fueled by expected growth in the technology sector, and slower than expected impacts from the tariffs. The revised economic outlook, strong withholding collections to date, and an improved finance and insurance bonus forecast establish the basis for upward revisions to baseline estimated General Fund tax receipts of \$2.6 billion in the current year and \$5.3 billion in FY 2027 included in this Financial Plan update<sup>3</sup>, with comparable increases in subsequent years. These upward revisions to tax receipts in the Mid-Year Financial Plan more than offset the forecasted declines recognized in the FY 2026 Enacted Budget Financial Plan.

Despite the present positive outlook, the State continues to face economic risks and fiscal challenges stemming from recent Federal legislation and policies, uncertainty and volatility caused by the ongoing Federal government shutdown and failure to pass a short-term concurrent resolution, a softening labor market, unpredictable tariff policies and concomitant concerns about the potential for a trade war, and the inherent risk of stock market concentration in large technology companies. Other headwinds that exacerbate multi-year fiscal risks and uncertainty include the ongoing implications of sustained trends of elevated enrollment and rising costs in public health insurance programs, and Federal spending reductions that are expected to negatively impact health care delivery and coverage, social services, public safety, climate change, and clean energy programs.

In addition to the tax receipts revisions, the Mid-Year Financial Plan includes State costs associated with the H.R. 1 bill signed by the President on July 4, 2025, which substantially altered Federal funding for health care, food security programs and services provided to New Yorkers and amended the Federal tax liability of New York’s residents and businesses. The Federal bill is projected to increase State costs by roughly \$800 million in the current year, \$3.4 billion next year, and grows to more than \$4 billion by FY 2029.

---

<sup>3</sup> Baseline tax receipts revisions exclude recognition of H.R. 1 impacts on tax receipts.

Other changes include upward revisions to non-tax receipts, which mainly account for Federal Emergency Management Agency (FEMA) reimbursements of prior year COVID-19 expenditures and higher investment income earnings. The multi-year forecast for spending has also been reduced across various programs to reflect continued underspending and updated data and programmatic assumptions, including savings attributable to level enrollment trends in Medicaid Managed Long-Term Care (MLTC), primarily due to the implementation of the statewide fiscal intermediary (FI) in the Consumer Directed Personal Assistance Program (CDPAP). These additional savings are achieved without any changes to CDPAP eligibility requirements.

The updated Financial Plan also recognizes additional costs related to hunger prevention and food security programs to assist families and individuals that may lose Supplemental Nutrition Assistance Program (SNAP) benefits in the near term; staffing shortages at correctional facilities; higher employee fringe benefit costs, including a larger than expected pension bill due to recently enacted retirement enhancements; and increased transfers to support capital projects. In addition, the updated Financial Plan includes a planned \$750 million prepayment of debt service costs that are due in FY 2027 and restoration of \$500 million in reserves that were previously planned to offset costs for assistance to asylum seekers.

The aggregate changes in this Mid-Year Financial Plan Update reduce the cumulative outyear budget gaps from the levels estimated in the First Quarterly Update. The projected budget gaps now total \$4.2 billion in FY 2027, \$10 billion in FY 2028, and \$12.6 billion in FY 2029. These projected gaps, which include Medicaid spending projections that exceed the Global Cap spending allowance by over \$3 billion beginning in FY 2027, are due to spending growth outpacing available resources and impacts to the State due to H.R. 1. The outyear gaps benefit from the accumulation of prior year prepayments and available fund balances, and absent these resources, the gaps would be higher.

The Governor will propose a FY 2027 Executive Budget by January 20, 2026, that must include a plan to provide for balanced General Fund operations on a cash basis in FY 2027.

General Fund Revisions

The following table summarizes the General Fund revisions in this Mid-Year Update by financial plan category. These revisions, as well as adjustments to annual estimates in State and Federal Special Revenue Funds and Capital Projects Fund, have been incorporated into projected receipts and disbursements throughout the Financial Plan.

FY 2026 MID-YEAR UPDATE GENERAL FUND REVISIONS SAVINGS/(COSTS) (millions of dollars)				
	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected
<b>FIRST QUARTERLY UPDATE SURPLUS/(GAP)</b>	<b>0</b>	<b>(7,483)</b>	<b>(12,145)</b>	<b>(14,637)</b>
<b>Receipts</b>	<b>4,139</b>	<b>6,506</b>	<b>5,112</b>	<b>3,912</b>
Tax Receipts	1,817	4,533	4,583	3,892
PTET/PIT Tax Receipts	2,200	880	332	(167)
Debt Service	(760)	786	6	2
Miscellaneous/Federal Receipts	203	220	4	3
Transfers from Other Funds	679	87	187	182
<b>Disbursements</b>	<b>(970)</b>	<b>(2,297)</b>	<b>(2,668)</b>	<b>(2,037)</b>
Assistance and Grants	721	(1,718)	(2,487)	(1,934)
Agency Operations	(756)	(82)	(230)	(96)
Transfers to Other Funds	(935)	(497)	49	(7)
<b>Use of/(Deposit to) Reserves</b>	<b>(3,169)</b>	<b>(880)</b>	<b>(332)</b>	<b>167</b>
Rainy Day Reserve	0	0	0	0
Tax Stabilization Reserve	0	0	0	0
Contingency Reserve	0	0	0	0
Community Projects Reserve	0	0	0	0
Other Reserves	(3,169)	(880)	(332)	167
<b>MID-YEAR UPDATE SURPLUS/(GAP) ESTIMATE</b>	<b>0</b>	<b>(4,154)</b>	<b>(10,033)</b>	<b>(12,595)</b>

The Mid-Year Financial Plan Update reflects increases to projected receipts across all years mainly due to higher PIT withholding and estimated payments. Higher PIT receipts are partially offset by lowered business tax estimates related to the H.R. 1 impacts. Tax receipts are also revised to reflect the \$750 million planned prepayment of FY 2027 debt service costs and other revisions. PTET and related PIT impacts have also been revised and are Financial Plan neutral utilizing the Reserve for PTET/PIT credits. Miscellaneous receipts revisions reflect higher investment income due to elevated interest rates and liquidity levels. Transfers from other funds have been adjusted upward to reflect FEMA reimbursements of prior year COVID-19 related expenses; mental hygiene patient income revenue revisions; and updated information on the timing of available resources in funds outside the General Fund.

Revisions to Financial Plan disbursements have been made across nearly all major program and service areas and all years. The changes reflect spending experience to date and updated program assumptions, such as fluctuations in enrollment and participation rates, delayed implementation and slower than projected phase-in of initiatives and program expansions, and recent agency management plans. However, downward spending revisions, particularly in later years, are eclipsed by increased costs related to the impacts of H.R. 1 presented in the "State Impact of Federal H.R. 1 Legislation" section herein, as well as increases to current year operational costs.

Assistance and grants spending revisions include lower spending estimates across nearly all programs and services, with the largest savings in health and human services. Excluding the impact of the Federal H.R. 1 bill, Medicaid spending is revised downward to account for lower enrollment levels in the Managed Care and MLTC programs. The recent CDPAP reforms moving to a single FI are expected to exceed the \$500 million savings estimate, which is partially related to ending the conflicts of interest that previously existed, while preserving access to critical home care services. However, these savings are muted by higher costs attributable to increasing pharmacy claims and prices, lower pharmaceutical rebates, and rising personal care costs associated with the continuation of and increasing enrollment in the Nursing Home Transition & Diversion waiver program. An additional \$65 million in funding is directed to hunger prevention, the State's network of food banks, and food security programs to address the impending halt in SNAP benefits due to the ongoing Federal government shutdown. Mental Hygiene spending estimates have been lowered due to timing delays related to mental hygiene contract payments that push costs into future years, and adjustments to new bed development and service utilization. Human Services spending is adjusted downward to reflect timing related reestimates for the Empire State Supportive Housing Initiative (ESSHI) program and Afterschool programs, as well as program right-sizing and resource maximization for various other programs, including the Emergency Rental Assistance Program (ERAP).

Higher agency operations spending, particularly in the current year, reflect costs to address the continued staffing shortage at correctional facilities through FY 2026; retroactive salary increases for State Police consistent with a labor deal reached earlier this year; a higher-than-expected pension bill due in part to recently enacted retirement enhancements; increased employee fringe benefit costs as agencies' workforce levels continue to increase; and DOH operational costs related to the projected impact of Federal changes to the Essential Plan (EP) and new Medicaid work requirements.

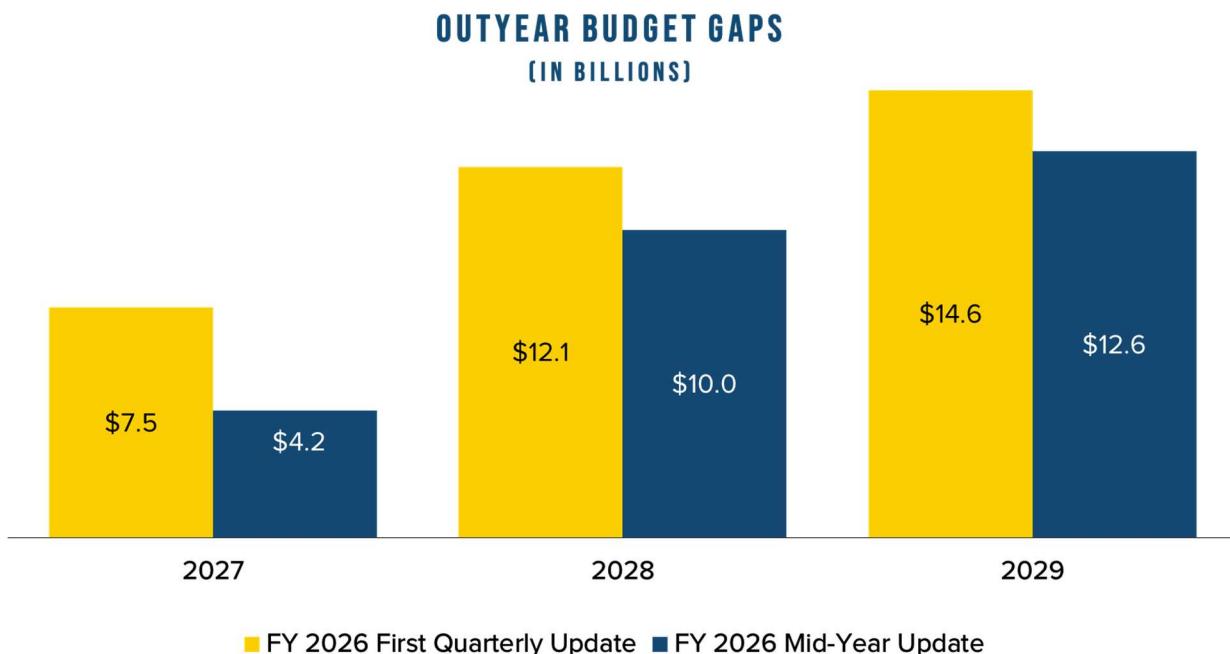

Revisions to transfers to other funds include increased General Fund support for capital project spending due to timing of the bond proceeds reimbursement, the planned repayment of certain outstanding accounts receivables, and adjustments to the timing of transfers to the Health Care Transformation Fund.

Changes to reserves include timing-related adjustments to the Reserve for PTET/PIT credits, the use of unrestricted balances carried forward from prior years, and the retention of funds reserved for economic uncertainties.

### Outyear Budget Gaps

The outyear budget gaps have been revised downward from the First Quarterly Update, in large part due to the updated economic outlook that drives higher tax receipts. If the FY 2027 Budget is balanced with recurring savings, then the outyear budget gaps would be in the range of \$6 billion to \$8 billion, respectively.

The outyear budget gaps are the result of a structural imbalance between forecasted levels of spending growth and available resources. The projected gaps include a \$2 billion transaction risk reserve in each year, as well as the use of prior year surpluses carried forward into future years and conservative estimates of disbursements, a practice that provides a cushion for potential receipts shortfalls and unanticipated costs that may materialize.

Tax receipts are projected to grow 3.4 percent on average through FY 2029, compared to the 2.6 percent previously estimated in the Enacted Budget Financial Plan. Tax receipts support roughly 80 percent of State Operating Funds spending which is projected to increase by 6.0 percent on average through FY 2029.

### Risks and Reserves

The Financial Plan faces ongoing economic risks, including price inflation; geopolitical uncertainties; climate change and natural disasters; programmatic cost pressures; uncertainty about the fiscal conditions of outside entities relying on State assistance; and risks due to the State's dependence on Federal funding and approvals. While DOB's forecast of receipts and spending is primarily based on current law and reasonable assumptions as of the time it is prepared, economic uncertainties and the dependence of the State's tax base on the financial sector are embedded risks.

The United States has experienced eight recessions since the late 1960s that resulted in declines in economic output and corporate profits, stock market losses, job losses, and business contraction. DOB has evaluated and continues to evaluate the impacts of these past downturns to predict potential impacts of a future recession. DOB currently estimates that tax receipts can be expected to fall between \$35 billion and \$50 billion cumulatively over a three-year period in a recession that resembles those experienced after September 11<sup>th</sup> and during the Great Recession of 2008.

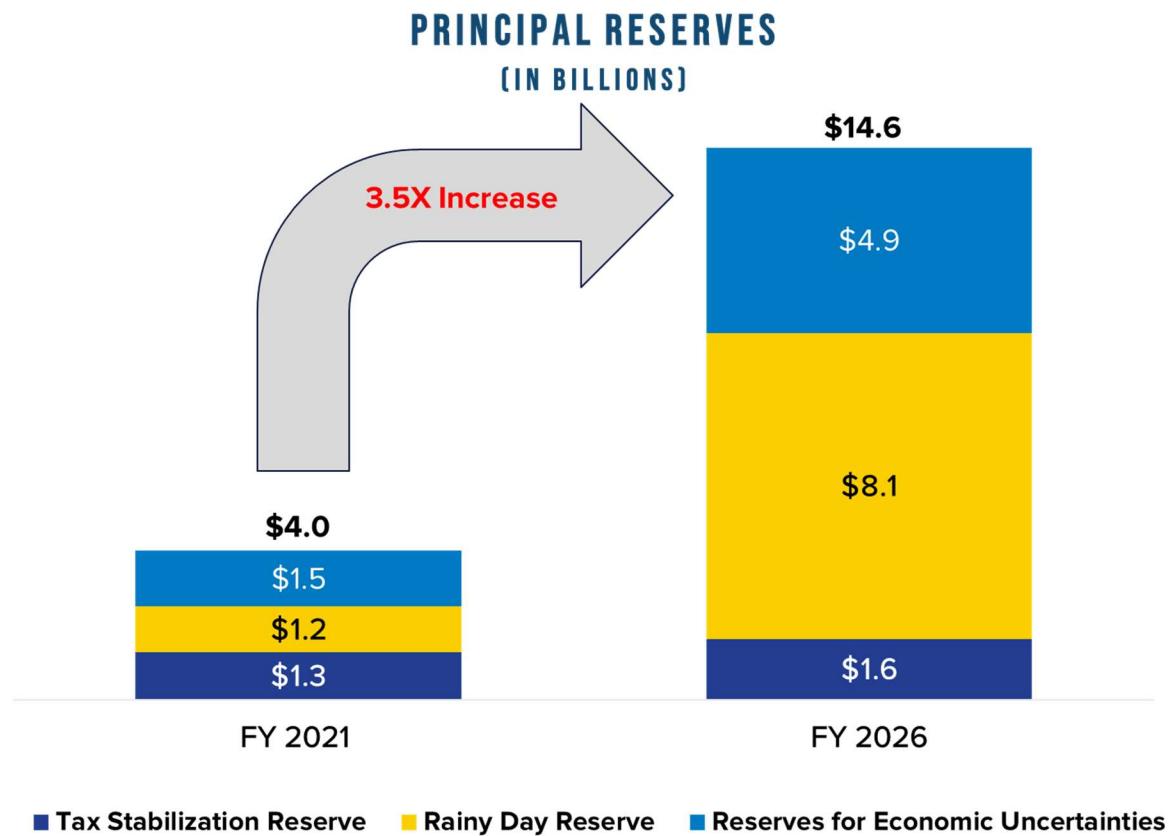

Outside experts widely view robust reserves as an essential tool for mitigating service reductions and public employee layoffs during a recession. New York State continues to maintain reserves equal to 9.9 percent of the State Operating Funds budget, even after accounting for paying off the Unemployment Insurance (UI) Trust Fund balance in FY 2026.

Over the past several years, the State has significantly increased reserves to ensure that it can honor its commitments when facing bad times. The State has defined Principal Reserves as the compilation of three reserves: the Tax Stabilization Reserve Fund, the Rainy Day Reserve Fund, and amounts informally reserved for economic uncertainties. The first two, which are known collectively as the "Rainy Day Reserves," have specific statutory limits on how much can be deposited annually and specific conditions on when they can be used and how any use must be repaid. The reserve for economic uncertainties is an informal designation of General Fund resources that was initiated in FY 2020 and is not subject to any statutory limitations on magnitude or use. Together, these funds provide a prudent buffer against financial risks.

In FY 2025, the State increased the statutory Rainy Day Reserve Fund by \$2 billion -- \$1.5 billion in new money added and \$1 billion transferred from the discretionary reserve for economic uncertainties. The transfer in FY 2025 is the first of four planned installments to achieve the goal of bringing the balance in the Rainy Day Reserve Fund to \$10 billion by FY 2028, as fiscal conditions permit.

The Financial Plan maintains \$14.6 billion in Principal Reserves, which remain at historically high levels – more than 3.5 times the level held 5 years ago and nearly 8 times the level held a decade ago.

State Impact of Federal H.R. 1 Legislation

On July 4, 2025, the President signed H.R. 1, that substantially alters Federal funding for health care and food security programs and services provided to New Yorkers and amends the Federal tax liability of New York's residents and businesses. The bill modifies tax rates, deductions, and credits; adjusts eligibility requirements for several Federal benefit programs, including adding and expanding work and community engagement requirements; and makes reductions and amendments to Medicaid and nutrition assistance funding. The State costs included in this Mid-Year update are summarized below.

FEDERAL HOUSE RECONCILIATION H.R. 1 SAVINGS/(COSTS) (millions of dollars)				
	FY 2026	FY 2027	FY 2028	FY 2029
<b>TOTAL</b>	<b>(952)</b>	<b>(3,548)</b>	<b>(4,395)</b>	<b>(4,292)</b>
<b>TAX RECEIPTS (ALL FUNDS)</b>	<b>(922)</b>	<b>(960)</b>	<b>(761)</b>	<b>(648)</b>
Corporate Franchise Tax	(900)	(950)	(780)	(660)
Personal Income Tax	(22)	(10)	19	12
<b>HEALTHCARE</b>	<b>(30)</b>	<b>(2,570)</b>	<b>(3,598)</b>	<b>(3,608)</b>
Disallowing Premium Tax Credit	0	(2,251)	(3,052)	(3,062)
Restrictions on Qualified Immigrants	0	(241)	(483)	(483)
Community Engagement Requirements	0	(50)	(40)	(40)
Reproductive Health Services	(16)	(5)	0	0
Vaccine Coverage	(14)	(23)	(23)	(23)
<b>SNAP</b>	<b>0</b>	<b>(18)</b>	<b>(36)</b>	<b>(36)</b>
Increasing Administrative Cost Sharing	0	(18)	(36)	(36)

**Federal Tax Law Changes.** The bill made multiple changes to Federal tax law for individual and corporate filers. H.R. 1 permanently extends the current income tax rates originally enacted in 2017. The State and Local Tax (SALT) deduction cap is temporarily increased from \$10,000 to \$40,000 for filers with incomes below \$500,000, phasing down to \$10,000 for filers with higher incomes. The higher SALT deduction cap will go into effect for tax year 2025 and will be adjusted for inflation through tax year 2029. The cap reverts to \$10,000 in 2030 and is now permanent. Several other provisions will benefit filers in New York State including the deduction for seniors, the increase in the Child Tax Credit, and the deductibility of tip and overtime income. Most income tax provisions, excluding the enhancement of the child and dependent care tax credit, do not flow through to State tax liability and as a result have a minimal impact on the State's PIT revenues.

Several changes made to the Federal tax code in H.R. 1 will flow through and impact the State's corporate franchise tax (CFT) revenues. The largest impacts are related to changes in Federal business allowable expense provisions. While New York is decoupled from changes to bonus depreciation, New York filers will be able to benefit from recognizing the full expense of domestic research and experimental expenditures, depreciation allowances for production properties, and

increased limits on small business expensing. These changes allow filers to claim the business expenses sooner thereby lowering liability in the near term, though they are revenue neutral over a long-term horizon absent time value of money effects. These changes are estimated to reduce business tax revenues over the financial plan period.

**Health Care.** Beginning January 1, 2026, certain non-citizen populations will be disqualified from obtaining premium tax credits, which eliminates the Federal funding received for this population in the EP. Individuals with incomes below 138 percent of the Federal Poverty Level (FPL), pregnant/post-partum individuals, and Deferred Action for Childhood Arrivals individuals who currently qualify and are enrolled in the EP but are also eligible for Medicaid may be moved to Medicaid at a projected State cost of \$3 billion per year when fully annualized. To alleviate new State costs and maintain coverage for as many individuals as possible, DOH has submitted a request to Centers for Medicare & Medicaid Services (CMS) to terminate its 1332 State Innovation Waiver (1332 Waiver) and EP expansion and reactivate its (currently suspended) Basic Health Program authorized under Section 1331 of the Affordable Care Act (ACA). This proposal is not reflected in the Mid-Year Update and will be included in future Financial Plan updates if the State receives Federal approval.

Effective January 1, 2027, States are required to establish Medicaid community engagement requirements for certain individuals. Non-exempted Medicaid recipients must participate in at least 80 hours of work, education, and/or community service per month to maintain eligibility. Exempted recipients include pregnant women, people with disabilities, and caregivers of young children. DOH estimates as many as 750,000 to 1.5 million enrollees may be impacted.

In addition, the loss of Federal funding previously provided for reproductive healthcare services and the coverage of vaccinations will cost the State over \$100 million over the multi-year Financial Plan. Federal provider tax requirements and limitations are not expected to impact the Financial Plan until FY 2030.

**SNAP.** The administration of SNAP benefits and most of the associated costs are covered by local districts. H.R. 1 increased the state/local district administrative cost-sharing from 50 percent to 75 percent. The anticipated cost to the State for the shift is \$18 million in FY 2027 and \$36 million annually thereafter.

H.R. 1 also implements a new non-Federal share of the benefits in the SNAP program, ranging from 5 percent to 15 percent of program costs, effective as early as October 1, 2027, though this implementation date may be delayed. Due to current uncertainty around the future match rate for the State of New York, no costs are reflected in the Financial Plan.

### Spending Summary

The Mid-Year Financial Plan Update increases FY 2026 estimated spending by \$4 billion for All Governmental Funds and \$1.4 billion for State Operating Funds compared to the levels estimated in the First Quarterly Update.

Higher State Operating Funds spending is largely driven by a planned debt prepayment, State University of New York (SUNY) operational spending increases, continuing costs related to prison staffing shortages, and retroactive salary increases for State Police. In addition, upward revisions to Federal spending contributes to the higher All Funds estimate and includes additional FEMA reimbursements related to costs incurred for COVID-19 pandemic response and recovery efforts passed through to local entities, and higher projected health care spending in the current year related to EP program utilization and CHP spending.

The following table summarizes the updated FY 2026 spending estimates compared to FY 2025 reported spending.

FY 2026 MID-YEAR UPDATE SPENDING ESTIMATES (millions of dollars)				
	FY 2025 Actuals	FY 2026 Projected	\$ Change	% Change
<b>State Operating Funds</b>	<b>133,654</b>	<b>147,513</b>	<b>13,859</b>	<b>10.4%</b>
School Aid (School Year Basis)	35,827	37,574	1,747	4.9%
Medicaid	31,230	35,440	4,210	13.5%
All Other Assistance and Grants	28,802	33,825	5,023	17.4%
Agency Operations	34,019	38,386	4,367	12.8%
Debt Service	3,776	2,288	(1,488)	-39.4%
Capital Projects	16,975	18,936	1,961	11.6%
Federal Operating	90,842	91,938	1,096	1.2%
<b>All Funds</b>	<b>241,471</b>	<b>258,387</b>	<b>16,916</b>	<b>7.0%</b>

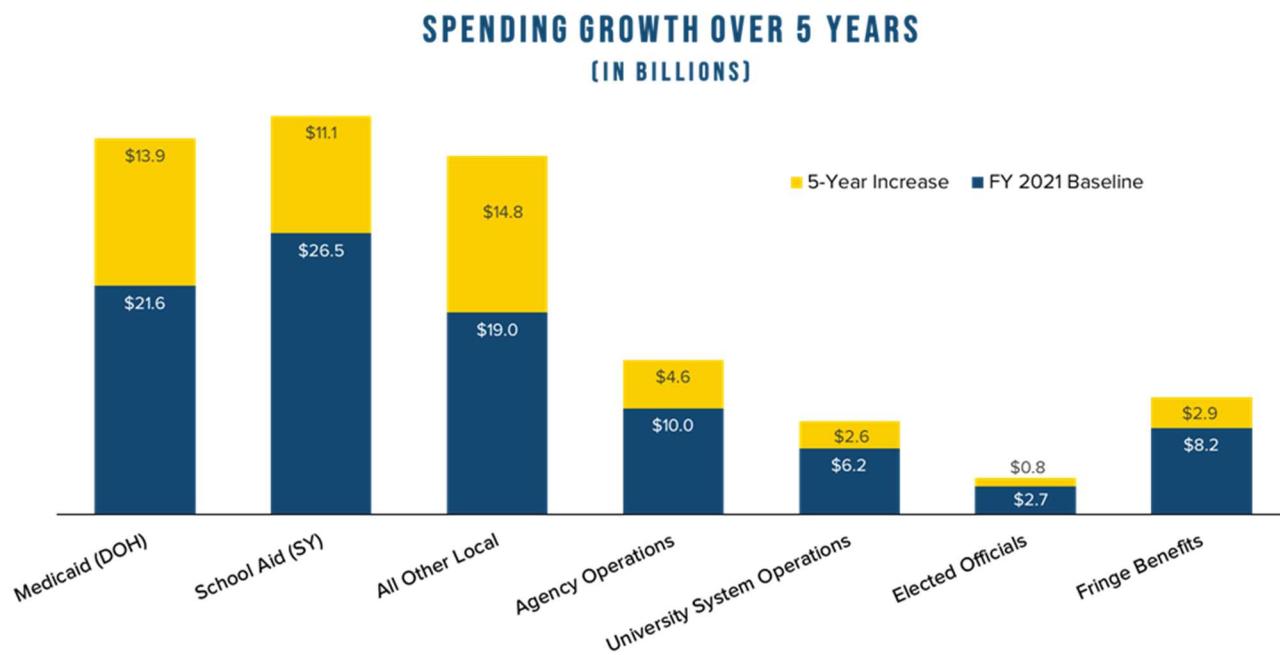

The State's two largest programs, School Aid and Medicaid, continue to drive a large share (nearly half) of the spending growth in FY 2026. All other assistance and grants spending growth includes projected increases of \$2.7 billion for all other areas including social services, mental hygiene, public safety, transportation, and higher education, as well as \$2.3 billion in Other State Agency (OSA) local Medicaid spending that has been moved from the Department of Health (DOH) Medicaid Global Cap. Beginning in FY 2026, these costs that were previously reported in the DOH budget will now be reported in the respective agency budgets to more appropriately align program activities and costs to agencies responsible for managing such spending.

Agency Operations spending growth in FY 2026 is projected across all branches of government and SUNY, reflecting increases in workforce, salaries, fringe benefits, and operational costs. The growth also includes significant costs associated with stabilizing the correctional system.

Debt service spending is impacted by prepayments. A detailed table of the net impact of prepayments on the multi-year estimates of debt service costs appears in the section entitled, "State Financial Plan Multi-Year Projections."

Over the past several years, the State has made historic investments in nearly all program areas, including: fully funding Foundation Aid to schools; supporting health care delivery improvements; expanding access to mental health services, child care, and housing; providing assistance to distressed hospitals, other health care providers and workers; increasing support for higher education and university operations; addressing gun crime and violence; expanding access to school meals; protecting the environment; and improving energy affordability.

The investments made in recent years have increased projected spending for assistance and grants by roughly \$40 billion, or 60 percent, from the \$67 billion recorded five years ago<sup>4</sup> to \$107 billion projected in FY 2026. Nearly two-thirds of this growth is concentrated in School Aid and Medicaid, reflecting historic, recurring funding increases for schools and the health care system. New York continues to spend significantly more on these two programs than any other state in the nation.

<sup>4</sup> FY 2021 reported State Operating Funds assistance and grants totaled \$65 billion inclusive of a temporary Enhanced Federal Medical Assistance Percentage (eFMAP) that lowered State Medicaid spending and one-time payments delayed from FY 2020 due to the pandemic. Excluding these temporary spending impacts, baseline spending is calculated at \$67 billion in FY 2021.

**School Aid.** The State provides a substantial amount of financial support for public schools through State formula aids and grants. Currently, approximately 2.4 million kindergarten through 12<sup>th</sup> grade students are enrolled in the State's public schools, including 186,000 students enrolled in charter schools. For more than a decade, New York has ranked first among the states for per pupil spending. In School Year (SY) 2023, New York spent \$30,012 per pupil, almost double the national average of \$16,526 per pupil and approximately 14 percent higher than second ranked Vermont.<sup>5</sup>

New York's per-pupil spending has increased from roughly \$20,000 in SY 2013 to \$30,000 as of SY 2023. This increase was supported in large part by the three-year phase-in of full funding of the Foundation Aid formula completed in SY 2024, which aided in adding over \$6.6 billion (23 percent) to State-funded School Aid between SY 2022 and SY 2025. In addition to State aid, school districts have continued to raise revenue through local property tax increases, which when combined with State aid increases and Federal COVID-19 pandemic related assistance, have afforded many districts the ability to amass substantial reserves and surplus balances.

Adding to the historic increases in funding over the past several years, School Aid in SY 2026 increases \$1.7 billion (4.9 percent). Since SY 2022, State-funded School Aid will have increased by roughly \$8.3 billion (28.4 percent), inclusive of the increase in the FY 2026 Enacted Budget.

**Medicaid.** The New York State Medicaid Program provides health and long-term care coverage to lower-income children, pregnant women, adults, seniors, and people with disabilities. The Medicaid program also funds a portion of wages for home care workers and caregivers self-directed by consumers under the CDPAP and is a large contributor of funding to both public and private hospitals, as well as nursing homes, through various supplemental programs. Medicaid spending growth continues to escalate as utilization of the system, primarily MLTC, which includes the CDPAP, rises with an aging population.

Nearly 7 million individuals (36 percent of the State's population) are currently covered by Medicaid. When combined with other public insurance coverage, such as Child Health Plus (CHP) and EP, New York has the highest percent of people covered by publicly funded medical insurance in the nation, with over 9 million people enrolled. The State offers some of the most comprehensive and extensive Medicaid benefits in the nation, including optional services such as coverage for pharmacy and personal care services. As of 2024, New York's \$4,755 per capita spending was more than 44 percent above the national average of \$2,657 per capita and over 18 percent higher than the next highest spending state, Kentucky, which spent \$3,897 per capita.<sup>6</sup>

Medicaid costs are financed jointly by the Federal, State, and local governments. New York receives the minimum Federal Medicaid matching share of roughly 50 percent. Local districts' costs have been capped at calendar year 2015 levels, saving the City of New York and counties billions of dollars annually by shifting the costs to the State. In FY 2026, local governments will save an estimated \$8.3 billion, bringing the cumulative total saved to nearly \$54 billion since 2015.

<sup>5</sup> U.S. Census Bureau, 2023 Annual Survey of School System Finances.

<sup>6</sup> CMS data (Federal Fiscal Year 2024).

## FINANCIAL PLAN OVERVIEW

In FY 2026, DOH Medicaid spending (excluding operational costs) is projected to total \$35.4 billion, triple the spending level from 15 years ago. The growth is driven by medical cost increases, elevated enrollment levels, expansion of benefits, compounding rate increases, and continued growth in aging and high utilization populations. Other State cost pressures include, but are not limited to, home health wage increases, rising costs and enrollment growth in MLTC, and the increasing needs of financially distressed hospitals. The State continues to evaluate the health care delivery system and opportunities to reduce costs to ensure long-term Medicaid spending levels are sustainable.

---

# **GENERAL FUND FINANCIAL PLAN**

---

### General Fund Financial Plan Overview

The State's General Fund receives most State taxes and other income not earmarked for a specified program or activity. The General Fund must be balanced at the end of each fiscal year and in the budget year as of the proposed Executive Budget and the Enacted Budget.

General Fund receipts are affected by the deposit of dedicated taxes in other funds for debt service and other purposes, the transfer of balances between funds of the State, and other factors. Three significant factors affect reported General Fund tax receipts, including the following:

- Changes in debt service on State-supported revenue bonds affect General Fund tax receipts. The State utilizes bonding programs where tax receipts are deposited into dedicated Debt Service Funds (outside the General Fund) and used to make debt service payments. After satisfying debt service requirements for these bonding programs, the balance is transferred to the General Fund. As such, prepayment of future debt service often impacts General Fund tax receipts.
- The STAR program is funded from PIT receipts that are deposited to the fund held outside of the General Fund. Therefore, changes in the State-supported cost of the program affect reported and estimated PIT receipts.
- Tax receipts are affected by the PTET program, however, the reserve balance for this purpose offsets the net impact annually, making it General Fund balance neutral. The table below and following discussion isolate the impact of PTET receipts. The operation of the PTET program is described in more detail under the heading "PTET Financial Plan Impact" at the end of this section.

General Fund disbursements represent more than two-thirds of total State Operating Funds spending and are affected by the level of financing sources available in other funds, transfers of balances between funds of the State, and other factors that may change annually. For example, education and health care programs are affected by the level of financing sources (i.e., HCRA and lottery/gaming receipts) available in other funds. Projected spending also reflects DOB's conservative estimates of disbursements, a practice that provides a cushion for potential receipts shortfalls and unanticipated costs.

A comprehensive discussion of the multi-year projections of tax receipts and disbursements on a State Operating Funds and/or All Funds basis is presented in the "State Financial Plan Multi-Year Projections" section herein.

## GENERAL FUND FINANCIAL PLAN

### FY 2026 General Fund Financial Plan

The following table summarizes the projected annual change in General Fund receipts, disbursements, and fund balances from FY 2025 results to FY 2026 projected.

GENERAL FUND FINANCIAL PLAN (millions of dollars)				
	FY 2025 Actuals	Change	FY 2026 Projected	Annual Growth
<b>Opening Fund Balance</b>	<b>46,331</b>	<b>10,585</b>	<b>56,916</b>	<b>22.8%</b>
<b>Total Receipts</b>	<b>119,261</b>	<b>(1,607)</b>	<b>117,654</b>	<b>-1.3%</b>

<b>Net Change in Operations</b>	<b>10,585</b>	<b>(19,413)</b>	<b>(8,828)</b>	<b>-183.4%</b>
<b>Closing Fund Balance</b>	<b>56,916</b>	<b>(8,828)</b>	<b>48,088</b>	<b>-15.5%</b>
<b>Statutory Reserves:</b>				
Community Projects	25	0	25	
Contingency	21	0	21	
Rainy Day Funds	8,756	1,000	9,756	
<b>Fund Balance Reserved for:</b>				
Debt Management	1,860	(860)	1,000	
Economic Uncertainties	12,847	(8,000)	4,847	
Extraordinary Monetary Settlements	732	(340)	392	
Future Operational Needs	3,099	(600)	2,499	
Timing of PTET/PIT Credits	18,218	152	18,370	
Timing of Resource Management	11,358	(180)	11,178	

### Receipts

Excluding the impact of debt prepayments and PTET, total General Fund tax receipts, including transfers after the payment of debt service, are estimated to total \$105.7 billion in FY 2026, an increase of \$6.1 billion (6.1 percent) from FY 2025. The following discussion of annual changes in tax receipts exclude the impact of PTET and debt prepayments.

PIT receipts are estimated to total \$75.3 billion in FY 2026, an increase of \$6.5 billion (9.4 percent) from the prior year, consistent with expected growth in all gross receipt components partially offset by an increase in total refunds.

Consumption/use tax receipts are estimated to total \$18.8 billion in FY 2026, a modest increase of \$408 million (2.2 percent) from FY 2025, a result of relative stability within taxable consumption in the sales tax base.

Business tax receipts are estimated to total \$9.2 billion in FY 2026, a decrease of \$947 million (9.3 percent) from the prior year, reflecting lower collections in insurance and CFT gross receipts. The decline is in part due to the impact of the Federal H.R. 1 bill.

Other tax receipts are estimated to total \$2.5 billion in FY 2026, an increase of \$159 million from FY 2025. The growth is mainly due to estimated increases in both estate tax and real estate transfer tax receipts. The increase is driven by growth in household net worth, housing starts, and the average housing price, as well as an expected decrease in estate tax refunds.

Non-tax receipts are expected to be lower in FY 2026 due largely to the final use of State and Local Fiscal Recovery Fund (SLFRF) resources in FY 2025 and the continued practice of budgeting for a \$2 billion transaction risk reserve that partially offsets total projected transfers from other funds and provides a hedge against risks to receipts that may materialize later in the current fiscal year. In addition, lower receipts are projected in FY 2026 for abandoned property and investment income commensurate with projected fund balance declines.

### Disbursements

Excluding the extraordinary transfers totaling \$7.1 billion to the Federal Unemployment Account; General Fund spending grows by 9.9 percent. Increases in spending is mostly driven by increased funding for Foundation Aid and Medicaid.

Assistance and grants spending supported by the General Fund is estimated to increase 11.3 percent in FY 2026 from the prior year level, inclusive of increases for education, health care, and continued time-limited support to the City of New York for asylum seeker assistance, as well as changes in the level of financing sources (i.e., HCRA and lottery/gaming receipts) available in other funds.

## GENERAL FUND FINANCIAL PLAN

General Fund support for School Aid is estimated to increase by \$1.4 billion (4.7 percent) on a State fiscal year basis. This growth reflects enacted reforms to the Foundation Aid formula, including updates to the formula's two measures of the percentage of low-income-students in a district, an increase in aid for English Language Learners, additional aid to low-wealth school districts, modifications to the Regional Cost index and a minimum 2 percent annual increase in aid to districts. In addition, the annual increase in School Aid spending reflects enhancements to Special Services Aid and Boards of Cooperative Educational Services (BOCES) Aid and provides additional aid to school districts with large portions of their enrollment attending charter schools.

Medicaid spending is projected to grow by \$1.6 billion, primarily due to the additional Global Cap spending allowance that supports enrollment and escalating MLTC growth offset by \$500 million in expected Managed Care Organization (MCO) assessment resources to support existing Global Cap investments. Beginning in FY 2026, costs reported under the DOH Medicaid budget exclude OSA local Medicaid expenses which were included under the Global Cap. These costs, previously reported in the DOH budget, will now be reported in the respective agencies, including the Office for People with Developmental Disabilities (OPWDD) and Office of Mental Health (OMH).

Other assistance and grants growth includes an expanded level and eligibility of child care subsidies; hunger prevention and nutrition assistance; programs for older adults; City of New York subway safety initiatives; funding to offset county costs related to the assigned counsel rate for attorneys providing services to low-income individuals; City University of New York (CUNY) operational support; asylum seeker assistance; and new initiatives to provide universal free school meals and free community college for high-demand fields.

State operations growth is mainly due to deployment of the National Guard members to staff prisons, enhanced correctional officer overtime rates, and expanded recruitment efforts to stabilize the prison system, as well as staffing increase across most state agencies. Drivers of growth include rising health insurance costs for State employees; general salary increases consistent with existing collective bargaining agreements; and investments in cybersecurity and information technology. In addition, spending has been increased for the Medication-Assisted Treatment (MAT) Program which provides treatment for incarcerated individuals in State correctional facilities with substance use disorder; enhanced security measures for correctional facilities; and an increase in the National Guard members assigned to the Joint Task Force Empire Shield Mission, which provides support to deter and prevent terrorist activity in the City of New York area, including transit and commuter hubs.

The Judiciary projects a substantial increase in FY 2026 spending to support general salary increases and other non-judicial staffing initiatives, including new court clerks and attorneys, costs associated with four court officer academy classes, and increased staffing levels to address case backlogs. The Judiciary's budget also includes funding for: ten City of New York Family Court Support Magistrates, ten City of New York Civil Court judges, and five Court of Claims judges; increases for various technology initiatives; cost of living adjustments for contractual providers of the Attorney for Child program; expansion of various programs including Alternative Dispute Resolution and Alternatives to Incarceration; and providing for health insurance and pension cost increases.

## GENERAL FUND FINANCIAL PLAN

Excluding the one-time \$7.1 billion extraordinary transfer to the Federal Unemployment Account in FY 2026, transfer to other funds decline by \$1.1 billion from FY 2025 levels. The drop in transfers is mainly due to lower support for capital projects accounting for the timing of bond proceed reimbursements and one-time funding for the Healthcare Stability Fund (HSF) in FY 2025. Other transfer changes include additional State general operating aid for SUNY four-year campuses and Downstate Hospital, funding to support targeted engineering pay increases and revised projections across various programs and funds.

### General Fund Closing Balance

The General Fund closing balance is comprised of Principal Reserves to protect essential services in the event of a significant economic downturn and other reserves that are programmed for the timing of payments and to reduce outyear gaps, manage risks, and support future costs that include tax refunds and liabilities, capital projects, and operational needs.

DOB expects the General Fund to end FY 2026 with a balance of just over \$48 billion, \$8.8 billion below the FY 2025 closing balance. The balance decrease is comprised of the use of \$7 billion from principal reserves to support the extraordinary transfer to the Federal Unemployment Account; \$860 million to support capital projects and manage debt levels; \$600 million to fund costs related to the correctional officer strike and staffing shortage; \$340 million for existing capital commitments and projects funded by extraordinary monetary settlements; and \$180 million for payments delayed from prior years. These uses are partly offset by a modest increase to the reserve for future PTET related credits. In addition, a transfer of \$1 billion from the discretionary reserve for economic uncertainties to the Rainy Day Reserve Fund is planned by the end of FY 2026.

### Cash Flow / Liquidity

DOB expects that the General Fund will maintain sufficient liquidity in FY 2026 to make all planned payments as they become due. General Fund resources used to pay debt service on bonds secured by dedicated receipts, including PIT bonds and Sales Tax Revenue bonds, continues to be set aside as required by law and bond covenants.

State law currently authorizes short-term financing for liquidity purposes during the fiscal year, which serves as a cashflow management tool to respond to unanticipated financial disruptions. Specifically, the authorization allows for the issuance of up to \$3 billion of PIT revenue anticipation notes which mature no later than March 31, 2026. Borrowed amounts cannot be extended or refinanced beyond the initial maturity. The Financial Plan does not assume the use of short-term financing for liquidity purposes. DOB evaluates operating results and liquidity levels regularly and may adjust the use of notes based on liquidity needs, market considerations, and other factors.

Balances held outside of the General Fund are mainly restricted or earmarked for specific purposes either statutorily or administratively and are generally unavailable for General Fund Operations or balance. These include funds dedicated to support circumscribed operating and programmatic expenses, including, but not limited to, SUNY, public transportation, legal services, health care transformation, the opioid settlement fund, the Insurance Department, capital projects, and certain propriety funds.

## PTET Financial Plan Impact

The U.S. Department of the Treasury (Treasury) and the Internal Revenue Service have determined that State and local income taxes imposed on and paid by a partnership or an S corporation on its income, such as the PTET, are allowable as a deduction to Federal taxable income. Legislation enacted in FY 2022 allows an optional PTET on the New York-sourced income of partnerships and S corporations. Qualifying entities that elect to participate can pay a PTET payment of up to 10.9 percent on their taxable income at the partnership or corporation level, and their individual partners, members and shareholders receive a refundable PIT credit equal to the proportionate or pro rata share of taxes paid by the electing entity. Additionally, the program includes a resident tax credit that allows for reciprocity with other states that have implemented similar taxes, which currently include Connecticut and New Jersey.

The Financial Plan estimates include PTET collections within business taxes and a corresponding decrease in PIT receipts. However, because the PTET credits are not necessarily realized by taxpayers within the same fiscal year that PTET revenue is received by the State, the PTET will not be revenue-neutral to the State within each fiscal year. The reserve balance established at the inception of the program has and is expected to continue to cover the difference between PTET collections and related PIT credits in each fiscal year making it General Fund balance neutral, as shown in the table below.

The discussion of tax receipts throughout the Financial Plan excludes the impact of PTET, unless otherwise noted.

FY 2026 MID-YEAR UPDATE GENERAL FUND IMPACT OF THE PASS THROUGH ENTITY TAX SAVINGS/(COSTS) (millions of dollars)					
	FY 2025 Actuals	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected
<b>General Fund Impact</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>
Tax Receipts <sup>1</sup>	4,081	152	154	248	339
PIT Credits	(13,700)	(17,102)	(17,258)	(17,396)	(17,641)
PTET Collections (Business Taxes)	17,781	17,254	17,412	17,644	17,980
Use of/(Deposit to) Reserve for PTET Refunds	(4,081)	(152)	(154)	(248)	(339)

<sup>1</sup> The impact of the PTET on Revenue Bond Tax Fund (RBTF) receipts is 50 percent of the impact on Tax Receipts.

---

# **SPENDING SUMMARY**

---

## Spending Summary

The following table summarizes the projected annual change in spending from FY 2025 reported levels to FY 2026 projections.

SPENDING SUMMARY FY 2025 TO FY 2026 (millions of dollars)				
	FY 2025 Actuals	FY 2026 Projected	\$	Annual Change %
<b>ASSISTANCE AND GRANTS</b>	<b>95,859</b>	<b>106,839</b>	<b>10,980</b>	<b>11.5%</b>
School Aid (School Year Basis)	35,827	37,574	1,747	4.9%
DOH Medicaid	31,230	35,440	4,210	13.5%

<b>AGENCY OPERATIONS</b>	<b>34,019</b>	<b>38,386</b>	<b>4,367</b>	<b>12.8%</b>
State Operations	23,576	26,825	3,249	13.8%
Executive Agencies	12,939	14,588	1,649	12.7%
FEMA Reimbursements	(401)	0	401	100.0%
State University System	7,941	8,793	852	10.7%
Judiciary	2,388	2,644	256	10.7%
Other Elected Officials	709	800	91	12.8%
General State Charges	10,443	11,561	1,118	10.7%
Pension Contribution	2,585	3,059	474	18.3%
Health Insurance	5,814	6,141	327	5.6%
Other Fringe Benefits/Fixed Costs	2,044	2,361	317	15.5%
<b>DEBT SERVICE</b>	<b>3,776</b>	<b>2,288</b>	<b>(1,488)</b>	<b>-39.4%</b>
<b>TOTAL STATE OPERATING FUNDS</b>	<b>133,654</b>	<b>147,513</b>	<b>13,859</b>	<b>10.4%</b>
<b>Capital Projects (State and Federal Funds)</b>	<b>16,975</b>	<b>18,936</b>	<b>1,961</b>	<b>11.6%</b>
<b>Federal Operating Aid</b>	<b>90,842</b>	<b>91,938</b>	<b>1,096</b>	<b>1.2%</b>
<b>TOTAL ALL GOVERNMENTAL FUNDS</b>	<b>241,471</b>	<b>258,387</b>	<b>16,916</b>	<b>7.0%</b>

State Operating Funds encompass the General Fund, and a wide range of State activities funded from dedicated revenue sources that are received outside the General Fund, including tax revenues, tuition, income, fees, and assessments. Many programs, services, and activities funded with dedicated revenue sources often have no direct bearing on the State's ability to maintain a balanced budget in the General Fund but are captured in State Operating Funds. However, certain dedicated revenue sources support spending that impacts General Fund spending, as revenues fluctuate. For example, education and health care programs are affected by the level of financing sources (i.e., HCRA and lottery/gaming receipts) available in other funds.

### Assistance and Grants

Most State spending is for assistance and grants that include payments to school districts, health care providers, MCOs, local governments, and other entities, as well as financial assistance to, or on behalf of, individuals, families, and not-for-profit organizations. School Aid and Medicaid account for most of assistance and grants spending and roughly half of total State Operating Funds spending.

Over the past three years, assistance and grants funding has increased substantially with increased funding for education, health care, and nearly all other major program areas.

For SY 2026, the State plans to provide \$37.6 billion in total School Aid, representing an annual increase of \$1.7 billion (4.9 percent). This includes a \$1.4 billion (5.7 percent) increase in Foundation Aid. The FY 2026 Enacted Budget reformed the Foundation Aid formula by updating the formula's two measures of the percentage of low-income students in a school district, increasing aid for English language learners, providing additional aid to low-wealth school districts, modifying the Regional Cost Index, and ensuring that each district receives at least a two percent annual increase in aid. In addition, the Budget enhanced Special Services Aid and BOCES Aid to better support career and technical education and increased aid to school districts with large portions of their enrollment attending charter schools.

DOH Medicaid spending is estimated at approximately \$35.4 billion in FY 2026, an annual increase of \$4.2 billion (13.5 percent). The growth is due to medical cost increases; enrollment remaining at elevated levels; benefit expansions; increases to reimbursement rates; costs associated with the assessment on MCO; and continued growth in aging and high utilization populations. Other factors that continue to place upward pressure on State-share Medicaid costs include, but are not limited to, provider reimbursements to cover home health wage increases; the phase-out of enhanced Federal funding; increased costs and enrollment growth in MLTC; and the needs of financially distressed hospitals.

The new MCO assessment is estimated to provide resources totaling \$3.7 billion over two years. The Financial Plan reflects the use of the funds over three years to support \$1 billion in existing Global Cap commitments and the remaining \$2.7 billion for new health care delivery investments. These investments and funding are subject to continued Federal approval, and thus the Financial Plan does not include any funding for these investments in the later years.

Higher Medicaid spending is also attributable to increased home and personal care utilization and costs; expanded access to health coverage; and higher provider reimbursements. The remaining growth is attributable to other costs reported outside of the Global Cap to support home care and minimum wage for health care providers (\$4.2 billion) and financial relief to counties and the City of New York associated with the State's full coverage of the local share of spending growth (\$2.2 billion).

Mental Hygiene spending growth supports targeted investments in services to ensure appropriate access to care for individuals with developmental disabilities, mental illness, substance use disorders, and problem gambling. FY 2026 spending levels include full annual costs of increased rates to programs serving people with developmental disabilities, the continued commitment to expand mental health access and care, and a 2.6 percent targeted inflationary increase for eligible programs.

Beginning in FY 2026, the Financial Plan adjusted costs reported under the Medicaid Global Cap to exclude OSA local Medicaid expenses. These costs, previously reported in the DOH budget, are now reported in the respective agencies, including OPWDD and OMH. The reclassification of this spending is cost neutral to the overall Financial Plan and more appropriately aligns program activities and costs to agencies responsible for managing such services.

Social Services spending increases reflect continued investments and expansion of child care, inclusive of reduced amounts of Federal pandemic aid to support costs and child care subsidies, additional resources for the Safety Net Assistance program, new investments in youth programs, a 2.6 percent targeted inflationary increase for eligible programs, and continued funding for services and assistance to the City of New York for asylum seekers.

Transportation spending growth is commensurate with increases in dedicated transit revenue available to fund mass transit.

Higher education spending is projected to grow due primarily to increases in operating aid for CUNY senior colleges and legislation that provided for the remaining cost of tuition, fees, and books for students aged 25 to 55 who pursue studies in high-demand career fields at SUNY and CUNY community colleges. In addition, higher spending reflects the expansion of tuition assistance to non-combat veterans and the expansion of part-time Tuition Assistance Program (TAP) eligibility to students taking a minimum of three credits.

All Other Education Programs growth is largely driven by the adoption of universal free school meals, under which the State will pay the student's share of costs for all meals served to students not already receiving free meals; increased funding for nonpublic schools; and increased reimbursement to school districts related to charter schools.

All other assistance and grants spending reflects additional funding for abortion medication services; food security and nutrition programs; programs for the aging; Civil Legal Services and Attorney for Child programs; targeted training pathways and apprenticeships for high-demand fields; the Underserved Communities and Civic Engagement Program; a four-year pilot program for state-funded vouchers for homeless families or families at imminent risk of losing their housing; and county costs paid to lawyers assigned to represent low-income individuals. In addition, all other

spending reflects reconciliations to adjust spending for the timing of School Aid between the school year and State fiscal year and the net impact of the Mental Hygiene Stabilization Fund related to the Medicaid Global Cap.

### Agency Operations

Agency operations include spending for State Operations (Personal Service (PS) costs such as wages and salaries and Non-Personal Service (NPS) costs such as supplies and utilities) and General State Charges (GSCs) (pension contributions, health insurance, and other fringe benefits and fixed costs).

Executive agencies spending growth is driven primarily by costs associated with stabilizing the correctional system, general salary increases consistent with existing collective bargaining agreements, investments in cybersecurity and Information Technology (IT), and staffing increases across various agencies. In previous years, Federal reimbursement for prior year State costs incurred for COVID-19 pandemic response and recovery efforts were reflected as lower Agency Operations spending; however, in FY 2026, the reimbursements are transferred into the General Fund.

SUNY growth reflects expenses for campuses and hospitals and includes increased funding for four-year campuses and SUNY Downstate Hospital. SUNY is funded by a combination of tuition and fee revenue and General Fund transfers for direct operating support and student financial aid support (\$1.9 billion in FY 2026). Beyond annual transfers, the State pays the fringe benefit costs of employees at SUNY State-operated campuses (\$2 billion in FY 2026), which is excluded from SUNY operational spending. The State provides additional support to SUNY by paying a substantial share of the debt service costs on bond-financed capital projects (\$637 million in FY 2026).

Judiciary spending increases support non-judicial staffing initiatives including new court clerks and attorneys; costs associated with four court officer academy classes; and increased staffing levels to address case backlogs and provide operational support to various courts. Higher spending also includes funding to support new judgeships, including: ten additional City of New York Civil Court Judges and five additional Court of Claims judges; ten additional City of New York Family Court Support Magistrates, including non-judicial staff supporting these new judges; civil legal services; various technology initiatives; and expansion of various programs including Alternative Dispute Resolution and Alternatives to Incarceration.

Offices of independently elected officials (Attorney General, Comptroller, and Legislature) are projected to collectively grow by 12.8 percent, driven by salary increases and increased staffing levels.

GSCs growth is primarily a result of an increase in pension obligations as prior year market losses and benefit enhancements increase employer contribution rates. The FY 2026 Budget included enhancements to the retirement benefits for Division of Military and Naval Affairs (DMNA) airport firefighter titles and members of the Police Benevolent Association of New York State (PBANYS). In addition, rising health insurance costs are attributable to medical inflation and the rising costs of prescription drugs. Increases in other fringe benefits and fixed costs are attributable to higher employer payroll taxes due to the continued growth in the State workforce.

### Debt Service

The State pays annual debt service on all outstanding State-supported debt issuances, which is affected by the prepayment of future debt service costs in prior fiscal years. Adjusting for prepayments, State-related debt service is projected at \$6.7 billion in FY 2026, an increase of 8.2 percent from FY 2025.

### Capital Projects

Capital projects spending supports the preservation of State assets and new investments in transportation and transit infrastructure, affordable and homeless housing, economic development, environmental protection and infrastructure, and health care. These projects are funded by a combination of proceeds from the sale of bonds, annual General Fund support commonly referred to as Pay-As-You-Go (PAYGO) resources, and Federal grants. The Capital Plan limits debt issuances to a level that is expected to allow the State to remain in compliance with its statutorily imposed debt limits and maintains sufficient capital spending for core capital projects.

Spending on capital projects is projected to increase mainly attributable to the State's direct capital contribution for the 2020-24 and 2025-29 Metropolitan Transportation Authority (MTA) Capital Plans; timing of various transportation projects, including the I-81 redevelopment project; and construction of the new Wadsworth Centers for Laboratories and Research campus. For more information on Capital Projects spending see the Enacted Capital Plan<sup>7</sup>.

### Federal Operating Aid

Federal operating aid spending growth in FY 2026 over FY 2025 levels is muted by a substantial drop in COVID-19 pandemic response and recovery assistance provided to state and local governments, schools, hospitals, transit systems, businesses, families, and individuals. A more detailed summary of Federal spending is in the "Federal Aid" section herein.

# **OTHER MATTERS AFFECTING THE FINANCIAL PLAN**

---

This section is intended to provide readers with additional information on current issues or pressures that may have financial plan implications and may not otherwise be described in detail elsewhere. The emphasis of this section is on risks to financial projections and management, but it also includes information that provides context for the State's financial operations more broadly. This section includes information on the following topics:

- Federal Government Funding Risks
- Financial Plan Projections
- State Labor Costs
- State Debt
- Localities and Authorities
- Other Risks and Ongoing Concerns

### Federal Government Funding Risks

The amount and composition of Federal funding received by the State fluctuates over time, as legislative and regulatory actions at the Federal level often change. Specific Federal government authority and rules that pose an ongoing risk to the Financial Plan include audits, disallowances, changes to Federal participation rates or other Medicaid rules, discretionary spending reductions, and the expected need for Congress to increase or suspend the debt limit to avoid delaying payments and/or defaulting on debt obligations.

On July 4, 2025, the President signed H.R. 1, that substantially alters Federal funding for health care and food security programs and services provided to New Yorkers and amends the Federal tax liability of New York's residents and businesses. The bill modifies tax rates, deductions, and credits; adjusts eligibility requirements for several Federal benefit programs, including adding and expanding work and community engagement requirements; and makes reductions and amendments to Medicaid and nutrition assistance funding. The updated Financial Plan includes estimates of the impact beginning in the current fiscal year.

On October 1, 2025, the Federal government shut down due to a failure to pass new appropriations for the 2026 fiscal year and repeated failure to pass any short-term contingency resolutions to reopen the Federal Government. The shutdown halted the flow of new Federal funding for most discretionary grant programs and many mandatory programs that require annual appropriations, as well as Federal employee paychecks. However, specific benefit payments like Social Security, Medicare, and Medicaid are not impacted. The length of the shutdown will determine the severity of the impact to New York as Federal funding is depleted or halted for benefit programs such as Women, Infants, and Children (WIC) (Special Supplemental Nutrition Program for WIC), SNAP, and Low Income Heating Assistance Program. In addition, the shutdown may delay Federal action on Medicaid waivers or other pending Federal requests. The longest Federal shutdown began in December 2018 and lasted 35 days.

**Debt Limit.** Periodically, the Federal government has increased or suspended its debt limit. Failure to increase or suspend the debt limit when needed could result in the Federal government delaying or defaulting on payments. If Federal payments are not made, particularly for a prolonged period, it could have a materially adverse effect on national and state economies, financial markets, and

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

intergovernmental aid payments. Specific effects on the Financial Plan resulting from a potential Federal government delay in payments or default are unknown and impossible to predict. However, data from past economic downturns suggests that the State's revenue loss could be substantial if a delay in Federal payments or default triggered an economic downturn.

**Federal Aid Reductions.** The Federal government participates in funding a significant portion of programs that provide health care and human services to New Yorkers. Any significant reduction in Federal aid or participation levels could have a materially adverse impact on the Financial Plan.

**Health Care.** Changes in Federal funding levels or eligibility criteria for public health care programs, including Medicaid, EP, and CHP, could result in a reduction in public health coverage and could negatively impact the Financial Plan. A majority of the State's Medicaid program is operated under a Federal demonstration waiver, which is subject to review by CMS every five years and is currently extended through March 31, 2027. This authorization includes funding for Medicaid Managed Care Programs, MLTC programs, and Home and Community Based Services (HCBS).

Federal Medicaid funding also supports a variety of services, including CDPAP, that permit enrollees to manage and self-direct providers of personal care services. In addition, the State operates the EP under a Federal waiver, which receives Federal subsidies authorized through the ACA. EP currently provides coverage for lawfully present immigrants not eligible for Federal financial participation in Medicaid due to their immigration status, which H.R. 1, disqualifies from receiving Federal funding for their EP benefits resulting in over half of the EP's funding being eliminated. Income eligible lawfully present immigrants may otherwise qualify for the Medicaid program. To alleviate new State costs and maintain coverage for as many individuals as possible, DOH has submitted a request to CMS to terminate its 1332 Waiver and EP expansion and reactivate its (currently suspended) Basic Health Program (authorized under Section 1331 of the ACA). If approved by CMS, this action would shift an estimated 1.3 million current EP 1332 enrollees with incomes below 200 percent of the FPL into the EP 1331 allowing them to maintain comparable health coverage. If denied by CMS, roughly 535,000 current EP enrollees would be eligible to access coverage under Medicaid, and subsequently the remaining roughly 795,000 would lose coverage under EP and would need to obtain employer-based insurance, enroll in a Quality Health Plan on the ACA Marketplace or become uninsured. The Financial Plan estimates of receipts and disbursements assume the Medicaid eligible EP enrollees will transfer to Medicaid in July 2026. Additional revisions to the EP's enrollment and spending projections will be reflected in future updates to account for the status of CMS' approval.

The State is also utilizing a CMS approved three-year, \$5.8 billion demonstration waiver through March 31, 2027, to respond to the State's request to address health disparities exacerbated by the COVID-19 pandemic. This funding helps support social, physical, and behavioral health care services throughout the State and requires a total of \$1.7 billion in additional State resources, which have been assumed in the Financial Plan over the same period. Given the time limit on the Federal funding, these services are expected to be discontinued at the end of the term absent an extension by the Federal government. Accordingly, there is no State or Federal funding included in the Financial Plan projections beyond the term period.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

**Human Services.** Federal funding supports SNAP and the Home Energy Assistance Program (HEAP), which is administered and supported by Local Departments of Social Services (LDSS). H.R. 1 increases the state's administrative cost-sharing for SNAP from 50 percent to 75 percent effective October 1, 2026, which has been reflected in the updated Financial Plan. In addition, H.R. 1 introduces a new non-Federal share of benefits in the SNAP program, ranging from zero percent to 15 percent of program costs, effective as early as October 1, 2027. The implementation of this new non-Federal share may be delayed by up to two years depending on the State's error rate in Federal Fiscal Years 2025 or 2026. Currently, Federal resources flow directly to recipients to fund the benefits of the SNAP program. Costs for this provision of H.R. 1 have not been reflected in the Financial Plan, as factors such as error rate and local cost sharing have yet to be determined, nor does the State currently make payments of this nature.

Other Federal funding through the Office of Refugee Resettlement contributes to the State's response to the migrant crisis, and reductions would threaten the health, well-being, and stability of refugees. The Commission for the Blind uses Federal funds to support mobility training, academic instruction, case management, and vocational training, and a reduction in Federal funds would result in a reduction or elimination of services.

Likewise, a reduction in Federal funding from the Child Care Development Funds (CCDF) would reduce the size of the State's annual child care block grant allocations to New York LDSS and result in waitlists for services. The Federal government has approved a State waiver to effectuate a delay of certain provisions of new CCDF rules for two years through August 1, 2026. However, the waiver could be revoked at the discretion of the Federal government.

Reductions in Federal funding through Title IV-E and IV-B would threaten foster care placements, adoption subsidies, and kinship caregiver supports. Changes to Title XX funding would impact child welfare and domestic violence services. Office of Children and Family Services (OCFS) also receives a variety of Federal grants for child preventive services programs, domestic violence services, adoption incentive programs, and the Chafee Independent Living program that would potentially be reduced or eliminated if Federal support was modified.

### Financial Plan Projections

The Financial Plan projections and its assumptions are made at a particular point in time and subject to a myriad of risks, including, but not limited to, economic, social, financial, political, public health, and environmental risks and uncertainties. The projections of receipts and disbursements in the Financial Plan are based on reasonable assumptions and data at the time they were prepared. DOB is unable to provide any assurance that actual results will not differ materially and adversely from these projections.

**Receipts.** State tax collections are economically sensitive and are affected by the condition of the State and national economies, as well as State and Federal tax law changes, and related taxpayer behavior and migration. Uncertainties and risks that may affect the economic and receipts forecasts include, but are not limited to: national and international events; inflation; consumer confidence; commodity prices; supply chain disruptions; major terrorist events; hostilities or war; climate change and extreme weather events; severe epidemic or pandemic events; cybersecurity events; Federal laws and regulations; financial sector compensation; capital gains; and monetary policy affecting interest rates and the financial markets.

The largest component of State tax revenue comes from PIT. Beginning in tax year 2021, the State created three new top PIT rates for taxpayers earning over \$2.1 million annually, which resulted in a more progressive state income tax system. The top PIT rate is currently 10.9 percent and includes less than 0.1 percent of taxpayers. These rates are scheduled to expire at the end of tax year 2032 and revert to a single bracket with a rate of 8.82 percent.

The Tax Cuts and Jobs Act of 2017 (TCJA) made extensive changes to the Federal individual income tax, corporate income taxes, and estate taxes, most of which were effective in tax year 2018. Many provisions of the TCJA were scheduled to expire at the end of 2025, including the \$10,000 limit on the deductibility of SALT payments. H.R. 1 included extensions and modifications to many provisions of the TCJA, including increasing the SALT cap from \$10,000 to \$40,000. The increased cap is phased out for taxpayers with income levels above \$500,000 and remains at \$10,000 for taxpayers with income greater than \$600,000. The increased cap is set to expire after tax year 2029 for all income levels. It should be noted that PTET and the Employer Compensation Expense Program are independent of the TCJA, both of which are not scheduled to sunset, and taxpayer utilization of these programs is expected to continue. However, the Federal government could elect to bar or curtail utilization of these programs in the future, which could impact taxpayer migration and future State tax receipts.

The projection of non-tax receipts and other available resources assumes various transactions and outcomes will occur as planned, including, but not limited to: receipt of Federal aid; certain payments from public authorities; revenue sharing payments under the Tribal-State Compacts; and the collection of fines, fees, and other receipts at levels to support operations, offset costs and enable transfers of available fund balances to the General Fund. It should be noted that Medicaid and School Aid spending remains sensitive to the performance of dedicated revenue collections in other funds, such as HCRA and gaming receipts, used to finance a portion of these program costs.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

**Disbursements.** Annual spending projections and timing of disbursements are subject to many of the same risks listed above for receipts, as well as variations from assumptions, policy changes, and future labor agreements which may increase spending, including, but not limited to: the level of wage and benefit increases for State employees; changes in the size of the State's workforce; factors affecting the State's required pension fund contributions; the receipt of Federal approvals necessary to implement the Medicaid savings actions; continued Federal participation in cost sharing for health care and human services programs; unanticipated growth in public assistance programs, including the assumed level of utilization of newly expanded benefits; State payments and assistance to health care facilities and providers beyond the typical rate reimbursement system; enrollment, utilization and availability of funding for certain public health programs; adherence to statutorily limited growth caps; and the ability of the State and its public authorities to issue securities successfully in public credit markets.

The State utilizes spending growth caps intended to limit the year-to-year growth in the State's two largest assistance and grants programs, School Aid and Medicaid. Both caps, as well as the scope of the cap for Medicaid, have been modified since initial implementation and have been impacted by administrative and other actions over the past several years.

The **School Aid** growth cap limits annual spending growth to increases in State Personal Income, as calculated in the Personal Income Growth Index (PIGI). The statutory PIGI for School Aid is based on the average annual income growth over a ten-year period. However, the authorized School Aid increases have exceeded the indexed levels in most years since its inception. In SY 2022 through SY 2024, School Aid substantially exceeded the PIGI, due to the State's phase in of full funding of the Foundation Aid formula completed in SY 2024, driving an annual increase of 9.7 percent compared to the indexed PIGI rate of 4.2 percent. The increase in State funded School Aid for SY 2025 of 4.1 percent was slightly above the indexed PIGI rate of 3.7 percent. The Financial Plan includes an estimated School Aid increase for SY 2026 of 4.9 percent, compared to the indexed PIGI rate of 4.5 percent.

The Financial Plan projections for SY 2027 and beyond assume that School Aid growth will be based on estimated growth in Foundation Aid and expense-based aids and that growth will be below the PIGI rate.

Nearly three-quarters of **DOH State Funds Medicaid** spending growth is subject to the Global Cap that is intended to establish a limit for Medicaid growth. The amount of State-share Medicaid spending excluded from the Global Cap continues to increase and includes supplemental hospital payments, costs for the takeover of Medicaid growth from local governments, reimbursement to providers for increased minimum wage costs, and investments made from HSF. Prior to FY 2023, the Global Cap was calculated using the ten-year rolling average of the medical component of the Consumer Price Index (CPI) for all urban consumers and thus allowed for growth attributable to increasing costs, though not increasing utilization. To accommodate growth in utilization, the Global Cap was amended to be calculated using the five-year rolling average of health care spending, using projections from the CMS Actuary. The CMS Actuary updates the projections annually and DOB incorporates the revisions into the multi-year forecast with the Executive Budget, as applicable. The new Global Cap index added a substantial amount of allowable Medicaid growth – over \$23 billion covering the six-year period from FY 2023 through FY 2029.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

The statutory provisions of the Global Cap grant the Commissioner of Health (the Commissioner) certain powers to limit Medicaid disbursements to the level authorized by the Global Cap and allow for flexibility in adjusting Medicaid projections to meet unanticipated costs resulting from a disaster. The Commissioner's powers are intended to limit the annual growth rate to the levels set by the Global Cap for the then-current fiscal year through actions that may include reducing reimbursement rates to providers. These actions may be dependent upon timely Federal approvals and other elements of the program that govern implementation.

Since the enactment of the Global Cap, the portion of actual State Funds Medicaid spending subject to the Global Cap has remained at or below indexed levels. However, the scope of spending subject to the Global Cap has been modified, and in certain fiscal years, the General Fund has provided relief to the Global Cap and DOH has taken management actions, including adjustments to the timing of Medicaid payments consistent with contractual terms, to ensure compliance with the Global Cap. Similarly, in response to initial delays in the Federal approval of planned FY 2022 through FY 2024 Managed Care Directed Payment Template (DPT), the State advanced payments of over \$2.2 billion in State-only payments to certain providers to help them cover their immediate cash flow needs. These advanced payments were expected to be remitted to the State by the providers upon their receipt of federally approved DPT funds. While all prior year Federal approvals have been granted with respect to these DPT funds, approximately \$1.2 billion in provider reimbursements to the State are in various phases of the administrative remittance process. The Financial Plan assumes these advances will be reimbursed over a multi-year period. Due to an inability by certain distressed hospitals to repay advances in the near term.

Escalating health care costs and industry pressures present fiscal challenges for the State that will need to be addressed to ensure long-term fiscal sustainability of these programs. A summary of these programs and pertinent issues are described in more detail below.

Public Health Insurance Programs. Recent Medicaid spending growth is largely driven by the expanded utilization of the State's MLTC program and other programs serving seniors and individuals enrolled in both Medicaid and Medicare. These programs currently comprise roughly 60 percent of total Medicaid spending, which is expected to rise to nearly 70 percent by 2028 as the baby boomer population ages. By 2030, 23 percent of the State's population is expected to be over age 65, up from 9 percent in 2000. This is expected to place a substantial amount of pressure on health care funding needs, and as such there can be no assurance that costs will not exceed projections in the later years of the Financial Plan absent savings actions and/or rate reductions.

CHP. Since its inception in 1990, the State's CHP program has provided free or subsidized health insurance coverage to children in New York State under the age of 19 in families with incomes too high to qualify for Medicaid and is partly funded by the Federal government. In addition, the CHP program covers undocumented children at a 100 percent State cost. CHP currently covers over 565,000 enrollees, an increase of almost 175,000 from the level recorded two years ago.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

Hospital Assistance. The State provides a substantial amount of supplemental funding to private and not-for-profit hospitals beyond traditional Medicaid reimbursement rates, which include payments through various programs and grants, including the Vital Access Provider Assurance Program, Vital Access Provider Program, Graduate Medical Education Incentive Program, and various other programs. Currently, 75 of 261 New York hospitals (29 percent) are deemed financially distressed – a 200 percent increase from FY 2017 through FY 2025 that has driven a concomitant 504 percent increase in Federal/State fiscal assistance to these entities. Many hospitals responsible for supporting medical needs in underserved communities across the State, including those with higher rates of uninsured individuals and government payor mix, were further stressed financially due to the pandemic. Despite hospitals in the State receiving roughly \$11 billion in COVID-19 pandemic related assistance from the Federal government. Many hospitals continue to rely on and expect ongoing supplemental State assistance.

The State has provided substantial targeted funding to certain facilities above the longstanding baseline annual hospital assistance of \$984 million provided in aggregate to all hospitals statewide. Since FY 2023, the State has provided \$1.8 billion in supplemental State support to hospitals: \$800 million in FY 2023, of which \$100 million was added to the recurring base support; and \$500 million in both FY 2024 and FY 2025. Another \$500 million in new support in FY 2026 and over \$800 million in additional funding is planned through FY 2028 associated with the Safety Net Transformation program to fund projects and partnerships to promote financial sustainability of provider systems, subject to approval and the availability of MCO assessments.

The importance of the hospital industry to local communities for purposes of accessing critical health care services, as well as other social and economic benefits, including employment opportunities and sustainability, creates the potential for increased cost pressure within the Financial Plan should the State continue to provide supplemental payments to hospitals. There can be no assurance that the State will continue to provide additional funding at or above current commitment levels, as many facilities, including those which are not currently fiscally distressed, continue to seek State financial support.

CDPAP. New York's CDPAP allows Medicaid enrollees that are determined eligible for personal care services to select their own caregiver, which can include friends or family members. Utilization of CDPAP grew by 1,200 percent since 2016, and State costs were expected to continue to escalate at unsustainable levels. In response to this expansion, hundreds of for-profit private businesses, known as FIs, emerged to provide payroll functions and administrative support for an administrative fee that is paid by the Medicaid program. Nearly all other states with CDPAP programs utilize one or only a few FIs to limit administrative costs and prudently use taxpayer funds. The State has transitioned to a single FI administrator, consolidating the administrative and payroll functions from hundreds of existing FIs to administer the program in a more cost-effective manner. This action has resulted in savings that has surpassed previous estimates and did not result in a change to care or services authorized and available through the CDPAP.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

**Medical Indemnity Fund (MIF).** The MIF was created in 2011 and is administered by DOH to provide for the future health care costs of individuals who suffered birth-related neurological injuries because of medical malpractice during delivery. The purpose of the MIF is to ensure qualified plaintiffs have their health care needs met throughout their lifetime and to protect hospitals by limiting their liabilities for medical malpractice expenses. The costs are supported partially through an assessment on hospitals with the balance funded by the State. To date, the State has provided \$928 million in funding for the MIF. In 2017, rates were increased, and eligibility expanded to births occurring at non-hospital facilities. Services covered by the MIF are expansive and can include medical, dental, surgical, hospital, nursing, custodial, and rehabilitative care.

Pursuant to law, if the MIF's total estimated liabilities reach or surpass 80 percent of its total assets, then the MIF will be closed to new enrollment to maintain solvency. The FY 2026 Enacted Budget included funding to maintain MIF solvency and allow the program to remain open to new enrollees through FY 2026. However, due to increased enrollment, escalating average medical costs per enrollee, and legislatively mandated average commercial reimbursement requirements (which are in place until June 1, 2026), the MIF is expected to reach the threshold for closure to new enrollees sometime in FY 2027. Absent policy changes to require hospitals and providers to provide additional funding to the MIF and/or implement program reforms, additional State funding would be needed to prevent the potential closure of the MIF to new enrollees. If closed to new enrollees, those who would have been considered qualified plaintiffs and automatically enrolled in the MIF will instead be able to seek legal recourse against hospitals and physicians for medical costs.

**Litigation Risk.** The Financial Plan forecast is subject to litigation risk. Litigation against the State may challenge the constitutionality of various actions with fiscal implications. In the aggregate, these litigation matters could negatively affect the forecasts and projections contained in the Financial Plan.

**Financial Plan Risk Management.** In developing the Financial Plan, DOB attempts to manage financial risks, with an emphasis on the General Fund. It does this by, among other things, exercising caution when calculating total General Fund disbursements and managing the accumulation of financial resources, subject to availability, and including a \$2 billion transaction risk reserve in each year, to maintain budget flexibility. Such resources include but are not limited to: fund balances that are not needed each year; management of the timing of reimbursement for capital advances; and prepayment of expenses. DOB routinely executes cash management actions to manage the State's large and complex budget. These actions are intended to improve the State's cash flow, manage resources within and across State fiscal years, adhere to spending targets, and better position the State to address unanticipated costs, including economic downturns, revenue deterioration, and unplanned expenses. There is no guarantee that such financial resources or cash management actions will be sufficient to address risks that may materialize in a given fiscal year.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

In some cases, the ability of the State to implement cash management actions requires the approval of the Legislature and cannot be implemented solely by the Governor. The FY 2026 Enacted Budget includes provisions designed to maintain a balanced budget that authorize the Budget Director to reduce payments subject to a plan submitted to the Legislature for review, in the event a General Fund imbalance exceeding \$2 billion is expected.

There can be no assurance that the State's financial position will not change materially and adversely from current projections. If this were to occur, the State may be required to take gap-closing actions to preserve General Fund balance. Such actions may include but are not limited to: reductions in State agency operations; delays or reductions in payments to local governments or other recipients of State aid; delays in or suspension of capital maintenance and construction; extraordinary financing of operating expenses; and use of non-recurring resources.

### State Labor Costs

All State labor unions are covered by a ratified contract through the end of FY 2026. The State expects to continue to engage with unions to discuss future agreements. The Financial Plan includes amounts informally reserved for future operational needs that could be available to fund costs of future labor contracts; however, there can be no assurance that those amounts will be available or sufficient to fund costs related to future agreements in their entirety.

STATE UNION LABOR CONTRACTS						
	Contract Period	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026
CSEA	FY 2022 - FY 2026	2%	2%	3%	3%	3%
PEF	FY 2024 - FY 2026	2%	2%	3%	3%	3%
NYSCOPBA	FY 2024 - FY 2026	2%	2%	3%	3%	3%

In addition to general salary and overtime costs, the State provides fringe benefits to State employees and retirees with the largest fringe benefit costs being pensions and health insurance.

**Employee Pension Benefits.** The State makes annual contributions to the New York State and Local Retirement System (NYSLRS) for employees in the New York State and Local Employees' Retirement System (ERS) and Police and Fire Retirement System (PFRS). This section discusses contributions to the NYSLRS, which account for most of the State's pension expenses.<sup>8</sup> All projections are based on estimated market returns and numerous actuarial assumptions which, if unrealized, could have a materially adverse effect on these projections.

New York State Retirement and Social Security Law Section 11 directs NYSLRS to provide regular reports on the System's experience and to propose assumptions and methods for the actuarial valuations. Employer contribution rates for NYSLRS are determined based on investment performance in the Common Retirement Fund (CRF) and actuarial assumptions recommended by the Retirement System's Actuary and approved by the State Comptroller. Pension estimates are based on the actuarial report issued in September each year. The current year report included the

<sup>8</sup> The State's aggregate pension costs also include State employees in the Teachers' Retirement System (TRS) for both the SUNY and State Education Department (SED), the Optional Retirement Program (ORP) for both SUNY and SED, and the New York State Voluntary Defined Contribution Plan (VDC).

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

statutorily required quinquennial study that reviews the experience over the previous five years in relation to the current assumption made by the retirement system, and adopts new assumptions, if necessary, which are used to measure experience on a prospective basis. The Comptroller does not provide a multi-year forecast of pension liability estimates requiring DOB to forecast costs for the outyears of the State's Financial Plan. DOB's forecast assumes growth in the salary base consistent with collective bargaining agreements and a conservative rate of return that is generally compared to the current 5.9 percent rate of return assumed by NYSLRS.

On September 4, 2025, the Comptroller announced an increase in employer contribution rates for both ERS and PFRS which will impact State and local government expenses beginning in FY 2027. The average employer contribution rate for ERS increased from 16.5 percent to 17.6 percent of payroll, its highest level since FY 2016. Likewise, the average employer contribution rate for PFRS increased from 33.7 percent to 36.5 percent of payroll, its highest level in over 55 years.

The ERS rate increase is mainly due to the continued growth in the State workforce. In addition, the PFRS rate increase was primarily driven by changes to the System's Actuary Disability assumption as numerous bills have been enacted over the last few years to expand or improve the disability benefit, increasing the probability a disability retirement will be awarded in the future. Lastly, the service retirement assumption was changed due to the increase in the number of retirements being filed upon a member's initial eligibility for a service retirement.

Pension costs have escalated over the past several years due to a variety of factors including growth in the State workforce; a higher-than-expected number of service retirements; fluctuating investment performance, including prior year market losses in the CRF; and recent enhancements to the retirement benefits for Tier 6 members<sup>9</sup> and certain groups of first responders and officers. The enhancements include a retirement benefit for firefighters employed by DMNA equal to 50 percent of Final Average Salary (FAS) after twenty-five years of service and a new 20-year and 25-year retirement plan for members of PBANYS which includes State Park Police, Department of Environmental Conservation (DEC) Police, DEC Forest Rangers, and SUNY Police. In addition, several bills are pending action by the Governor that would further enhance pension benefits for certain groups. If approved, these bills would collectively require approximately \$40 million in short-term costs to the State.

---

<sup>9</sup> In response to escalating public pension costs, Tier 6 was implemented in 2012 to save New York state and local governments billions of dollars. Tier 6 members currently comprise more than 60 percent of total members.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

In 2022, NYSLRS switched from a five-year to eight-year smoothing methodology to reduce volatility in the employer contribution rates. However, market losses in FY 2023 have negated the gains in FY 2022 and FY 2024, resulting in a net increase in contribution rates. The table below shows the CRF investment experience and the smoothing period for each year's returns.

COMMON RETIREMENT FUND INVESTMENT RETURNS EFFECT ON RATES					
	<u>CRF Return</u>	<u>Annual Change in Rate</u>		<u>Smoothing Period</u>	
		<u>ERS</u>	<u>PFRS</u>	<u>Start Date</u>	<u>End Date</u>
FY 2022	9.5%	-0.3%	-0.3%	FY 2024	FY 2031
FY 2023	-4.4%	1.1%	1.2%	FY 2025	FY 2032
FY 2024	11.6%	-0.5%	-0.6%	FY 2026	FY 2033
FY 2025	5.8%	0.0%	0.0%	FY 2027	FY 2034

As a result of the increases in the employer contribution rates, participants in the Contribution Stabilization Program have the option to amortize a portion of their FY 2027 ERS and PFRS liability over a period of ten years. The amounts eligible for amortization are to be determined by the System's Actuary and will be reflected in the employer's estimated bill. The State presently has no plan to amortize its pension liability.

Beginning in FY 2024, the State has prepaid pension obligations which were due the following fiscal year to generate interest savings and provide funding and investment opportunities for the CRF to yield higher returns than the Short-Term Investment Pool (STIP) rate. The State expects to continue to prepay this expense annually, as fiscal conditions permit.

### Pension Contribution Stabilization Program.

State and local governments are authorized to amortize (defer paying) a portion of their annual pension costs that exceed a statutorily defined fixed increase. Amortization temporarily reduces the pension costs that must be paid by public employers in a given fiscal year but results in financing costs that increase total costs overall inclusive of interest liability. The full amount of each amortization must be repaid within ten years at a fixed interest rate determined by OSC. The State and local governments are required to begin repayment on new amortizations in the fiscal year immediately following the year in which the amortization was initiated. The State currently has no outstanding pension amortization liability and no plans to withdraw from the program.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

The following table reflects projected annual pension contribution exclusively for the Executive branch and Judiciary employers participating in ERS and PFRS, as well as the amortization rate eligibility.

EMPLOYEE RETIREMENT SYSTEM AND POLICE AND FIRE RETIREMENT SYSTEM PENSION CONTRIBUTIONS (millions of dollars)							
Fiscal Year	Statewide Pension Payments <sup>1</sup>			Rates for Determining Amortization Amount / Excess Contributions			
	Normal Costs	(Amortization) / Excess Contributions	Statewide Pension Payments	System Average Normal Rate <sup>2</sup>	System Average Graded Rate		
				ERS (%)	PFRS (%)	ERS (%)	PFRS (%)
2026	2,768.1	0.0	2,768.1	16.5	33.7	15.1	29.4
2027	2,998.1	0.0	2,998.1	17.6	36.5	16.1	30.4
<i>----- DOB Projections -----</i>							
2028	3,478.1	0.0	3,478.1	19.8	38.3	17.1	31.4
2029	3,928.1	0.0	3,928.1	22.8	40.8	18.1	32.4

<sup>1</sup> Pension Contribution values in this table do not include costs related to the ORP, VDC, and TRS for SUNY and SED, which are included in pension costs in other Financial Plan tables.

<sup>2</sup> The System average rate represents the average normal contribution rate over all retirement plans in each system for a given fiscal year. It is calculated by dividing the total normal contributions by the total billable salary from all participating employers in a system for the fiscal year.

The “Normal Costs” column reflects the State’s underlying pension cost in each fiscal year before the effects of the Contribution Stabilization Program. The “(Amortization Amount)/Excess Contributions” column shows amounts amortized or the excess contributions paid into the pension reserve account. The “Statewide Pension Payments” column is the State’s actual or planned pension contribution, including amortization and excess contributions.

### Employee Health Insurance

The New York State Health Insurance Program (NYSHIP) offers comprehensive health insurance coverage to over 1.2 million individuals, including State and local government employees, retirees and their eligible dependents. NYSHIP serves over 800 State and local governments, public authorities, school districts, and other public employers.

Roughly 90 percent of State enrollees and their families participate in the Empire Plan, a comprehensive program that covers hospital services, physicians' bills, prescription drugs, and other medical and mental health expenses. In addition to the Empire Plan, NYSHIP also provides 8 different health maintenance organization (HMO) options for State employees and retirees to choose from as an alternative to the Empire Plan.

The Department of Civil Service (DCS) establishes the annual premium rate recommendation in consultation with the State's health benefits vendors, the Office of Employee Relations and DOB annually in September. The process includes a review of current experience and trends and projecting factors such as utilization, the cost of claims, administrative expenses and the impact of regulatory costs. The DOB approved final rates drive the employee and retiree health insurance cost estimates that are contained in the State's Financial Plan. Rates for the remaining NYSHIP HMO options are community rated as developed by the HMOs and submitted to Department of Financial Services (DFS) for review and approval.

The risks and variations to the Financial Plan estimates of health insurance costs include but are not limited to: unforeseen changes in the workforce; State/Federal legislation; collective bargaining agreements; timely remittance of premiums from employers participating in the Empire Plan; out-of-network utilization; changes in the healthcare industry due to new technology or medicines, such as the utilization of GLP-1 drugs used to treat type 2 diabetes and obesity, that increase costs; and overall utilization levels of health care services.

Over the past few years, NYSHIP has experienced an increase in employer premium delinquencies that impact costs and rates borne by other employers and employees. As of October 2025, NYSHIP outstanding premium bills greater than 60-days in arrears totaled roughly \$765 million. Four employers with a combined debt of \$730 million, or approximately 6 percent of the total estimated premium for 2026, include Nassau Health Care Corp (NUMC), SUNY Stony Brook University Hospital, SUNY Upstate Medical University, and Sullivan County Community College. Over the next twelve months, NUMC's arrears balance is expected to grow from \$438 million to over \$500 million. Absent a definitive plan to address growing overdue bills, DCS will need to factor these outstanding debts into the 2026 premium rates to cover the cost of claims from non-payor entities, effectively spreading the cost of these delinquencies to other employers who are current with NYSHIP liabilities. Successful collection of these past due amounts would lower the expected premium increases in 2026.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

### Other Post-Employment Benefits (OPEB).

State employees become eligible for post-employment benefits (e.g., health insurance) if they reach retirement while working for the State; are enrolled in either NYSHIP or the NYSHIP opt-out program at the time they reach retirement; and have the required years of eligible service. The cost of providing post-retirement health insurance is shared between the State and the retired employee. Contributions are established by law and may be amended by the Legislature. The State is not required to provide funding above the PAYGO amount necessary to provide current benefits to retirees. The State continues to fund these costs, along with all other employee health care expenses, on a PAYGO basis, meaning the State pays these costs as they become due.

The State has deposited over \$1.7 billion to the Retiree Health Benefit Trust Fund (RHTBF) created in FY 2018 as a qualified trust under Governmental Accounting Standards Board Statements (GASBS) No. 74 to reserve money for the payment of health benefits of retired employees and their dependents. The RHTBF is a Fiduciary Fund and is excluded from All Governmental Funds. Under current law, the State may annually deposit up to 1.5 percent of the total then-current unfunded actuarial accrued OPEB liability (\$58.3 billion on March 31, 2025). The Financial Plan includes \$250 million deposits to the RHTBF in each year, that will be dependent on fiscal conditions.

### State Debt

**Bond Market and Credit Ratings.** Successful execution of the Financial Plan is dependent on the State's ability to market bonds. The State pays for much of its capital spending, in the first instance, from the General Fund or the Short-Term Investment Pool (STIP) and then reimburses itself with proceeds from the sale of bonds. An inability of the State to sell bonds or notes at the level or on the timetable it expects could have a material and adverse impact on the State's financial position and the implementation of its Capital Plan. The success of projected public sales of municipal bonds is subject to prevailing market conditions and related ratings issued by national credit rating agencies, among other factors. Future developments in the financial markets, including possible changes to the Internal Revenue Code relating to the taxation of interest on municipal bonds, may affect the market for outstanding State-supported and State-related debt.

The major rating agencies – Fitch, KBRA, Moody's, and S&P – have assigned the State general credit ratings of AA+, AA+, Aa1, and AA+, respectively. The State's rating has a stable outlook from all four rating agencies. These ratings reflect the State's large and diverse economy, commitment to strong reserve levels, and strong budget management.

**Debt Reform Act Limit.** The Debt Reform Act of 2000 ("Debt Reform Act") restricts the issuance of State-supported debt funding to capital purposes only and, with certain limited exceptions for long-lived MTA projects, generally limits the maximum term of bonds to 30 years. The Debt Reform Act limits the amount of new State-supported debt to 4 percent of State personal income, and new State-supported debt service costs to 5 percent of All Funds receipts. The restrictions apply to State-supported debt issued after April 1, 2000. DOB, as administrator of the Debt Reform Act, determined that the State complied with the statutory caps in the most recent calculation period (FY 2025).

The statute requires that limitations on the amount of State-supported debt and debt service costs be calculated by October 31 of each year and reported in the Mid-Year Update to the Financial Plan. If the actual amount of new State-supported debt outstanding and debt service costs for the prior fiscal year is below the caps at that time, State-supported debt may continue to be issued. However, if either the debt outstanding or debt service caps are met or exceeded, the State would be precluded from issuing new State-supported debt until the next annual cap calculation is made and the debt is found to be within the applicable limitations.

As shown in the following tables, actual levels of debt outstanding and debt service costs are in compliance with the statutory caps. From April 1, 2000 through March 31, 2025, the State has issued new debt resulting in \$42.0 billion of debt outstanding subject to the debt limit. This is approximately \$26.0 billion below the statutory debt limitation. In addition, the debt service costs on this new debt totaled \$2.4 billion in FY 2025, or roughly \$10.1 billion below the debt service limit.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

DEBT OUTSTANDING CAP (millions of dollars)		DEBT SERVICE CAP (millions of dollars)		
	Dollar	Percent	Dollar	Percent
Personal Income (CY 2024) <sup>1</sup>	1,699,680		All Funds Receipts (FY 2025)	248,986
Max. Allowable Debt Outstanding	67,987	4.00%	Max. Allowable Debt Service	12,449 5.00%
Debt Outstanding Subject to Cap	41,964	2.47%	Debt Service Subject to Cap	2,382 0.96%
Remaining Capacity	26,023	1.53%	Remaining Capacity	10,067 4.04%

<sup>1</sup> Bureau of Economic Analysis (BEA).

The State enacted legislation that suspended certain provisions of the Debt Reform Act for FY 2021 and FY 2022 bond issuances as part of the State's response to the COVID-19 pandemic. Accordingly, a total of \$14 billion of State-supported debt issued in FY 2021 and FY 2022 and outstanding as of March 31, 2025, is not counted towards the statutory caps on debt outstanding and debt service.

Current projections anticipate that State-supported debt outstanding and State-supported debt service will continue to remain below the limits imposed by the Debt Reform Act. Based on the most recent personal income and debt outstanding forecasts, the available debt capacity under the debt outstanding cap is expected to decline from \$26.0 billion in FY 2025 to a low point of \$268 million in FY 2030. This calculation includes the estimated impact of funding capital commitments with State bonds. The debt service on State-supported debt subject to the statutory cap is projected at \$3.0 billion in FY 2026 inclusive of prior year prepayments, or roughly \$9.9 billion below the statutory debt service limit.

DEBT OUTSTANDING SUBJECT TO CAP (millions of dollars)							TOTAL STATE-SUPPORTED DEBT (millions of dollars)		
Year	Personal Income	Cap %	Cap \$	Debt Outstanding Included in Cap <sup>1</sup>	\$ Remaining Capacity	Debt as a % of PI	% Remaining Capacity	Debt Outstanding Excluded from Cap	Total State-Supported Debt Outstanding

<sup>1</sup> Does not include debt issued prior to April 1, 2000. Does not include debt issued in FY 2021 and FY 2022 because the debt caps were temporarily suspended pursuant to Chapter 56 of the Laws of 2020 and Chapter 59 of the Laws of 2021.

<sup>2</sup> Total State-supported debt service is adjusted for prepayments.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

The State uses personal income estimates published by the Federal government, specifically the Bureau of Economic Analysis (BEA), to calculate the cap on debt outstanding, as required by statute. The BEA revises these estimates on a quarterly basis and such revisions can be significant. For Federal reporting purposes, BEA reassigned income from the state where it was earned to the state in which a person resides, for situations where a person lives and earns income in different states (the “residency adjustment”). The BEA residency adjustment has the effect of reducing reported New York State personal income because income earned in New York by non-residents regularly exceeds income earned in other states by New York residents. The State taxes all personal income earned in New York, regardless of place of residency.

Changes in the State’s available debt capacity reflect factors such as personal income forecast adjustments, defeasances, and bond sale results. The decrease in debt capacity in the Mid-Year Update to the Financial Plan reflects lower personal income estimates. The State may adjust capital spending priorities and debt financing practices from time to time to preserve available debt capacity and stay within the statutory limits, as events warrant.

DEBT OUTSTANDING SUBJECT TO CAP <sup>1</sup> REMAINING CAPACITY SUMMARY (millions of dollars)

<sup>1</sup> Does not include debt issued in FY 2021 and FY 2022 because the debt cap was temporarily suspended pursuant to Chapter 56 of the Laws of 2020 and Chapter 59 of the Laws of 2021.

### Localities and Authorities

The State's localities and certain public authorities rely in part on State financial assistance to meet their commitments and expenses. Unanticipated financial needs among localities and the MTA can create pressure for the State to assist and may adversely affect Financial Plan projections.

**Financial Condition of New York State Localities.** The largest driver of costs for most counties is Medicaid; however, the State has taken over all the growth in the program since FY 2007 and funds the entire cost of minimum wage and homecare wage increases. In addition, certain localities outside the City of New York, including cities and counties, have experienced financial problems, and have been allocated additional State assistance during the last several State fiscal years. The Financial Restructuring Board for Local Governments (the “Restructuring Board”) aids distressed local governments by performing comprehensive reviews and providing grants and loans on the condition of implementing recommended efficiency initiatives. For additional details on the Restructuring Board, please visit [frb.ny.gov](http://frb.ny.gov).

**MTA.** The MTA operates public transportation in the City of New York metropolitan area, including subways, buses, commuter rail, and tolled vehicle crossings. The services provided by the MTA and its operating agencies are integral to the economy of the City of New York and the surrounding metropolitan region, as well as to the economy of the State. MTA operations are funded mainly from fare and toll revenue, dedicated taxes, and subsidies from the State and the City of New York. MTA Capital Plans also rely on significant direct contributions from the State and the City of New York.

**MTA Capital Plans.** The FY 2026 Enacted Budget provided funding for the MTA’s 2025-2029 Capital Plan. The Budget included \$4.2 billion in direct State contributions, of which \$3 billion is from a new appropriation and \$1.2 billion is from repurposing an existing Penn Station appropriation. Additionally, the Budget included adjustments to the Metropolitan Commuter Transportation Mobility Tax (MCTMT) that are anticipated to generate an estimated \$31.5 billion for the 2025-2029 Capital Plan.

The State is also directly contributing \$9.1 billion to the MTA’s 2015-2019 Capital Plan and \$3.1 billion to the MTA’s 2020-2024 Capital Plan. These State commitment levels represent substantial increases from the funding levels for prior MTA Capital Plans (2010-2014: \$770 million; 2005-2009: \$1.45 billion). In addition, a substantial amount of new funding to the MTA was authorized in the FY 2020 Enacted Budget as part of a comprehensive reform plan expected to generate an estimated \$25 billion in financing for the MTA’s 2020-2024 Capital Plan, including \$15 billion from congestion pricing revenues.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

New York's Central Business District Tolling Program (CBDTP) was implemented in Manhattan on January 5, 2025, following the entry of an agreement, dated November 21, 2024, by and among the Federal Highway Administration (FHWA), NYS Department of Transportation, NYC Department of Transportation, and the Triborough Bridge and Tunnel Authority (TBTA), approving the CBDTP under the Federal Value Pricing Pilot Program (the VPPP Agreement). On February 19, 2025, the U.S. Department of Transportation (US DOT) delivered a letter to Governor Kathy Hochul asserting its intent to terminate the VPPP Agreement and rescind FHWA's approval of the CBDTP. In response, the TBTA and MTA filed a complaint in the U.S. District Court for the Southern District of New York seeking, among other legal remedies, an order vacating US DOT's purported termination which was undertaken in violation of the terms of that agreement, and in excess of the Department's authority. The TBTA and MTA have stated they will continue operation of the CBDTP absent a valid court order.

Additionally, in October 2025, the Federal government announced that it would withhold \$18 billion in funding for the MTA's Second Avenue Subway project and the Gateway Development Commission's Hudson Tunnel Project pending an administrative review of project contracting processes. Given the scale and importance of these major infrastructure initiatives, a prolonged withholding of Federal funding could negatively impact project schedules and the regional economy more generally.

Other State Actions. MTA ridership has yet to return to pre-pandemic levels. In the FY 2024 Enacted Budget, the State took substantial action to provide the MTA with additional operating revenues dedicated to help solve the MTA's fiscal crisis. This included an increase in the MCTMT in the City of New York, a one-time State subsidy of \$300 million, an increase in the City of New York's contribution to the MTA for the costs of paratransit services and directing a portion of future casino revenues, the timing of which is uncertain, to the MTA.

Risks to the MTA include, but are not limited to, the level and pace at which ridership will return, the economic conditions of the MTA region, the ability to implement cost controls and savings actions, and the ability to implement biennial fare and toll increases.

### Other Risks and Ongoing Concerns

**Climate Change.** Climate change poses significant threats to physical, biological, and economic systems in New York and around the world. The immediate and long-term effects of climate change could adversely impact the Financial Plan in the current year or in future years. Climate change risks also increasingly fall within the maximum maturity term of current outstanding bonds of the State, which may generally be issued with a term of up to 30 years under State statute, as well as bonds issued by public authorities and municipalities. Hazards and risks related to climate change for the State include, among other things, rising sea levels, increased coastal flooding and related erosion hazards, intensifying storms, wildfires, and more extreme heat.

Powerful storms affecting the State, including Hurricane Ida (September 2021), Superstorm Sandy (October 2012), Tropical Storm Lee (September 2011), and Hurricane Irene (August 2011), and more recently flooding in 2024 due to the remnants of Hurricane Beryl and Tropical Storm Debby have demonstrated vulnerabilities in the State's infrastructure (including mass transit systems, power transmission and distribution systems, and other critical lifelines) to extreme weather-driven events, including coastal flooding caused by storm surges and flash floods from rainfall.

To mitigate and manage the impacts of climate change, all levels of government, including municipalities and public utilities, continue to undertake a variety of actions to reduce greenhouse gas emissions and adapt existing infrastructure to the changing environment. However, given the size and scope of potential disruptions, there can be no assurance that such efforts will be adequate or timely enough to mitigate the most damaging effects of climate change.

In 2019, New York enacted the Climate Leadership and Community Protection Act (CLCPA). The CLCPA set the State on a path toward reducing statewide greenhouse gas emissions by 85 percent below the 1990 level by 2050; and a plan to fully transition its electricity sector to zero emissions by 2040. Several factors may impact the ability to achieve these goals and directives, and, therefore, no assurances can be made that such objectives will be met.

The CLCPA created the Climate Action Council (CAC), which was tasked with developing a Scoping Plan with recommendations to reduce greenhouse gas emissions, increase renewable energy usage, and promote climate justice. The CAC approved and adopted the final Scoping Plan in December 2022. In response, New York is working to develop an affordable and effective cap-and-invest program that will drive emissions reductions across all regions of the State, while maintaining the competitiveness of New York businesses and industries. Pursuant to the CLCPA, DEC is required to promulgate rules and regulations to ensure the State meets the CLCPA's statewide greenhouse gas emission limits. DEC has already adopted a variety of regulations to help meet this objective, which will play a key role in New York's overall policies aimed at reducing greenhouse gas emissions across the State.

New York's electricity system is already part of a regional cap-and-invest program: the Regional Greenhouse Gas Initiative (RGGI). Since RGGI began operation in 2008, the program has helped reduce greenhouse gases from power plants by more than half and raised over \$2.7 billion to support cleaner energy solutions in New York and over \$9.0 billion collectively among participating states.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

Concurrently, the State has been taking regulatory and legislative actions that are intended to limit greenhouse gas emissions, electrify transportation, and generate more electricity from renewable sources. Realization of these actions and their intended outcomes is contingent upon successful implementation, and, therefore, no assurances can be made that such actions will be realized as planned. Major actions include:

- Making a \$1 billion capital investment in the FY 2026 Enacted Budget to lower building emissions, advance clean transportation and build renewable energy projects.
- Authorizing the New York Power Authority to plan, design, develop, finance, construct, own, operate, maintain, and improve renewable energy generating projects.
- Prohibiting building systems and/or equipment that burn fossil fuels in new construction starting December 31, 2025, for any new building seven stories or lower, except large commercial and industrial buildings, and December 31, 2028 for other new buildings.
- Requiring new off-road vehicles and equipment sold in New York to be zero-emissions by 2035 and new medium-duty and heavy-duty vehicles to be zero-emissions by 2045.
- Providing direct financial investment to school districts and private transportation contractors for the purchase or lease of zero-emission school buses – to facilitate compliance with the State's 2027 deadline, with full fleet conversion and operation of zero-emission school buses required by July 1, 2035.
- Signing the Climate Change Superfund Act in December 2024, which will require companies that have contributed significantly to the buildup of climate-warming greenhouse gases in the atmosphere to pay for critical infrastructure investments to adapt to climate change.

During the November 2022 general election, New York State voters approved the Clean Water, Clean Air, and Green Jobs Bond Act. The \$4.2 billion bond act is actively being implemented and is supporting substantial capital improvements and enhancements in the following areas: flood risk reduction/restorations; open space, working lands conservation, and recreation; climate change mitigation; and water quality improvement and resilient infrastructure.

**Cybersecurity.** The New York State government, like many other large public and private entities, relies on a large and complex technology environment to conduct its operations. As a recipient and provider of personal, private, or sensitive information, the State and its authorities, agencies, and public benefit corporations, as well as its political subdivisions (including counties, cities, towns, villages, and school districts) face multiple cyber threats involving, but not limited to, hacking, viruses, ransomware, malware and other attacks on computers and other networks and systems. Entities or individuals may attempt to gain unauthorized access to the State's technology environment for the purposes of misappropriating assets or information or causing operational disruption and damage. In addition, the tactics used in malicious attacks to obtain unauthorized access to networks and systems change frequently and are often not recognized until launched against a target. Accordingly, the State may be unable to fully anticipate these techniques or implement adequate preventative measures.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

To mitigate the risk of business operations impact and/or damage from cyber incidents or cyber-attacks, the State invests in multiple forms of cybersecurity and operational controls. The State's Chief Information Security Office (CISO) within the State's Office of Information Technology Services (ITS) maintains policies, standards, programs, and services relating to the security of State government networks. The CISO is responsible for annually assessing the effectiveness of certain State agencies' cybersecurity defenses through the Nationwide Cybersecurity Review. In addition, the CISO maintains the New York State Cyber Command Center team, which possesses digital forensics capabilities, and manages cyber incident reporting and response. The CISO also distributes real-time advisories and alerts, provides managed security services, and implements Statewide information security awareness training.

The State has also developed partnerships with local governments to better address cybersecurity threats. In February 2022, the Governor announced the creation of an information-sharing partnership, the Joint Security Operations Center (JSOC). The JSOC is a partnership between the State and the cities of Albany, Buffalo, the City of New York, Rochester, Syracuse, and Yonkers. The JSOC combines local, State, and Federal cyber threat information in order to increase collaboration on threat intelligence, reduce response times, and yield faster and more effective remediation in the event of a major cyber incident. The FY 2026 Enacted Budget continued to invest in New York's Shared Services Program, which helps county and local governments and other regional partners acquire and deploy high quality cybersecurity services to bolster their cyber defenses.

Occasionally, intrusions into State digital systems have been detected, but they have generally been contained. While cybersecurity procedures and controls are routinely reviewed and tested, there can be no assurance that such security and operational control measures will be successful at preventing future cyber threats and attacks. Successful attacks could adversely impact the State, including disrupting business operations, harming State networks and systems, and damaging State and local infrastructure; and the costs of remediation and recovery could be substantial.

The State has also adopted regulations designed to protect the financial services industry from cyberattacks. Banks, insurance companies and other covered entities regulated by DFS are, unless eligible for limited exemptions, required to: (a) maintain a cybersecurity program, (b) create written cybersecurity policies and perform risk assessments, (c) designate someone with responsibility to oversee the cybersecurity program, (d) annually certify compliance with the cybersecurity regulations, and (e) report to DFS cybersecurity events that have a reasonable likelihood of materially harming any substantial part of the entity's normal operation(s) or for which notice is required to any government body, self-regulatory agency, or supervisory body.

---

# **ECONOMIC OUTLOOK**

---

### Economic Outlook

DOB's economic outlook halfway through FY 2026 reflects the economic strength evident in recent data but also accounts for near-term risks, including temporary disruptions caused by the Federal government shutdown, continuing tariff policy uncertainties, and elevated geopolitical risks. While upward revisions to the BEA's National Economic Accounts for the past five years put economic growth on a stronger trajectory, evidence indicates that the U.S. labor market has lost momentum this year. In the meantime, tariffs are taking longer to impact consumer prices as businesses absorbed most of the tariff impacts to date by front-loading inventories, adjusting supply chains, and squeezing profits.

Looking ahead, U.S. real Gross Domestic Product (GDP) growth is forecast to slow from an average pace of 2.8 percent in 2024 to 2.0 percent in 2025 and 1.9 percent in 2026, approaching its long-term potential growth rate.<sup>10</sup> The U.S. unemployment rate is projected to peak at 4.5 percent by mid-2026. Meanwhile, consumer price inflation is expected to gradually drift higher away from the Federal Reserve's 2.0 percent target in response to tariff hikes. The Federal Reserve is likely to continue lowering interest rates in the last quarter of 2025 and into 2026 to bolster lagging employment and income gains, unless a surge of sustained inflation occurs.

This economic outlook is brighter than initially expected at the publication of the Enacted Budget. However, a lack of timely data and heightened economic uncertainty due to the Federal government shutdown in October complicates the outlook. The shutdown suspended the release of key economic indicators at a critical time for labor markets and the inflation outlook. Although the September 2025 CPI was released on October 24 as an exception, forecasters and policymakers must rely on private sector data to assess economic conditions. The current shutdown will affect 750,000 Federal civilian workers, resulting in lower government spending, consumption, and business investment. Altogether, the shutdown is estimated to reduce real GDP growth by 0.1 percentage points per week. Historically, economic output recovers much of what is lost to furloughs after the government reopens. A more prolonged shutdown could have more significant economic impacts than past shutdowns.

In line with the national trend of softened job growth, New York State's labor market expansion is also expected to be muted over the next two years. Slowing national and state-level economic activity, combined with uncertainty around Federal policies and financial markets, weighs on the State employment outlook. In the first half of 2025, only three private industries—transportation and warehousing, financial services, and health care—added jobs. With this weak momentum and expected future impact from Federal funding cuts, State employment growth is projected to slow substantially to 0.3 percent in 2025 and 0.1 percent in 2026, compared with national growth of 0.9 percent and 0.3 percent in 2025 and 2026, respectively.

---

<sup>10</sup> DOB's U.S. economic forecast incorporates the third estimate of 2025 second-quarter GDP, the personal income and outlays estimates for August 2025, the CPI report for August 2025, and the initial estimate of employment for August 2025. DOB's New York State forecast incorporates the second quarter of 2025 personal income by state data and Quarterly Census of Employment and Wages (QCEW) data. U.S. economic forecasts are reported on a calendar year basis (CY) and New York State economic forecasts are reported on a State Fiscal Year (FY) basis. New York State fiscal year starts April 1 and ends March 30.

## ECONOMIC OUTLOOK

In the first half of 2025, the State's professional and business services and information sectors lost jobs. Job losses in these high-wage sectors not only limited overall employment growth but also further weakened State wage growth. Wage growth is expected to be 3.2 percent in FY 2026, below the national average growth rate of 4.5 percent. As a result, personal income growth is expected to lag the national pace, reflecting slower wage growth and reduced growth in Federal transfer programs such as Medicaid and SNAP. Stronger proprietors' income is expected to offset some of this downward pressure on income growth in the State. Personal income is expected to grow by 3.3 percent in FY 2026, below the national rate of 4.6 percent.

Looking ahead to FY 2027, slightly stronger employment growth with modest improvements in high-wage sector employment are projected to lead to an acceleration of wage growth to 3.4 percent, converging to the national rate. State personal income is projected to grow by 3.3 percent, close to the national forecast of 3.4 percent.

### Real Output Growth

Real GDP growth rebounded at an annualized rate of 3.8 percent in the second quarter of 2025, following a contraction in the first quarter. Such a large swing was primarily driven by a response to tariffs. Retailers rushed to fill up their shelves, and firms stockpiled industrial inputs ahead of tariff hikes. The import surge in the first quarter was a significant subtraction from GDP. Falling imports in the second quarter reversed the tariff impact and boosted GDP growth. Consumer spending and business investment appear resilient in the third quarter, according to high-frequency data. Therefore, the third-quarter growth is estimated to remain strong above 3 percent.

Resilience in consumer spending may have come from continued strength in wage earnings and non-wage personal incomes, especially among the high-income households who may also have benefited from recent equity price appreciation. According to a Moody's Analytics study, the top 20 percent earners now account for roughly two-thirds of all consumer spending, a new record; whereas the bottom 80 percent have depleted their savings and are taking on debt and experiencing an increase in delinquencies. A shock that hurts the confidence of high-income households, such as a stock market correction, could trigger a broader slowdown in consumer spending.

Resilience in business investment may be closely tied to high-tech investments, which include spending on computer and peripheral equipment, software, and data center structures. These investments contributed over one percentage point to real GDP growth in the second quarter of 2025. High-tech investments are expected to support overall GDP growth for the remainder of this year; however, the headwind from elevated capital costs, shifts in trade policy, and other policy uncertainties is likely to pull back business investment beyond this year.

On balance, DOB forecasts real GDP growth to decelerate to 2.0 percent in 2025 and 1.9 percent in 2026. The Congressional Budget Office's estimate for long-run potential real GDP growth rate is 1.8 percent. Thus, DOB's forecast implies that the U.S. economy will slow towards its long-run potential growth in 2025 and 2026. DOB's forecast reflects some of the policy changes proposed by the U.S. administration. Uncertainties and risks around these policy changes make the long-run forecasts highly variable and harder to predict.

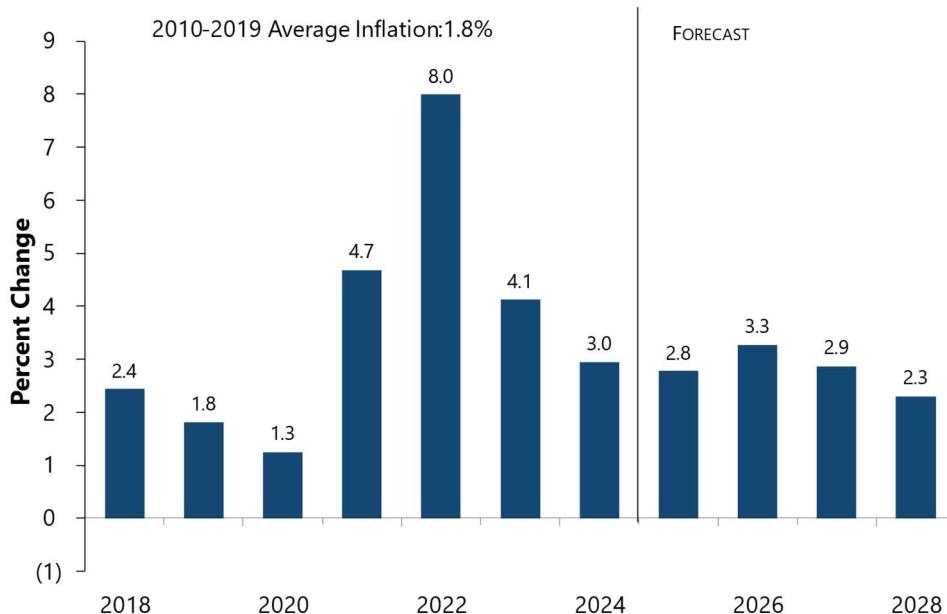

Source: Haver Analytics/BEA; DOB staff estimates.

### Inflation Pressures

The disinflationary trend underway since 2024 stalled after services inflation leveled off and new tariffs reignited inflation for goods, albeit at a more moderate pace than expected. The year-over-year growth of the CPI increased from 2.3 percent in April 2025 to 3.0 percent as of September 2025. Prices have risen quickly among food products that are commonly imported. Roasted coffee prices were 18.9 percent higher than a year ago. Meat, poultry and fish prices were 6.0 percent higher than a year ago. Price increases of other imported goods were relatively muted through the summer. For example, new car prices ticked up only 1.2 percent from a year ago. Car manufacturers are likely to embed price hikes when they introduce the new year models at the end of this year. As the full impact of tariffs materializes and persistent wage growth continues to keep the cost of services elevated, price inflation is expected to continue climbing in the coming months, heading further away from the Federal Reserve's 2.0 percent target.

DOB projects CPI inflation to be 2.8 percent in 2025 and rise further to 3.3 percent in 2026. The impact of tariffs on prices is expected to take longer to reach consumers because it takes time for firms to exhaust their stockpiled inventories, adjust supply chains and production, or reduce their profit margins. In addition, since tariff policies are still evolving, firms are likely to delay major decisions until policy uncertainties are settled. After 2026, DOB expects consumer price inflation to gradually moderate towards the 2.0 percent target if long-term inflation expectations remain anchored.

**Consumer price inflation will rise under tariff hikes**

Source: Haver Analytics/BLS; DOB staff estimates.

National Employment

The U.S. labor market has notably softened since May 2025. Monthly nonfarm payrolls gained 27,000 jobs per month on average between May and August, significantly below the average growth of 123,000 jobs between January and April. The unemployment rate also increased to 4.3 percent as of August, higher than the 4.0 percent rate in January. The official employment report for September was suspended as a result of the Federal government shutdown; however, alternative data sources, such as the ADP national employment report, job postings on Indeed, and the employment index of the Federal Reserve's regional Purchasing Managers' Indexes, all pointed to slow job growth in September.

Companies hired fewer people and continued to avoid layoffs, according to the September Job Openings and Labor Turnover Survey report. Companies are likely postponing workforce decisions until the economic impact of new trade and fiscal policies becomes clearer; however, mounting input costs and softening demand will eventually force them to consider layoffs despite their desire to retain workers. In addition, the major impact of the Federal workforce reduction is imminent. Many Federal employees who accepted buyouts or were put on administrative leave may have left the government payroll after the end of September. Layoffs among employers that are dependent on Federal contracts and grants will also rise due to Federal funding freezes and grant reductions.

DOB expects a payroll employment loss in the last quarter of 2025 due to the Federal workforce reduction. In 2026, job gains are projected to average 65,000 per month. This is similar in magnitude to the estimate of the number of individuals entering the labor force on a monthly basis. Labor force entry estimates have been revised downward to reflect lower immigration and population growth projections. DOB projects the labor market will be in a state of breakeven employment where job creation is perfectly balanced with the number of new people entering the labor force. As a result, the unemployment rate will remain steady without upward or downward pressure on wages. Total nonfarm employment is projected to grow by 0.9 percent in 2025, followed by a 0.3 percent growth rate in 2026. The unemployment rate is projected at 4.3 percent on average in 2025 and peaks at 4.5 percent in mid-2026.

### New York State Labor Market

New York State's job market also slowed sharply in 2025. Between January and August, the State added an average of 7,800 jobs per month, down from 13,700 jobs per month over the same period last year. This represents a 43 percent decline in the job growth rate, comparable to a 48 percent decline within the same period for the nation. While most of the nation's job gains in 2025 came from the private sector, only about one quarter of the State's gains did. Government sector, specifically local governments, drove the State's job gains year to date, but the sector is unlikely to continue expanding at the same pace into late 2025 and 2026. Meanwhile, private sector hiring averaged 1,900 jobs per month with health care and social assistance gains offsetting losses elsewhere. With recent Federal funding cuts targeting New York hospitals and health systems that cover nearly 1.7 million New Yorkers, healthcare employment growth is expected to slow despite strong demand from an aging population. Consequently, DOB projects the State's total employment to rise 0.3 percent in 2025 and 0.1 percent in 2026.

Similar to the national outlook, New York's unemployment rate is projected to hold steady, even as the pace of New York employment growth slows. New York's unemployment rate was 4.0 percent in August. It is projected to average 4.2 percent for the four quarters of 2025 and peak at 4.4 percent in 2026, slightly under the national rate of 4.3 percent in 2025 and 4.5 percent in 2026. Two forces help explain the disconnect between slower job growth and subdued increase in the unemployment rate: (1) New York's population is older than the nation (18.9 percent of New York's population was 65 or older in 2024 compared to 18 percent nationwide) which constrains the labor force growth (sum of employed and unemployed persons); and (2) after record net immigration nationwide between 2022 and 2024 (averaging 3 million annually), inflows are projected to slow sharply to 400,000 in 2025.<sup>11</sup> New York is a hub for international immigration and fewer new entrants mean fewer job seekers. These two trends limit upward pressure on State unemployment even more than the nation as hiring cools.

---

<sup>11</sup> "An Update to the Demographic Outlook, 2025 to 2055," The Congressional Budget Office (CBO) report, September 10, 2025. Available at: <https://www.cbo.gov/publication/61390>. Last accessed: October 15, 2025.

### U.S. and New York State Personal Income Growth

Personal income is a determinant of consumer spending. Consumer spending accounts for approximately 70 percent of the U.S. economy. In addition, personal income taxes are a major component of overall Federal and State government receipts. Understanding near-term trends in personal income growth provides insight into the economic outlook and the State's fiscal health. U.S. personal income rose by an annualized rate of 6.0 percent in the first half of 2025, up from 4.6 percent in the fourth quarter of 2024. Income growth was supported by steady gains in wages and strength in transfer income. With job gains and hourly earnings growth expected to continue cooling, U.S. wage growth is projected to weaken from an annual growth of 5.6 percent in 2024 to 4.9 percent in 2025 and 3.4 percent in 2026. Meanwhile, growth in the non-wage components of U.S. personal income is also estimated to moderate in the coming quarters; in particular, anticipated financial market turbulence and weakening corporate profits will become a drag on interest income and dividend income. As a result, DOB expects U.S. personal income growth to moderate to 4.9 percent in 2025, followed by 3.5 percent growth in 2026.

Although income growth continued to outpace inflation, the personal savings rate has trended lower and household debt balances have climbed. In the second quarter of 2025, student loan delinquency hit an all-time high of 12.9 percent. As mentioned earlier, recent strength in consumer spending was largely attributed to high-income households. Looking ahead, DOB expects the deteriorating personal income and household wealth conditions to weigh on the resilience of consumer spending in 2026.

New York State is projected to see personal income growth of 3.3 percent in FY 2026, below the national rate of 4.6 percent. The gap mainly reflects slower wage growth in the State, which is expected to rise by 3.2 percent compared with 4.5 percent nationally. The discrepancy between the State and the nation is driven by lower employment growth in New York. The State's growth is projected to be flat in FY 2026, 0.7 percentage points below the national rate. Gaps will be pronounced in high-wage sectors such as information, professional and business services, and the government sector, where national growth in these sectors is expected to outpace New York and widen the wage gap.

Beyond wages, transfer income is also projected to grow more slowly, rising 5.5 percent in New York compared with 8.2 percent nationally in FY 2026. The slower pace reflects the State's modest population decline and expected cut in major Federal programs such as Medicaid and SNAP benefits. Because New York has a higher share of residents relying on these programs, Federal funding changes have a larger effect on total transfer income. Some of this drag is expected to be offset by stronger proprietors' income, which is projected to grow 4.3 percent, compared with 3.4 percent nationally.

Looking ahead to FY 2027, New York's wage growth is expected to rebound modestly to 3.4 percent, the same as the national pace, due to expected improvements in total employment and some high-wage sectors' growth. Total personal income is expected to rise by 3.3 percent, nearly matching the national growth of 3.4 percent, indicating a stabilization of income growth relative to broader U.S. trends.

### Interest Rates, Stock Prices, and Financial Sector Bonuses

The Federal Reserve started to lower interest rates in September as downside risks to the labor market appeared more pressing than inflation concerns. A delay of data releases coming from the Federal statistical agencies will challenge the Federal Reserve's ability to make data-dependent policy decisions.<sup>12</sup> DOB expects the Federal Reserve will continue to prioritize supporting the labor market even as inflation rises due to tariffs. DOB currently anticipates the Federal Open Market Committee to lower the Federal Funds rate one more time by 25 basis points in 2025 and continue with a 25-basis-point cut every other meeting until September 2026, bringing the target rate down to 3.00 – 3.25 percent.

While short-term interest rates are expected to follow the Federal Funds rate cuts and fall in 2025 and 2026, long-term interest rates, including Treasury bond yields, mortgage rates, and corporate bond yields, are expected to remain elevated, mainly due to prospects for larger Federal budget deficits. Elevated long-term rates are expected to become a significant drag on durable goods consumption, as well as residential and business investment in 2026.

Pessimism in equity markets that followed the April announcement of higher tariffs has largely faded as the U.S. economy demonstrated significant strength and investors adapted to the changed trade landscape. With stock prices reaching new highs, the S&P 500 index is likely to end 2025 with double-digit growth. DOB expects earnings expectations and stock valuations to drop once economic data fully reflect a slowdown in economic growth and any negative impact of Federal policies. The S&P 500 index is projected to end 2026 with a 0.4 percent decline on a fourth quarter over fourth-quarter basis, providing less support for household spending through the wealth effect.

Given this economic outlook and interest rate environment, New York's finance and insurance sector bonuses are expected to increase by 5.7 percent in FY 2026 supported by overall modest gains in deal-making activities in addition to the surge of Initial Public Offering (IPOs) in September but constrained by continued caution of financial firms. In the first half of 2025, total revenue of the New York Stock Exchange member firms grew by 6.1 percent, while the six largest investment banks reported a combined 5.8 percent revenue growth in the first three quarters of 2025. In the first nine months of 2025, debt underwriting rose by 8.1 percent supported by steady demand for corporate refinancing and new issuance. IPO activity, which had grown by just 0.5 percent through August, surged to 28.9 percent year-to-date growth after several large offerings in September. However, this spike is not expected to persist due to rising market volatility, uncertainty over the Federal Reserve's policy path, and a limited pipeline of new issuances.

While revenues have grown modestly, firms continue to face elevated operating expenses. Investments in AI-driven automation, cybersecurity, and regulatory compliance have added to cost pressures. Funding costs are also expected to stay relatively high next year, as interest rates are likely to decline only gradually. The high costs make firms maintain conservative compensation practices.

<sup>12</sup> "Shutdown Leaves Fed in Dark on Data as It Weighs Next Rate Move," Wall Street Journal, October 16, 2025.

Available at: [https://www.wsj.com/economy/central-banking/fed-economic-data-government-shutdown-Of85f2d1?st=zwGBFv&reflink=article\\_copyURL\\_share](https://www.wsj.com/economy/central-banking/fed-economic-data-government-shutdown-Of85f2d1?st=zwGBFv&reflink=article_copyURL_share). Last accessed: October 16, 2025.

Looking ahead, finance and insurance sector bonuses are projected to decelerate to 4.7 percent in FY 2027, reflecting both firms continued cautious investment activities and a softening macroeconomic outlook. An anticipated weakening- even a correction- of equity market could dampen underwriting and trading revenues. Slower overall economic growth and ongoing cost control are expected to lead to a more modest bonus growth in FY 2027.

### Risks to the Economic Outlook

DOB's baseline economic outlook reflects the strength in incoming data. Nonetheless, downside risks and uncertainties are mounting. Global economic uncertainty – largely driven by U.S. trade policy – has resumed. Economic disruptions from a prolonged government shutdown and an extended delay of key government data releases would inject additional uncertainty for decision makers. A stock market correction with a 10 to 20 percent decline from the recent high could be triggered by negative events. The forecast for New York State's economy shares many of the same risks as the national outlook but also faces additional challenges and opportunities due to the State's unique economic structure, demographic trends, and State policies.

#### Stock Market Risks

DOB's baseline forecast does not expect a large drop in stock markets, but a market correction in equity prices could happen. The current Shiller cyclically adjusted S&P price-to-earnings ratio (CAPE) is near its highest level in history. A ratio this high has historically been associated with periods of high market valuation that were followed by major market downturns, such as the dot-com bubble burst and the 2007-09 Great Recession. Recent high valuations were concentrated in tech stocks. As of October 2025, the "Magnificent Seven" tech companies make up nearly 40 percent of the S&P 500 market capitalization. When earnings growth slows among this small group of tech giants, their exceptionally high valuations will be at risk. While high CAPE does not predict an immediate crash, the probability of a stock market correction is high.

#### Fiscal Policy Risks

DOB's baseline forecast reflected the positive impact of H.R. 1 provisions on increased Federal direct spending and expanded corporate tax deductions. However, the economic impact of reduced outlays for Medicaid, ACA insurance premium tax credits, and SNAP benefits is complex and could be underestimated. In addition, a lack of long-term sustainability of increasing Federal spending could also limit the government's ability to moderate future economic downturns.

DOB's baseline forecast also assumed the Federal government shutdown would only last a month, with no permanent layoff of Federal workers. If the shutdown were to extend significantly beyond this time horizon, then it could have a larger impact on the U.S. economy.

### Trade Policy Risks

In response to the shifting trade policy, DOB's baseline forecast incorporated a rise in inflation, a disruption of supply chains, a slowdown in hirings, a weakening of consumer demand and business investment, and a decline in corporate earnings and stock valuation. However, the negative impact of these tariffs currently in place could have a larger magnitude than expected. Additional new tariffs could weigh more on economic activities. For example, China expanded export controls on rare earth minerals in October, prompting a U.S. threat of additional 100 percent tariffs on Chinese goods starting November 1.

### Additional Risks

In addition to stock market risks, fiscal sustainability concerns, and tariff-induced economic slowdown, other issues involving monetary policy challenges, global geopolitical tensions, increasing financial stress, and climate-related disasters add layers of uncertainty to the economy.

Although the downside risks are more immediate and pronounced, there are some upside opportunities shaping the forecast horizon. On the upside, deregulation efforts could spur business investment, expand hiring, and drive short-term growth, though these gains must be weighed against potential risks to financial stability. If technology investments boost productivity growth faster than expected, then U.S. economic growth would potentially have a significant improvement. Additionally, a less restrictive than anticipated immigration policy may help stabilize the labor force in key sectors, supporting output and easing wage pressures. And if tariff policies are scaled back, trade-related inflation and supply chain disruptions could be limited, allowing exporters and importers to adapt without severe economic implications.

## **New York State Economic Outlook Faces Unique Risks**

Given the State's heavy reliance on the financial industry, volatility in equity and credit markets poses one of the most immediate risks to New York's economy. A downturn in equity markets—triggered by weaker corporate earnings, tighter monetary policy, or geopolitical shocks—could sharply reduce trading and underwriting activities, dampening bonus and personal income growth. Prolonged high interest rates may also continue to constrain deal-making, initial public offerings, and mergers, leading to slower hiring and wage growth in financial and related professional services.

The State's high cost of living, especially in the City of New York metro area, has contributed to a population decline in the region as more businesses and residents move to lower-cost states. Strict immigration policies could further exacerbate the State's population loss and labor shortages. A long-term decline in population remains a significant downside risk to both employment and wage growth in the State.

## ECONOMIC OUTLOOK

Potential Federal program cuts such as Medicaid and other social service programs could lead to weaker personal income growth. On the real estate front, persistently high office vacancy rates due to hybrid work could also strain local banks.

Despite these challenges, several upside factors could support stronger-than-expected growth. A sustained national expansion, coupled with robust corporate earnings and equity market gains, could boost financial-sector bonuses. Major public and private investments, clean energy infrastructure and Federal infrastructure funding—have the potential to generate new high-wage jobs. A gradual recovery in office occupancy and tourism would also lift consumer-facing sectors such as transportation, retail, and hospitality. If the City of New York's population loss is less than anticipated and immigration policy is not as restrictive as expected, the City and State economy might benefit from improved labor force supply and consumer demand.

---

# **STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS**

---

### Introduction

This section presents multi-year projections for receipts and disbursements, with an emphasis on FY 2026 projections.

The budget development and quarterly updates process includes a comprehensive evaluation of the State's multi-year operating forecast; however, estimates and projections in the later years of the Financial Plan are typically subject to more substantial revision than those in the current year and first "outyear." Accordingly, in terms of outyear projections, the first "outyear," FY 2027, is the most relevant from a planning perspective.

The State budgets on a cash basis, using a complex fund structure that earmarks certain tax receipts for specific purposes, which often complicates the reporting and discussion of the State's receipts and disbursements projections. To reduce potential distortions caused by these factors and to highlight relevant aspects of the projections, DOB adopts certain approaches in summarizing projections.

### Receipts

Financial Plan receipts include a variety of taxes, fees and assessments, charges for State-provided services, Federal receipts, and other miscellaneous receipts. Multi-year receipts estimates are prepared by DOB with the assistance of the Department of Taxation and Finance and other agencies, which collect State receipts and are premised on economic analysis and forecasts.

Overall base growth (i.e., growth not due to law changes) in tax receipts is dependent on many factors. In general, base tax receipts growth rates are determined by economic changes including, but not limited to, changes in interest rates, prices, wages, employment, nonwage income, capital gains realizations, taxable consumption, corporate profits, household net worth, real estate prices and gasoline prices. Federal law changes can influence taxpayer behavior, which often alters base tax receipts.

General Fund tax receipts are affected by the deposit of dedicated taxes in other funds for debt service and the STAR program. Changes in debt service on State-supported revenue bonds also affect General Fund tax receipts. The State utilizes bonding programs, where tax receipts are deposited into dedicated Debt Service Funds (outside the General Fund) and used to make debt service payments. After satisfying debt service requirements for these bonding programs, the balance is transferred to the General Fund. Accordingly, amounts transferred to the General Fund which are in excess of amounts needed for certain debt service obligations (e.g., PIT receipts in excess of the amount transferred to debt service on revenue bonds), may be excluded from some tables displaying General Fund tax receipts.

Projections of Federal receipts generally correspond to the anticipated spending levels of a variety of programs supported by Federal aid, including Medicaid, public assistance, mental hygiene, education, public health, and other activities.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

State and All Funds receipts reflect estimated tax receipts before distribution to various funds and accounts, including tax receipts dedicated to Capital Projects Funds (which fall outside the General Fund and State Operating Funds accounting perspectives) to provide a clearer picture of projected receipts, trends, and forecast assumptions, and avoid the distortions created by earmarking tax receipts for specific purposes.

### Disbursements

To provide a clear representation of spending commitments, the multi-year spending projections, growth rates, and summary of annual changes are presented on a State Operating Funds basis to include spending that is accounted for in dedicated Special Revenue Funds, primarily for School Aid, health, higher education, and transportation. Roughly a quarter of projected State-financed spending for operating purposes (excluding transfers) is reported outside the General Fund.

The multi-year disbursements projections consider various factors, including statutorily indexed rates intended to limit spending in certain programs, agency staffing levels, program caseloads, inflation, and funding formulas contained in State and Federal law. Factors that affect spending estimates vary by program. For example, public assistance spending is based primarily on anticipated caseloads that are estimated by analyzing historical trends and projected economic conditions. Projections also account for the timing of payments, since not all the amounts appropriated are disbursed in the same fiscal year. Consistent with past practice, the aggregate receipts and spending projections (i.e., the sum of all projected receipts and spending by individual agencies) in State Special Revenue Funds are centrally adjusted downward to reflect aggregate spending trends and patterns observed between estimated and actual results over time.

The following table presents the Financial Plan multi-year projections for State Operating Funds, as well as a reconciliation between State Operating Funds projections and General Fund budget gaps.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Overview of the Receipts Forecast

All Funds receipts are projected to total \$258.7 billion in FY 2026, a 5.6 percent (\$13.8 billion) increase from FY 2025 results. FY 2026 State tax receipts, excluding one-time tax refund payments, are projected to increase \$8.4 billion (7.4 percent) from FY 2025 results. FY 2027 State tax receipts are projected to total \$123.4 billion, a 1.3 percent increase from FY 2026. A summary of the annual changes of each tax category is provided below with the narrative that follows focused on State/All Funds receipts.

ALL FUNDS RECEIPTS (millions of dollars)

<sup>1</sup> Net PTET/PIT Receipts is the difference between the estimated realization of PTET credits by PIT filers and the PTET receipts from entities, and is excluded from adjusted totals.

<sup>2</sup> In addition, All Funds tax receipts are adjusted to exclude the enacted payment of \$2 billion to New Yorkers through inflation tax refund payments to qualified tax filers, and is excluded from adjusted totals.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### PIT

FY 2026 PIT receipts are estimated to increase moderately from FY 2025, reflecting increases in all major gross receipts components, partially offset by an increase in total refunds.

PERSONAL INCOME TAX (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change

<sup>1</sup>State/All Funds (Excl. PTET) reflects PIT receipts increased by the estimated cost of PTET credit realization. State/All Funds represents actual (unadjusted) PIT receipts.

<sup>2</sup>Excludes Transfers.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

The following table summarizes, by component, actual PIT receipts for FY 2025 and forecast amounts through FY 2029.

ALL FUNDS PERSONAL INCOME TAX FISCAL YEAR COLLECTION COMPONENTS (millions of dollars)					
	FY 2025 Actuals	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected
<b>Receipts</b>					
Withholding	59,827	62,921	65,097	68,019	70,847
Estimated Payments	12,299	14,599	15,296	15,513	15,785
Current Year	7,444	8,742	8,885	9,025	9,180
Prior Year <sup>1</sup>	4,855	5,857	6,411	6,488	6,605
Final Returns	3,661	4,651	4,857	5,142	5,442
Current Year	492	509	529	549	574
Prior Year <sup>1</sup>	3,169	4,142	4,328	4,593	4,868
Delinquent	1,949	2,119	2,172	2,258	2,314
Gross Receipts	77,736	84,290	87,422	90,932	94,388
<b>Refunds</b>					
Prior Year <sup>1</sup>	9,705	10,357	12,171	13,102	13,375
Previous Year	1,263	1,315	1,350	1,385	1,435
Current Year <sup>1</sup>	3,394	3,500	3,500	3,500	3,500
Advanced Credit Payment	803	2,977	1,073	1,187	1,359
State/City Offset <sup>1,2</sup>	1,370	1,551	1,739	1,961	2,211
Total Refunds	16,535	19,700	19,833	21,135	21,880
<b>Net Receipts<sup>3</sup></b>	<b>61,201</b>	<b>64,590</b>	<b>67,589</b>	<b>69,797</b>	<b>72,508</b>
PTET/PIT Credits	13,700	17,102	17,258	17,396	17,641
<b>Net Receipts, Excluding PTET<sup>4</sup></b>	<b>74,901</b>	<b>81,692</b>	<b>84,847</b>	<b>87,193</b>	<b>90,149</b>

<sup>1</sup> These components, collectively, are known as the "settlement" on the prior year's tax liability.

<sup>2</sup> The State/City offset corrects the distribution of tax payments between the State, City of New York, Yonkers, and the MCTMT.

<sup>3</sup> Net Receipts represents actual (unadjusted) PIT receipts.

<sup>4</sup> Net Receipts, Excluding PTET, represents PIT receipts increased by the estimated cost of PTET credit realization.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

FY 2026 withholding is estimated to increase compared to the prior year despite weaker bonus wage growth and the cost of the Middle-Class Tax Cut beginning in tax year 2026. Current estimated payments for tax year 2025 and extension payments (i.e., prior year estimated) for tax year 2024 are both expected to increase. The projected growth in current estimated payments reflects moderate growth in nonwage income. Delinquent collections and final return payments are projected to increase as well.

Total refunds in FY 2026 are projected to increase significantly, driven primarily by Inflation Refund checks, an advanced credit payment effectuated by FY 2026 Enacted Budget legislation. The increase in prior year refunds for tax year 2024, which impact FY 2026 refunds, is driven by more PTET-related refunds compared to tax year 2023. State/City offsets and refunds for tax years previous to 2024 are also expected to increase.

FY 2027 PIT receipts are expected to increase from FY 2026 due to growth in all gross receipts components. Withholding is projected to grow modestly and will be suppressed by the influence of the aforementioned Middle-Class Tax Cut. Total estimated payments are expected to increase, driven by growth in both current estimated payments for tax year 2026 and extension payments for tax year 2025. Final returns and delinquent collections are also expected to increase. The nearly flat growth in refunds is driven by a sharp decline in advanced credit payments after the one-time Inflation Refund payments in the prior fiscal year, offset by an increase in PTET-related refunds coupled with the first effect of the temporarily enhanced Empire State Child Credit effectuated by FY 2026 Enacted Budget legislation.

FY 2028 PIT receipts are projected to increase from FY 2027 due to growth in all gross receipts components partially offset by increases in total refunds. The increase in refunds is driven by increases in advanced credit payments, State/City offsets, prior refunds for tax year 2026, and refunds for years previous to tax year 2026. Receipts also include revenue from the extension of the current top PIT rates through tax year 2032 and elevated refunds from the expansion of the enhanced Empire State Child Credit to children over three years old.

FY 2029 PIT receipts are projected to increase due to increases in withholding, estimated tax payments, final returns and delinquencies partially offset by an increase in total refunds.

<b>GENERAL FUND<sup>2</sup></b>	<b>10,057</b>	<b>10,315</b>	<b>2.6%</b>	<b>10,592</b>	<b>2.7%</b>	<b>10,873</b>	<b>2.7%</b>	<b>11,141</b>	<b>2.5%</b>
Sales Tax	9,520	9,791	2.8%	10,078	2.9%	10,368	2.9%	10,646	2.7%
Cigarette and Tobacco Taxes	245	235	-4.1%	226	-3.8%	217	-4.0%	208	-4.1%
Alcoholic Beverage Taxes	269	268	-0.4%	267	-0.4%	267	0.0%	266	-0.4%
Opioid Excise Tax	21	20	-4.8%	20	0.0%	20	0.0%	20	0.0%
Peer to Peer Car Sharing Tax	2	1	-50.0%	1	0.0%	1	0.0%	1	0.0%

<sup>1</sup>No longer includes receipts remitted directly to the MTA without an appropriation as of FY 2020.

<sup>2</sup>Excludes Transfers.

All Funds consumption/use tax receipts for FY 2026 are estimated to increase from FY 2025 results. Sales tax receipts are estimated to increase due to moderate growth in taxable consumption. Cigarette and tobacco tax receipts are estimated to decrease, reflecting a continuing trend of declining taxable consumption. Opioid and medical cannabis excise tax receipts are both expected to marginally decline; the estimated decline in opioids receipts reflects the continued long-term trend of declining opioid consumption, while the medical cannabis receipts decline is largely attributable to the full year impact of the reduced excise tax rate (from 7 percent to 3.15 percent) that went into effect June 1, 2024. Peer-to-peer car sharing receipts are estimated to decline as consumer demand appears to wane while the industry works toward stabilizing and increasing utilization in this market. Adult-use cannabis taxes are projected to significantly increase as the State's cannabis market expands during the third full year of receipts. Auto rental tax receipts are estimated to increase, continuing the underlying long-term growth trend.

General Fund consumption/use tax receipts for FY 2026 are projected to increase largely due to the previously noted All Funds sales tax receipts trend.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

FY 2027 consumption/use tax receipts are projected to increase, largely driven by a projected increase in sales tax receipts. Several consumption/use taxes are projected to experience nearly flat or flat year-over-year growth, including opioid excise tax, medical cannabis excise tax, peer-to-peer car sharing tax and the vapor excise tax; or moderate/marginal growth, as is the case with auto rental and highway use tax receipts. Adult-use cannabis taxes are projected to significantly increase as the cannabis market continues to mature. However, the increases above are partially offset by a continued decline in taxable cigarette consumption and a moderate decline in motor fuel tax receipts due to a projected decline in overall fuel consumption.

Consumption/use tax receipts for FY 2028 and FY 2029 are projected to increase, largely reflecting a projected increase in sales tax receipts and the continued maturation of the adult-use cannabis market, partially offset by a continued decline in taxable cigarette consumption.

<sup>1</sup>State/All Funds (Excl. PTET) reflects Business Taxes receipts without the impact of PTET.

<sup>2</sup>Excludes Transfers.

The H.R. 1 bill enacted July 4, 2025, created and modified several corporate tax provisions that the State remains coupled to. While the fiscal impact at the time of enactment remained unclear, the changes to corporate tax provisions at the Federal level, notably the provisions regarding immediate expensing of research costs and first-year expensing of qualified properties, are anticipated to have a negative impact on State corporate tax receipts.

CFT receipts are estimated to decrease in FY 2026, reflecting increases in refunds and decreases in gross receipts due in large part to the Federal tax law changes.

Corporation and Utilities Tax (CUT) receipts are estimated to marginally decrease in FY 2026 due to a combination of decreased gross receipts from the telecommunications sector and an increase in refunds. This decrease is partially offset by a projected increase in audits coupled with an increase in gross receipts for utilities. Special revenue fund receipts are projected to increase slightly due to audits.

Insurance tax receipts are estimated to decrease in FY 2026 due to an increase in refunds and a decline in gross receipts. This is partially offset by a projected increase in audits.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

PTET collections are estimated to slightly decrease in FY 2026 due to an estimated increase in refunds and distribution offset, partially offset by increased estimated payments. As noted, DOB expects PTET will be revenue-neutral for the State; however, PTET will not be revenue-neutral within each fiscal year as PTET payments are generally received in the fiscal year prior to PIT credit claims.

Receipts from the repealed bank tax (all from prior liability periods) are estimated to significantly decrease in FY 2026 due to an expectation of lower audit receipts. Petroleum Business Tax (PBT) receipts are estimated to decrease from FY 2025 results, primarily due to two successive rate index declines, as the net impact of a 5 percent decline in the PBT rate index effective January 1, 2025, is coupled with another 5 percent decline effective January 1, 2026.

Business tax receipts for FY 2027 are projected to decrease due to CFT receipts, largely on account of the Federal tax law changes, and PBT receipts. Increases in PTET, insurance, and CUT tax receipts partially offset the overall business tax receipts decrease. These increases are driven by PTET estimated payments for tax year 2026 and gross receipts for both CUT and insurance, coupled with a slight decline in insurance tax refunds. Bank tax receipts are projected to fall to zero in FY 2027.

Business tax receipts for FY 2028 are projected to decline, due to PBT and CFT, offset by increases in PTET, insurance tax, and CUT. PTET is projected to show the largest increase, driven by increased estimated payments for tax year 2027. The decrease in CFT receipts is driven by a combination of the expiration of the temporary tax rates after tax year 2026 and Federal tax law changes.

Business tax receipts for FY 2029 are projected to increase in the PTET, CUT, and insurance tax, while CFT and PBT are projected to decline.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Other Taxes

	OTHER TAXES (millions of dollars)								
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change
<b>STATE/ALL FUNDS</b>	<b>2,586</b>	<b>2,746</b>	<b>6.2%</b>	<b>2,917</b>	<b>6.2%</b>	<b>3,106</b>	<b>6.5%</b>	<b>3,248</b>	<b>4.6%</b>
Estate Tax	1,301	1,439	10.6%	1,504	4.5%	1,569	4.3%	1,635	4.2%

Pari-Mutuel Taxes	11	13	18.2%	12	-7.7%	12	0.0%	12	0.0%
All Other Taxes	2	1	-50.0%	1	0.0%	1	0.0%	1	0.0%

<sup>1</sup>Excludes Transfers.

FY 2026 other tax receipts are estimated to increase from FY 2025 results, primarily due to increases in both estate tax and real estate transfer tax receipts. Estimated estate tax receipts reflect estimated growth in household net worth, as well as an expected decrease in refunds. Estimated real estate transfer tax receipts largely reflect estimated growth in the average housing price, bonuses, and the S&P 500, partially offset by a minor decline in housing starts.

Other tax receipts in FY 2027 and the outyears are projected to increase, largely due to increases in both estate tax and real estate transfer tax receipts, reflecting projected annual growth in household net worth, housing starts, the average housing price, the S&P 500, and bonuses.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Miscellaneous Receipts

MISCELLANEOUS RECEIPTS (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change
<b>ALL FUNDS</b>	<b>34,761</b>	<b>38,828</b>	<b>11.7%</b>	<b>39,828</b>	<b>2.6%</b>	<b>37,520</b>	<b>-5.8%</b>	<b>37,170</b>	<b>-0.9%</b>
General Fund	5,168	4,214	-18.5%	3,112	-26.2%	2,287	-26.5%	2,167	-5.2%
Special Revenue Funds	23,804	24,774	4.1%	23,827	-3.8%	21,884	-8.2%	22,604	3.3%
Capital Projects Funds	5,283	9,303	76.1%	12,452	33.8%	12,896	3.6%	11,947	-7.4%
Debt Service Funds	506	537	6.1%	437	-18.6%	453	3.7%	452	-0.2%

All Funds miscellaneous receipts in FY 2026 are projected to increase from FY 2025, driven by projected growth of bond proceeds receipts, primarily due to the increase in FY 2026 bond-eligible capital spending, partly offset by a projected decline in investment income and abandoned property receipts.

In the later years of the Financial Plan, All Funds miscellaneous receipts reflect the timing of capital reimbursements and bond issuances and a continued decline in investment income attributable to lower forecasted interest rates and available balances.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Federal Receipts

FEDERAL RECEIPTS (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change
<b>ALL FUNDS</b>	<b>96,713</b>	<b>98,016</b>	<b>1.3%</b>	<b>84,391</b>	<b>-13.9%</b>	<b>80,217</b>	<b>-4.9%</b>	<b>81,287</b>	<b>1.3%</b>
General Fund	3,650	0	-100.0%	0	0.0%	0	0.0%	0	0.0%
Special Revenue Funds	90,233	94,760	5.0%	80,810	-14.7%	76,617	-5.2%	77,660	1.4%
Capital Projects Funds	2,785	3,198	14.8%	3,528	10.3%	3,555	0.8%	3,590	1.0%
Debt Service Funds	45	58	28.9%	53	-8.6%	45	-15.1%	37	-17.8%

Aid from the Federal government helps to pay for a variety of programs, including Medicaid, public assistance, mental hygiene, School Aid, public health, transportation, and other activities. Annual changes to Federal receipts generally correspond to changes in federally reimbursed spending. Accordingly, DOB typically projects Federal reimbursements will be received in the State fiscal year in which spending occurs, but due to the variable timing of Federal receipts, actual results often differ from projections.

The changes in Federal receipts projections correspond with expected changes in Federal spending across the Financial Plan period, which include increases to Medicaid, Public Health, and Transportation, partially offset by the wind-down of pandemic assistance to aid states in their response to and recovery from COVID-19. In addition, Federal receipts in the General Fund reflect the final use of Federal American Rescue Plan (ARP) funds in FY 2025, consistent with Treasury rules.

Many of the policies that drive Federal aid may be subject to change. If Federal funding to the State were reduced, this could have a materially adverse impact on the Financial Plan.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Assistance and Grants

Assistance and grants spending represents approximately two-thirds of total State Operating Funds spending, and includes payments to local governments, school districts, health care providers and associations, hospitals, nursing homes, and other entities, as well as financial assistance to, or on behalf of, individuals, families, and not-for-profit organizations who provide services to individuals. School Aid and health care spending account for most of the assistance and grants spending.

Certain factors are considered when preparing spending projections for the State's major assistance and grants programs and activities as summarized below.

FORECAST FOR SELECTED PROGRAM MEASURES AFFECTING OPERATING ACTIVITIES (millions of dollars)					
	FY 2025 Actuals	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected
<b>HEALTH CARE</b>

OMH Community Beds	50,653	51,619	52,412	53,394	55,585
OPWDD Community Beds	43,809	44,250	44,766	45,366	46,057
OASAS Community Beds	13,206	13,295	13,388	13,480	13,505
Total	107,668	109,164	110,566	112,240	115,147

<sup>1</sup> Excludes Federal policy changes to the Essential Plan contained in H.R.1.

<sup>2</sup> Beginning in FY 2027, the Financial Plan includes the shift of approximately 535,000 individuals to Medicaid. If CMS approves the State's 1331 Waiver, these individuals will not be shifted to Medicaid but instead to the EP.

## Education

### School Aid

School Aid supports elementary and secondary education for roughly 2.4 million public school pupils in State's 673 major school districts. State aid is provided to districts based on statutory aid formulas and through reimbursement of categorical expenses, such as prekindergarten programs, education of homeless children, and bilingual education. State funding for schools assists districts in meeting locally defined needs, such as the construction of school facilities and the education of students with disabilities.

#### School Year (July 1 — June 30)

The Budget provides \$37.6 billion in total School Aid for SY 2026, representing an annual increase of \$1.7 billion (4.9 percent). This includes a \$1.4 billion (5.7 percent) increase in Foundation Aid. The FY 2026 Budget reformed the Foundation Aid formula by updating the formula's two measures of the percentage of low-income students in a school district, increasing aid for English language learners, providing additional aid to low-wealth school districts, modifying the Regional Cost Index, and ensuring that each district receives at least a 2 percent annual increase in aid. The Budget also provided enhancements to Special Services Aid and BOCES Aid to better support career and technical education. The Budget further provided additional aid to school districts with large portions of their enrollment attending charter schools.

In SY 2027 and beyond, growth in School Aid reflects estimated growth in Foundation Aid and expense-based aids, which incorporates DOB's inflation forecast and recent annual expense-based aid growth, respectively.

SCHOOL AID - SCHOOL YEAR BASIS (JULY 1 - JUNE 30)									
	(millions of dollars)								
	SY 2025	SY 2026	Change	SY 2027	Change	SY 2028	Change	SY 2029	Change
Total	35,827	37,574	1,747	38,795	1,221	40,189	1,394	41,518	1,329

#### State Fiscal Year School Aid

State School Aid is funded from the General Fund, commercial gaming receipts, cannabis sales, mobile sports wagering receipts, and lottery receipts, including revenues from Video Lottery Terminals (VLTs). Commercial gaming, lottery, and mobile sports wagering receipts are accounted for and disbursed from dedicated accounts. Revenue from the fantasy sports education and the cannabis education accounts are transferred to the Lottery Fund for disbursement. The amount of School Aid spending financed by mobile sports wagering receipts is expected to increase in FY 2026 due to an increase in anticipated revenue collections. Additionally, the amount of School Aid spending financed by lottery receipts is expected to decrease in FY 2026 due to higher than anticipated revenue collections in FY 2024 that were subsequently used to support disbursements in FY 2025.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

Because the State fiscal year begins annually on April 1 and the school year begins annually on July 1, the State typically pays approximately 70 percent of the annual school year commitment during the initial State fiscal year and the remaining 30 percent in the first quarter of the following State fiscal year. The table below summarizes the projected sources of School Aid spending on a State fiscal year basis.

SCHOOL AID - STATE FISCAL YEAR BASIS (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change
<b>TOTAL STATE OPERATING FUNDS</b>	<b>35,290</b>	<b>36,961</b>	<b>4.7%</b>	<b>38,354</b>	<b>3.8%</b>	<b>39,661</b>	<b>3.4%</b>	<b>41,015</b>	<b>3.4%</b>
General Fund Assistance and Grants	30,088	31,507	4.7%	33,190	5.3%	34,529	4.0%	35,850	3.8%
Medicaid	137	140	2.2%	140	0.0%	140	0.0%	140	0.0%
Lottery Aid <sup>1</sup>	2,807	2,591	-7.7%	2,558	-1.3%	2,500	-2.3%	2,495	-0.2%
VLT Lottery Aid	1,096	1,131	3.2%	1,092	-3.4%	1,094	0.2%	1,094	0.0%
Commercial Gaming	122	135	10.7%	138	2.2%	134	-2.9%	134	0.0%
Mobile Sports Wagering	1,040	1,457	40.1%	1,236	-15.2%	1,264	2.3%	1,302	3.0%

<sup>1</sup> Lottery Aid funds include transfers made from the fantasy sports education account and the cannabis education account.

Spending on School Aid from dedicated revenue sources is capped by appropriation authority as determined at the Enacted Budget. Therefore, spending shown in the table above does not necessarily equate to annual revenue collections and projections. Gaming details can be found in the Accompanying Notes Section (Note 9).

## Other Education Funding

The State provides funding and support for various other education-related programs. These include special education services; programs administered by the Office of Prekindergarten through Grade 12 Education; cultural education; higher and professional education programs; and adult career and continuing education services.

OTHER EDUCATION FUNDING (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change
<b>TOTAL STATE OPERATING FUNDS</b>	<b>2,876</b>	<b>3,069</b>	<b>6.7%</b>	<b>3,181</b>	<b>3.6%</b>	<b>3,342</b>	<b>5.1%</b>	<b>3,493</b>	<b>4.5%</b>
Special Education	1,609	1,600	-0.6%	1,696	6.0%	1,796	5.9%	1,898	5.7%
All Other Education	1,267	1,469	15.9%	1,485	1.1%	1,546	4.1%	1,595	3.2%

The State helps fund special education services for approximately 500,000 students with disabilities, from ages 3 to 21. Major programs under the Office of Prekindergarten through Grade 12 Education address specialized student needs or reimburse school districts for education-related services, including assisted meal programs, after-school programs, and other educational grant programs. Cultural education includes aid for operating expenses of the major cultural institutions, State Archives, State Library, and State Museum, as well as support for the Office of Educational Television and Public Broadcasting. Higher and professional education programs monitor the quality and availability of post-secondary education programs, and license and regulate over 50 professions. Adult career and continuing education services focus on the education and employment needs of the State's adult citizens, ensuring that such individuals have access to a one-stop source for all their employment needs, and are made aware of the full range of services available in other agencies.

Special Education costs in FY 2026 are currently projected to decline slightly from the prior fiscal year, due to increased claims in FY 2025 as a result of recent reforms that have accelerated the issuance of tuition rates with the cost of living adjustment growth and reduced overpayment recoveries, as well as increased enrollment. These costs are paid in the first instance by school districts and counties and partially reimbursed by the State starting in the following year. Outyear spending increases are attributable to projected enrollment and cost growth.

Spending for All Other Education Programs in FY 2026 is projected to increase by 15.9 percent. This increase is driven largely by the adoption of a universal free school meals program under which all school districts, charter schools, and nonpublic schools that participate in the national school lunch and breakfast program will be required to provide free meals to all students regardless of their families' income, with the State paying the student's share of costs for all meals served to students not already receiving free meals. The projected increase in spending is also partly attributable to reimbursement to nonpublic schools for State-mandated activities; reimbursement to nonpublic schools for Science, Technology, Engineering, and Math instruction; reimbursement of school districts' supplemental charter school tuition payments; and payments to the City of New York for charter school facilities aid. Outyear spending growth is largely attributable to increased reimbursement for school meals, nonpublic schools, and charter schools.

## STAR Program

The STAR program provides school tax relief to taxpayers by exempting the first \$30,000 of every eligible homeowner's property value from the local school tax levy. Senior citizens with incomes below \$107,300 will receive an \$86,100 exemption in FY 2026.

Spending on STAR property tax exemptions reflects reimbursements made to school districts to offset the reduction in the amount of property tax revenue collected from homeowners. Since FY 2017, the STAR exemption program has been gradually transitioning from a spending program to an advance refundable PIT credit program. As a result, first-time homebuyers and homeowners who move receive a refundable PIT credit instead of a property tax exemption. This transition did not change the value of the STAR benefit received by homeowners.

The STAR program also includes a credit for income-eligible taxpayers who are residents of the City of New York. The City of New York PIT rate reduction was converted into a State PIT tax credit starting with tax year 2017 and, as of FY 2019, is no longer a component of State Operating Funds spending. This change has no impact on the value of the STAR benefit received by taxpayers.

SCHOOL TAX RELIEF (STAR) (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change

Personal Income Tax Credit	(734)	(748)	-1.9%	(760)	-1.6%	(783)	-3.0%	(803)	-2.6%

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

All homeowners with incomes above \$250,000 were transitioned from the basic exemption benefit program to the advance credit program in FY 2020. Additionally, a zero percent growth cap on the STAR exemption benefit remains in effect. The decline in reported disbursements on STAR exemptions in FY 2026 through FY 2029 can be attributed to these actions. By moving taxpayers to the credit program, the State can more efficiently administer the program while strengthening its ability to prevent abuse. The move from the basic exemption to the credit program does not reduce the value of the benefit received by homeowners.

The Enacted Budget included legislation that simplified the STAR income and age eligibility rules to make it easier for taxpayers to qualify for and receive benefits. Notably, the age eligibility is updated so that: only one resident owner needs to be 65 or older to qualify for the Enhanced STAR benefit (instead of the current requirement that all owners be 65 or older unless the owners are married or are siblings); only the income of primary owners will be used to determine eligibility; and taxpayers who do not file annual tax returns can retain eligibility using prior returns.

## Higher Education

Assistance and grants spending for higher education includes funding for CUNY, SUNY, and the Higher Education Services Corporation (HESC).

HIGHER EDUCATION (millions of dollars)

Other/Cornell	91	124	36.3%	109	-12.1%	103	-5.5%	103	0.0%

As of Fall 2024 enrollment data, SUNY and CUNY operate 47 four-year colleges and graduate schools with a total enrollment of roughly 372,000 full- and part-time students. SUNY and CUNY also operate 37 community colleges, serving approximately 242,000 students.

State funds support a significant portion of SUNY and CUNY operations. In addition to the spending reflected in the above table, the State provides nearly \$2.0 billion in annual support for the fringe benefit costs of all employees at SUNY State-operated campuses and approximately \$1.5 billion for SUNY four-year campus operations via an annual General Fund transfer, and an estimated \$947 million for debt service payments on bond-financed capital projects at SUNY and CUNY in FY 2026. Additionally, an estimated \$330 million in student financial aid support will continue to be transferred from HESC to SUNY in FY 2026. This is the result of an accounting change first implemented in FY 2020 to reflect certain financial aid payments made from HESC to SUNY as transfers instead of disbursements.

HESC is New York State's student financial aid agency. HESC oversees State-funded financial aid programs, including the Excelsior Scholarship, TAP, and various other scholarship and loan forgiveness programs. Together, these programs provide financial aid to approximately 300,000 students. HESC also partners with OSC in administering the College Choice Tuition Savings program.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

Higher education assistance and grants spending is projected to increase by \$318 million, or 9.7 percent, from FY 2025 to FY 2026. This spending includes an increase in General Fund operating assistance to CUNY senior colleges for campus operating support, increased fringe benefits, investments in artificial intelligence, and programs to support academic and career advisement, tuition grants, textbooks, and transportation costs. In addition, increased spending at SUNY and CUNY community colleges is driven by additional operating aid and legislation included in the Enacted Budget to provide for the remaining cost of tuition, fees, books, and supplies for students aged 25 to 55 who pursue associate's degrees in high-demand fields. Student financial aid spending is expected to increase due to the expansion of Veteran's Tuition Awards to include non-combat veterans.

### Health Care

DOH works with local health departments and social services departments, including the City of New York, to coordinate and administer statewide health insurance programs and activities, including operating the Medicaid program. The combined benefit of the State's health insurance programs is to provide health care coverage to over 9 million low-income individuals and long-term care services for the elderly and disabled. Most government-financed health care programs are included under DOH; however, several programs are also supported through multi-agency efforts. In addition to Medicaid and statewide public health programs, assistance and grants spending for health care includes a variety of mental hygiene programs.

DOH also engages in federally supported initiatives, including Medicaid redesign and public health response efforts. For more information on the Medicaid Waivers and Federal COVID-19 response efforts please see "Other Matters Affecting the Financial Plan" and "Federal Aid" herein.

#### Medicaid

Medicaid is a means-tested program that finances health care services for low-income individuals and long-term care services for the elderly and disabled, primarily through monthly premium payments to managed care plans that enroll Medicaid eligible individuals and direct payments to health care providers for services rendered to Medicaid enrollees. According to the most recent CMS Data, New York is the second largest program in terms of spending, behind California, which spends roughly 37 percent more in gross expenditures and covers more than 13 million people. Medicaid services include inpatient hospital care, outpatient hospital services, clinics, nursing homes, managed care, prescription drugs, home care, and services provided in a variety of community-based settings (including personal care, mental health, substance use disorder treatment, developmental disabilities services, school-based services, and foster care services).

The Medicaid program is financed by the Federal government, the State, and counties, including the City of New York. DOB estimates that spending from all sources, including spending by local governments that is not part of the State's All Funds activity, will total over \$126 billion in FY 2026. The following table shows the estimated disbursements and share of costs by level of government.

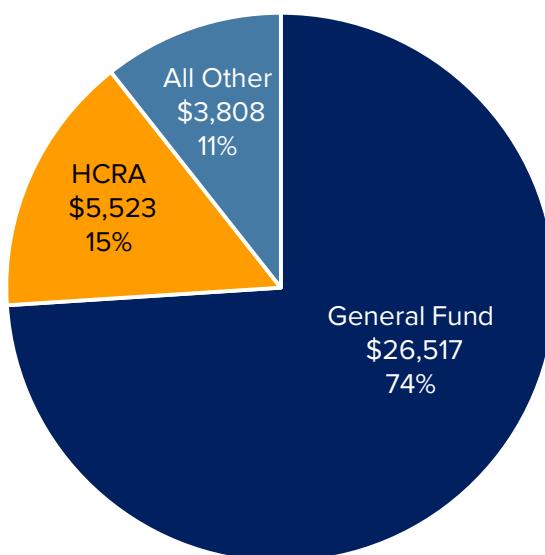

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

The DOH Medicaid State-share of spending is financed by a combination of the General Fund, HCRA resources, indigent care support, provider assessment revenue, and tobacco settlement proceeds. In any year, Medicaid costs financed by the General Fund may be affected by several factors, including the statutory Medicaid Global Cap that limits annual growth for a subset of State-share Medicaid spending, financial resources available in HCRA and, to a lesser extent, other State Special Revenue Funds, and temporary changes to the Federal share of Medicaid (e.g., eFMAP). The following tables summarize the expected financing shares for DOH Medicaid over the multi-year plan.

**State-Share Medicaid Financing Sources  
FY 2026  
(millions of dollars)**

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Enrollment and Cost Drivers

Medicaid eligibility and enrollment fluctuate with economic cycles and unemployment levels. Most recently the COVID-19 pandemic caused significant jumps in enrollment and participation in public health insurance programs such as Medicaid, EP, and CHP. Despite eligibility redeterminations performed in 2024, the State continues to retain a greater proportion of COVID-19 era enrollees with over 9 million public health insurance enrollees driving higher Medicaid costs over the multi-year Financial Plan relative to pre-pandemic levels of enrollment.

Total Medicaid costs are expected to grow annually, due in large part to an increase in high utilization and aging populations, a recent expansion of benefits, and increases to reimbursement rates. Other factors that continue to place upward pressure on State-share Medicaid costs include but are not limited to: provider reimbursements to cover minimum wage increases; the phase-out of enhanced Federal funding; increased costs and enrollment growth in MLTC services for seniors and dual eligibles; and payments to financially distressed hospitals.

The following table summarizes State-share Medicaid spending by agency and the interplay of the Mental Hygiene Stabilization Fund (MHSF)/Local Share Adjustment (LSA) accounting mechanism between DOH and OPWDD.

TOTAL STATE-SHARE MEDICAID DISBURSEMENTS (millions of dollars)					
	FY 2025 Actuals	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected

<sup>1</sup> Includes a portion of the benefit of enhanced Federal share (eFMAP), which expired in December 2023. Final reconciliations concluded with an additional \$36 million in Federal resources received in FY 2025.

<sup>2</sup> Excludes a portion of spending reported under the DOH Medicaid Global Cap that has no impact on mental hygiene service delivery or operations.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Global Cap

The Medicaid Global Cap is a statutory spending limit that applies to a subset of State-share funded Medicaid spending. Since the implementation of the Medicaid Global Cap through FY 2022, the subset of Medicaid spending to which it applied was limited to no greater than the ten-year rolling average of medical price inflation. The FY 2023 Enacted Budget implemented a new Global Cap index based on the five-year rolling average of CMS annual projections of health care spending to better account for enrollment changes, including specific populations, such as the aging and disabled populations, which are significant drivers of costs.

Beginning in FY 2026, the Financial Plan adjusted costs reported under the Medicaid Global Cap to exclude OSA local Medicaid expenses. These costs that were previously reported in the DOH budget are now reported in the respective agencies. As county contributions have been capped since 2015, the State continues to pick up each additional dollar every year in Medicaid expenses that would otherwise be paid for by localities (\$8.3 billion in FY 2026). This effectively made the State liable for all growth in non-Federal Medicaid expenses as the local contribution is fixed. An estimated \$2 billion of local share spending is related to OSA services and programs that are not managed by DOH. The reclassification of this spending was Financial Plan cost neutral and more appropriately aligned program activities and costs to agencies responsible for managing such spending.

MEDICAID GLOBAL CAP INDEX (millions of dollars)						
	FY 2025 Actuals	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected	Five-Year Total

Annual % Change	12.2%	13.3%	13.6%	5.0%	4.5%

<sup>1</sup> Medicaid spending is projected to stay within the allowable Global Cap in FY 2026. Gap-closing savings will be necessary in FY 2027 through FY 2029 to ensure Medicaid spending in future years adheres to the Global Cap allowance.

<sup>2</sup> Medicaid State Operating Funds spending, exclusive of Other State Agencies (OSA) costs and expenditures from the MCO Healthcare Stability Fund.

<sup>3</sup> Revenues to the Healthcare Stability Fund (HSF) will be reinvested into the healthcare delivery system as well as provide Global Cap relief. Beginning in FY 2026, expenditures from the HSF are excluded from the Medicaid Global Cap allowance.

### Minimum Wage and Home Care Wages

Medicaid spending includes the cost of increases in the minimum wage for employees in the health care sector. These costs are not subject to the Global Cap.

The minimum wage increases in the health care sector are projected to cost the State \$2.4 billion in FY 2026. Home health care workers in the City of New York and certain counties receive supplemental benefits in addition to their base wage. These benefits include paid leave, differential wages, premiums for certain shifts, education, and fringe benefits. The required supplemental benefits typically can be satisfied by increasing the base cash wage for home health care workers by a corresponding amount. As a result, wages for home health care workers in these regions exceed minimum wage levels by \$2.54 for the City of New York and \$1.67 for Westchester, Nassau, and Suffolk counties. However, State statute exempts the supplemental wages portion of total compensation from the minimum wage calculation to ensure home health care workers in these counties receive incremental growth in wage compensation commensurate with the new minimum wage schedule.

The State authorized wage increases for home health and personal care workers of \$1.55 for downstate and \$1.35 for rest of state, effective January 1, 2024, with additional Statewide wage increases of \$0.55 effective January 1, 2025, and an additional \$0.55 to come January 1, 2026. Costs for these increases are projected to be over \$1.3 billion in FY 2026. These increases were partially funded by HCBS eFMAP in FY 2025 but have reverted to General Fund support beginning in FY 2026.

The State also automatically increased the State's minimum wage to keep pace with inflation going forward. After reaching \$15 per hour, each region's minimum wage will increase consistent with the year-over-year CPI for Urban Wage Earners and Clerical Workers for the Northeast Region. The State cost is \$512 million in FY 2026 and is projected to grow to over \$1.5 billion in FY 2029.

### State Takeover of County/NYC Medicaid Cap/Growth

The local Medicaid Cap was designed to relieve pressure on county property taxes and the City of New York budget by capping local costs and having the State absorb all local program growth above a fixed statutory inflation rate. Beginning in January 2006, counties' Medicaid cost contributions were capped based on 2005 expenditures and indexed to a growth rate of 3.5 percent in 2006, 3.25 percent in 2007, and 3 percent per year thereafter. In FY 2013, the State committed to phasing out all growth in the local share of Medicaid costs over a three-year period.

The State takeover, which capped local districts' Medicaid costs at calendar year 2015 levels, is projected to save local districts a total of \$8.3 billion in FY 2026 -- roughly \$3.7 billion for counties outside the City of New York and \$4.6 billion for the City of New York. The following table provides the multi-year savings to local districts.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

LOCAL GOVERNMENT SAVINGS					
STATE TAKEOVER OF LOCAL MEDICAID COSTS (2005 CAP AND GROWTH TAKEOVER)					
FY 2025 to FY 2029					
Region	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029
Rest of State	3,361,031	3,705,333	4,021,266	4,318,164	4,772,414
City of New York	4,038,984	4,616,246	5,145,942	5,643,726	6,405,329
Statewide	7,400,015	8,321,579	9,167,208	9,961,890	11,177,743

A portion of the State takeover costs are funded by ongoing payments from tobacco manufacturers under the Master Settlement Agreement (MSA) consistent with consumption and inflation adjustments authorized in the agreement. New York State law directs these payments be used to help defray the costs of the State's takeover of Medicaid expenses for counties and the City of New York. The MSA payments are deposited directly to the Medicaid Payment Escrow Fund to offset the non-Federal share of annual Medicaid growth, formerly borne by local governments, which the State now pays on behalf of local governments. The deposit mechanism has no impact on overall Medicaid spending funded with State resources but reduces reported State-supported Medicaid spending accounted for in State Operating Funds.

### HSF

Health care costs in New York rose sharply in the aftermath of the COVID-19 pandemic and continue to increase at unsustainable rates, creating pressure on the government funded Medicaid program and safety-net providers. To expand resources to fund these growing costs, the State pursued Federal approval of an assessment on MCO like those imposed by many other states including New Jersey, Louisiana, Michigan, Illinois, and California. Effective January 1, 2025, CMS granted approval for a Per Member Per Month assessment on Medicaid and Non-Medicaid insurers based on the number of member months the plan carries. The State began collecting MCO taxes in July 2025.

Pursuant to the FY 2025 Enacted Budget, the HSF will receive and distribute MCO resources, estimated to total \$3.7 billion over two years. In FY 2026, the Financial Plan assumes the use of the funds over three years to fund \$1 billion in existing commitments supported by the Global Cap and the remaining \$2.7 billion will support new health care delivery investments, which are exempt from the Medicaid Global Cap. These investments and funding are dependent on continued Federal support and thus the Financial Plan does not include any funding for these investments beyond FY 2027.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

Due to Federal regulatory changes and provisions included in H.R. 1, the State's ability to continue the assessment and the investments contained in the Financial Plan remain at risk. In early May, CMS released a draft rule which alters how MCO assessments like New York's are determined as compliant with Federal regulations. Similarly, H.R. 1 mirrors this regulation by adding new conditions for determining what assessments are eligible for certain waivers from CMS. Implementation of the draft rule or the requirement contained in H.R. 1 is anticipated to disallow New York's assessment despite having obtained approval from CMS in full compliance with state and Federal laws and regulations. Absent a transition period, if approval for New York's assessment is revoked, future collections would cease. Available funds would be used first to satisfy existing Global Cap commitments, and decisions on uses any remaining funds would be required based on available resources.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Health Care Transformation Fund (HCTF)

The HCTF was created in 2018 to account for receipts associated with health care asset sales and conversions. Resources in the HCTF are transferred to any other fund of the State, as directed by the Director of the Budget, to support health care delivery, including for capital investment, debt retirement or restructuring, housing and other social determinants of health, or transitional operating support to health care providers. The HCTF may be used as a repository for future proceeds related to asset sales and conversions, subject to regulatory approvals.

The table below summarizes the actual and projected receipts from several prior health care provider conversions and acquisitions and the support for health care transformation activities, including subsidies for housing rental assistance and support for home care delivery.

## Public Health/Aging Programs

The State administers more than 150 separate programs to promote public health and wellbeing and provide access to quality health services for New Yorkers. CHP, the single largest program in this category, provides health insurance coverage for children of low-income families up to the age of 19. The General Public Health Work (GPHW) program reimburses local health departments for the cost of providing certain public health services. The Elderly Pharmaceutical Insurance Coverage (EPIC) program provides prescription drug insurance to seniors. The Early Intervention (EI) program pays for services provided to infants and toddlers with disabilities or developmental delays who are under the age of three. Many public health programs, such as the EI and GPHW programs, are run by county health departments that are reimbursed by the State for a share of the program costs. State spending projections do not include the county share of these programs. In addition, a significant portion of HCRA spending is included under the Public Health budget.

The State Office for the Aging (SOFA) promotes and administers programs and services for New Yorkers 60 years of age and older. SOFA primarily oversees community-based services (including in-home services and nutrition assistance) provided through a network of county Area Agencies on Aging and local providers.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

Public Health spending is projected to increase by 12 percent in FY 2026 and grow by less than 2 percent annually over the remaining years of the Financial Plan period. The growth in FY 2026 reflects one time increases for MIF and Healthcare Facility Restructuring Program Pool. The leveling off spending growth in the outyears primarily reflects anticipated declines in CHP enrollment, partially offset by increased State spending on reproductive health and abortion access, and higher reimbursement rates under the EI program.

Over the multi-year period, the Financial Plan supports programs to address the needs of individuals living in underserved communities by ensuring surplus agricultural products are rerouted through the State's network of food banks; monitoring and providing support for unforeseen public health emergencies; reducing infant, child, and maternal mortality; improving maternal mental health; and maintaining on-going workforce investments to safeguard access to health care.

The Financial Plan supports SOFA programs to address locally identified capacity needs, including retention of the elderly in their communities; support for family and friends in their caregiving roles; establishment of quality reporting and accreditation for assisted living residences; and implementation of quality improvement initiatives in nursing homes to promote transparency.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### HCRA Financial Plan

HCRA was established in 1996 to help fund a portion of State health care activities and is currently authorized through FY 2026. HCRA resources include surcharges and assessments on hospital revenues, a “covered lives” assessment paid by insurance carriers, and a portion of cigarette tax revenues. These resources are used to fund roughly 15 percent of State-share Medicaid costs, and other programs and health care industry investments, including: CHP; EPIC; Physician Excess Medical Malpractice Insurance; Indigent Care payments to hospitals serving a disproportionate share of individuals without health insurance; Worker Recruitment and Retention; Doctors Across New York; Nurses Across New York; and the Statewide Health Information Network for New York (SHIN-NY)/All-Payer Claims Database (APCD).

<sup>1</sup> HCRA Financial Plan includes resources from local county contributions in support of State funded payments to distressed health care providers through the Medicaid program.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

Total HCRA receipts are anticipated to grow at a steady rate over the course of the multi-year plan while cigarette tax revenues will moderately decline, concurrent with the anticipated decline in taxable cigarette consumption. These declines are offset by \$150 million in annual revenues set aside to support distressed providers through Medicaid program payments.

HCRA spending over the same plan period reflects approximately \$5 billion in continued support for Medicaid spending, including the \$150 million set aside for distressed providers and approximately \$1.5 billion for the CHP program. Additionally, the FY 2026 Enacted Budget included \$211 million in funding to maintain MIF solvency and allow the program to remain open to new enrollees through FY 2026. However, due to increased enrollment, escalating average medical costs per enrollee, and legislatively mandated average commercial reimbursement requirements, which are in place until June 1, 2026, the MIF is expected to reach the threshold for closure to new enrollees sometime in FY 2027. If closed to new enrollees, those who would have been considered qualified plaintiffs and automatically enrolled in the MIF will instead be able to seek legal recourse against hospitals and physicians for medical costs.

HCRA is expected to remain in balance over the Financial Plan period. Under the current HCRA appropriation structure, spending reductions will occur if resources are insufficient to maintain a balanced fund. Any such spending reductions could affect General Fund Medicaid funding or HCRA programs. Conversely, any unanticipated balances or excess resources in HCRA are expected to fund Medicaid costs that would have otherwise been paid from the General Fund.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Mental Hygiene

The Mental Hygiene agencies consist of OPWDD, OMH, Office of Addiction Services and Supports (OASAS), the Council on Developmental Disabilities, and the Justice Center for the Protection of People with Special Needs (Justice Center). OPWDD, OMH, and OASAS provide services directly to their clients through State-operated facilities and indirectly through community-based providers. Services are provided for adults with mental illness, children with emotional disturbance, individuals with intellectual and developmental disabilities and their families, people with substance use disorder, and individuals with problem gambling. The service costs are reimbursed by Medicaid, Medicare, third-party insurance, and State funding.

<sup>1</sup> The Financial Plan reinvests recoveries from Managed Care companies attributable to their underspending against Medical Loss Ratio (MLR) by Health and Recovery Plans and Behavioral Health Expenditure Targets (BHET) by Mainstream MCOs. Predetermined thresholds attribute a percentage of premium spending that must be spent on care for enrollees with any underspending being recovered from insurers.

<sup>2</sup> Pursuant to Section 99-nn of the State Finance Law, the Opioid Settlement Fund consists of funds received by the State as the result of a settlement or judgment against opioid manufacturers, distributors, dispensers, consultants or resellers and will be used to supplement funding for substance use disorder prevention, treatment, recovery, and harm reduction services or programs consistent with statewide opioid settlement agreements.

<sup>3</sup> The Opioid Stewardship Fund consists of funds received by the State through collection of Opioid Stewardship taxes and will be used to supplement funding for substance use disorder prevention, treatment, recovery, and harm reduction services or programs.

<sup>4</sup> Beginning in FY 2026, the Medicaid Global Cap was revised to exclude other state agency (OSA) local Medicaid expenses. These costs are Enacted Budget values, previously reported in the DOH budget, and are now reported in the respective agencies. The reclassification of this spending was cost neutral and more appropriately aligns program activities and costs to agencies responsible for managing such spending.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

The Financial Plan includes continued support for individuals with developmental disabilities to ensure appropriate access to care, including funding to expand independent living opportunities, provide choice in service options, and support increased utilization levels.

Funding continues support for OMH community services and the transition of individuals from inpatient to community settings. The Financial Plan includes funding to support the launch of an Aging in Place pilot program to enhance residential services for people with mental illness who need additional assistance to continue living independently as they age, the creation of new Intensive and Sustained Engagement Teams and Hospital-Based Peer Bridger services and expanding the teen Mental Health First Aid program.

Funding for OASAS programs will continue support to not-for-profit providers for addiction prevention, treatment, harm reduction, and recovery programs. Additional investments include expanding access to opioid treatment medications in underserved areas. Similarly, the multi-year Financial Plan includes approximately \$400 million in resources from the Opioid Stewardship Tax and litigation settlements with pharmaceutical manufacturers and distributors that will be targeted at the overdose epidemic through investments in substance use disorder programs.

The Financial Plan also continues funding for provider reimbursements associated with scheduled increases to the minimum wage index and to establish and operate 3,500 new residential units for New Yorkers with mental illness; significantly expand outpatient mental health services; enhance mental health services in schools; and increase funding for Safe Options Support (SOS) teams and specialized programs for children. The FY 2026 Enacted Budget also provided a 2.6 percent targeted inflationary increase for eligible programs run by voluntary operated providers.

Since the beginning of FY 2026, costs reported under the DOH Medicaid budget exclude OSA local Medicaid expenses which had been included under the Global Cap. These costs, previously reported in the DOH budget, are now reported in the respective agencies, including OPWDD and OMH. The reclassification of this spending is cost neutral to the overall Financial Plan and more appropriately aligns program activities and costs to agencies responsible for managing such services. The level of Mental Hygiene spending reported under the DOH Medicaid Global Cap and/or the OPWDD related local share expenses funded with additional financial plan resources have no impact on mental hygiene service delivery or operations and may fluctuate depending on the availability of resources and other cost pressures within the Medicaid program.

## Social Services

### OTDA

OTDA assistance and grants programs provide cash benefits and supportive services to low-income families. The State's three main programs are Family Assistance, Safety Net Assistance, and SSI. The Family Assistance program, financed by the Federal government, provides time-limited cash assistance to eligible families. The Safety Net Assistance program, financed by the State and local districts, provides cash assistance to single adults, childless couples, and families that have exhausted their five-year limit on Family Assistance imposed by Federal law. The State SSI supplementation program provides a supplement to the Federal SSI benefit for the elderly, the visually handicapped, and disabled persons.

TEMPORARY AND DISABILITY ASSISTANCE (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change
<b>TOTAL STATE OPERATING FUNDS</b>	<b>2,532</b>	<b>3,197</b>	<b>26.3%</b>	<b>2,111</b>	<b>-34.0%</b>	<b>2,051</b>	<b>-2.8%</b>	<b>2,150</b>	<b>4.8%</b>
SSI	532	530	-0.4%	530	0.0%	530	0.0%	530	0.0%
Public Assistance Benefits	726	807	11.2%	824	2.1%	841	2.1%	858	2.0%
Public Assistance Initiatives	15	72	380.0%	10	-86.1%	10	0.0%	10	0.0%
Homeless Housing and Services	280	245	-12.5%	465	89.8%	544	17.0%	625	14.9%
Rental Assistance	203	184	-9.4%	115	-37.5%	115	0.0%	115	0.0%
Asylum Seeker Assistance	763	1,343	76.0%	156	-88.4%	0	-100.0%	0	0.0%
All Other	13	16	23.1%	11	-31.3%	11	0.0%	12	9.1%

DOB's caseload models project a total of 713,509 public assistance recipients in FY 2026. Approximately 208,640 families are expected to receive benefits through the Family Assistance program and 142,955 through the Safety Net Assistance program in FY 2026, an increase in both programs from FY 2025. The caseload for single adults and childless couples supported through the Safety Net Assistance program is projected to be 361,914 in FY 2026, an increase of 10 percent from FY 2025.

FY 2026 growth in Public Assistance Initiatives is attributed to expanding Welcome Centers in the City of New York to combat homelessness, and one-time rental arrears payments. Growth in Public Assistance Benefits is attributable to increases in Safety Net Assistance spending driven by an increase in caseload, particularly in the City of New York, as well as the implementation of the Birth Allowance for Beginning Year program, which will provide an enhanced benefit to eligible families after the birth of a child. Asylum seeker assistance year-over-year spending increases are due to the estimated timing of claiming and disbursements for one-time funding provided to the City of New York.

Homeless Housing and Services reflects the continued transition from State settlement funds to the General Fund for the ESSHI. ESSHI funds supportive housing constructed for vulnerable homeless populations under the Governor's Affordable Housing and Homelessness Plan and reflects the full estimated costs that are shared by multiple agencies. Costs are expected to experience a timing-related decline in FY 2026 and recover beginning in FY 2027.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### OCFS

OCFS provides funding for foster care, adoption, child protective services, preventive services, delinquency prevention, and child care. It oversees the State's system of family support and child welfare services administered by local social services districts and community-based organizations. Specifically, child welfare services, financed jointly by the Federal government, the State, and local districts, are structured to encourage local governments to invest in preventive services for reducing out-of-home placement of children. Also financed by a combination of Federal, State, and local sources, the Child Care Block Grant supports child care subsidies for public assistance, as well as low and middle-income families.

CHILDREN AND FAMILY SERVICES (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change

All Other	186	241	29.6%	196	-18.7%	221	12.8%	224	1.4%

The Financial Plan continues State support for child care subsidies for eligible families up to 85 percent of the State income threshold and projects that funding for residential school placements of children with special needs will resume beginning in FY 2027. In addition, spending growth reflects the State's investment in youth programs through Get Offline Get Outside 2.0, additional funding for homeless youth, and a 2.6 percent targeted inflationary increase for eligible programs. OCFS's Medicaid budget increase reflects shifting program funding from DOH to OCFS.

## Transportation

DOT maintains approximately 44,475 State highway lane miles and 7,700 state highway bridges. DOT also partially funds regional and local transit systems, including the MTA; local government highway and bridge construction; and rail, airport, and port programs.

In FY 2026, the State plans to provide \$9.0 billion in operating aid to mass transit systems. The MTA, the nation's largest transit and commuter rail system, is scheduled to receive \$8 billion (approximately 90 percent) of the State's mass transit aid, including \$3.8 billion from the direct remittance of various dedicated taxes and fees that do not flow through the State's Financial Plan and are thus excluded from the table below.

AMTAP	181	198	9.4%	197	-0.5%	197	0.0%	197	0.0%
Innovative Mobility	0	8	100.0%	0	-100.0%	0	0.0%	0	0.0%
All Other	23	14	-39.1%	9	-35.7%	9	0.0%	9	0.0%

Increased projected spending in FY 2026 includes an additional \$138 million to the MTA, \$37 million for other downstate transit systems, \$16 million for upstate systems, and funding for an Orange County Transit Study. These increases are partially offset by lower operating support, commensurate with need, to the Gateway Development Commission and the Ogdensburg Bridge and Port Authority.

## Extraordinary State Funding for Asylum Seeker Assistance

The FY 2026 Budget does not include any new funding for asylum seeker assistance but maintains the extraordinary funding and support approved in prior years to assist the City of New York with the humanitarian crisis that has brought thousands of asylum seekers to the City of New York. To date, New York State has received little to no Federal funding assistance to manage thousands of asylum seekers, despite repeated requests.

State management and coordination of the funding and assistance spans multiple agencies. Reimbursement for short-term shelter services for migrant individuals and families and Safety Net Assistance for asylum seekers who are eligible is administered by the Office of Temporary and Disability Assistance (OTDA). Infectious disease testing and vaccination activities, and the provision of coverage to eligible individuals through the State's public health insurance programs is supported by the DOH. Other agencies of the State, including the Division of Homeland Security and Emergency Services (DHSES), the Department of State and the Office of General Services are assisting nonprofit organizations, providing reimbursement for shelter sites, and supporting case management and legal services.

The State is covering the cost of the Humanitarian Emergency Response and Relief Center at three sites, has made multiple State-owned sites available for use as shelters, and has committed a total of \$4.3 billion in extraordinary State Funding for asylum seeker assistance. The table below summarizes the extraordinary State Funding for asylum seeker assistance spent through FY 2025 and planned over the multi-year Financial Plan period.

	ASYLUM SEEKER ASSISTANCE STATE OPERATING FUNDS (in millions)					
	Actuals			Projected		
	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027	TOTAL
<b>Total State Funding</b>	<b>27</b>	<b>895</b>	<b>1,179</b>	<b>1,602</b>	<b>620</b>	<b>4,323</b>
Original NYC Support	0	500	500	0	0	1,000
Additional NYC Support	0	0	250	750	156	1,156
Additional Aid to the City of New York and Costs for Randall's Island, Creedmoor, and Floyd Bennett	0	19	22	581	0	622
National Guard Deployment	27	163	153	0	0	343
Medicaid/Vaccines/Disease Testing <sup>1</sup>	0	137	137	34	0	308
Safety Net Assistance <sup>1</sup>	0	26	67	67	67	227
Asylum Seeker Resettlement	0	8	16	34	5	63
Case Management/Legal Services/All Other	0	42	34	136	392	604

<sup>1</sup> Due to system limitations, actual incremental costs for Medicaid and Safety Net Assistance cannot be separately identified. As such, estimated costs are shown in the actuals column and are not continued in FY 2026 in Medicaid.

## State Operations

State operations spending consists of PS and NPS. PS includes salaries of State employees of the Executive, Legislative, and Judicial branches consistent with current negotiated collective bargaining agreements, as well as temporary/seasonal employees. NPS includes real estate rentals, utilities, contractual payments (e.g., consultants, IT, and professional business services), supplies and materials, equipment, and telephone service. Certain state operations costs of DOT and the Department of Motor Vehicles are included in Capital Projects Funds and are not reflected in State Operating Funds.

Over 90 percent of the State workforce is unionized. The largest unions include Public Employees Federation (PEF), which represents professional and technical personnel (attorneys, nurses, accountants, engineers, social workers, and institution teachers); Civil Service Employees Association (CSEA), which represents office support staff, administrative personnel, machine operators, skilled trade workers, and therapeutic and custodial care staff; United University Professionals (UUP), which represents faculty and nonteaching professional staff within the SUNY system; and New York State Correctional Officers and Police Benevolent Association (NYSCOPBA), which represents security personnel (correctional, safety and security officers).

The following table presents certain factors used in preparing the spending projections for state operations.

FORECAST OF SELECTED PROGRAM MEASURES AFFECTING PERSONAL SERVICE AND FRINGE BENEFITS					
	FY 2025 Actuals	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected
State Workforce <sup>1</sup>	112,952	124,695	TBD	TBD	TBD
ERS Contribution Rate <sup>2</sup>	15.9%	17.2%	18.3%	20.5%	23.5%
PFRS Contribution Rate <sup>2</sup>	31.9%	34.4%	36.6%	38.4%	40.9%
Employee/Retiree Health Insurance Growth Rates <sup>3</sup>	3.1%	8.7%	8.0%	8.0%	8.0%

<sup>1</sup> Reflects workforce that is subject to direct Executive control.

<sup>2</sup> ERS / PFRS contribution rate reflects the State's normal and administrative costs, contributions to the Group Life Insurance Plan (GLIP), Chapter 41 of 2016 veteran's pension credit legislation (if applicable), and any graded payments required under the Contribution Stabilization Program.

<sup>3</sup> Reflects normal costs, excluding deposits to the Retiree Health Benefit Trust Fund and the impact of Health Insurance prepayments.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

State operations spending levels are mainly impacted by workforce levels, employee compensation, and fluctuations in energy and commodity prices.

STATE OPERATING FUNDS - PERSONAL SERVICE/NON-PERSONAL SERVICE COSTS (millions of dollars)					
	FY 2025 Actuals	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

State operations spending for executive agencies is affected by the timing of Federal reimbursement of State incurred COVID-19 pandemic response and recovery efforts, contractual general salary increases, inflation, and new investments. Excluding general salary increases and inflation, agency spending changes include:

- **Department of Corrections and Community Supervision (DOCCS)** funding increases support the need to stabilize the correctional system because of the illegal strike, and significant investments to ensure the safety and security of correctional staff and incarcerated individuals, expansion of the body worn camera program, acceleration and continued installation of fixed cameras in all facilities, and expansion and restructure of the Office of Special Investigations.
- **OMH** spending increases support expansion of various mental health programs, including enhancing SOS teams to provide psychiatric and medical care to individuals experiencing street homelessness and those in temporary shelter settings; and enhanced staffing at forensic psychiatric centers to improve patient outcomes.
- **OPWDD** additional funding reflects the alignment of PS funding to support the Full-Time Equivalent (FTE) forecast and to expand Intensive Treatment Opportunity capacity to develop inpatient treatment settings for individuals that require intensive behavior supports in the Finger Lakes region.
- **DOH** spending growth is reflective of H.R. 1 impacts associated with the elimination of Federal funding for the State's 1332 EP Waiver and the Federal government requirement for states to establish Medicaid community engagement requirements for certain non-exempted populations that will be required to document at least 80 hours per month of work, education, and/or community service to be eligible for Medicaid benefits.

In addition to H.R. 1, the Enacted Budget included funding for staffing and contractual services requirements for programs created and strengthened by legislative bills, including the opioid antagonist distribution program which will begin providing fentanyl test strips and informational packets to individuals receiving opioid antagonists. Funding has also been provided for conducting a study of the delivery of services to individuals with Traumatic Brain Injuries (TBIs). These and other investments will ensure that the programs are well-equipped to achieve their objectives to improve public health across the State.

- **State Police** funding is increased to support the deployment of additional State Police and counterterrorism investigators to strengthen criminal border enforcement efforts and the payment of retroactive costs for the labor agreement between the State of New York and the PBANYS in FY 2026.
- **ITS** spending growth reflects continued investments in resources dedicated to cybersecurity and the IT workforce as well as system modernization and demographic data collection efforts.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

- **OCFS** spending in FY 2026 and beyond reflects Statewide costs associated with implementing and supporting Raise the Age reforms, such as comprehensive diversion, probation, and programming services for 16- and 17-year-old youth in the juvenile justice system. Costs will be shifted to other agencies where costs are incurred in a later Financial Plan update.
- **All Other Executive Agencies** spending increases in FY 2026 are largely due to lower spending in FY 2025 as the Federal reimbursement of previously incurred State costs related to COVID-19 pandemic response and recovery expenses offset spending. In addition, costs related to the deployment of National Guard members assigned to correctional facilities to supplement existing staffing levels and the Joint Task Force Empire Shield Mission, expenses for public service announcements, and public service recruitment efforts, drive higher spending,
- **State University** spending growth reflects escalating staffing levels and additional operating support at four-year campuses and for SUNY Downstate Hospital.
- **Judiciary** growth supports non-judicial staffing initiatives including new court clerks and attorneys, costs associated with four court officer academy classes, and increased staffing levels to address case backlogs and provide operational support to various courts. Higher funding also supports new judgeships, including: ten additional City of New York Civil Court Judges and five additional Court of Claims judges; ten additional City of New York Family Court Support Magistrates, including non-judicial staff supporting these new judges; civil legal services; various technology initiatives; and expansion of various programs including Alternative Dispute Resolution and Alternatives to Incarceration.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Workforce

In FY 2026, over \$18 billion of the State Operating Funds budget is dedicated to supporting FTE employees under direct Executive control; individuals employed by SUNY and Independent Agencies; employees paid on a nonannual salaried basis; and overtime pay. Roughly 60 percent of the Executive agency workforce is in the mental hygiene agencies and DOCCS.

STATE OPERATING FUNDS FY 2026 FTEs <sup>1</sup> AND PERSONAL SERVICE SPENDING BY AGENCY (millions of dollars)		
	Dollars	FTEs
<b>SUBJECT TO DIRECT EXECUTIVE CONTROL</b>	<b>10,625</b>	<b>101,574</b>
Corrections and Community Supervision	2,581	23,600
Office for People with Developmental Disabilities	1,589	18,730
Office of Mental Health	1,587	15,153
State Police	955	6,436
Department of Health	383	4,502
Information Technology Services	398	4,108
Tax and Finance	276	3,832
Transportation	190	2,590

Children and Family Services	176	2,328
Office of Parks, Recreation and Historic Preservation	210	1,878
Education	121	1,483
Department of Financial Services	163	1,441
Office of Temporary and Disability Assistance	81	1,133
Workers' Compensation Board	96	1,112
All Other	1,568	10,760
<b>UNIVERSITY SYSTEMS</b>	<b>5,417</b>	<b>50,958</b>
State University	5,417	50,958
<b>INDEPENDENT AGENCIES</b>	<b>2,782</b>	<b>20,412</b>
Law	213	1,949
Audit & Control (OSC)	167	1,659
Judiciary	2,170	16,801
Legislature <sup>2</sup>	232	3
<b>Statewide Total</b>	<b>18,824</b>	<b>172,944</b>

<sup>1</sup> FTEs represent the number of annual-salaried full-time filled positions (e.g., one FTE may represent a single employee serving at 100 percent full-time, or a combination of employees serving at less than full-time that, when combined, equal a full-time position). The reported FTEs do not include nonannual salaried positions, such as those filled on an hourly, per-diem or seasonal basis.

<sup>2</sup> Legislative employees who are nonannual salaried are excluded from this table.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### GSCs

GSC spending includes employee-related expenses for fringe benefits the State provides to current and former employees, as well as certain statewide fixed costs. Fringe benefits include health insurance, pensions, workers' compensation coverage, UI, survivors' benefits, and dental and vision benefits (some of which are provided through union-specific Employee Benefit Funds). The GSC budget also pays the Social Security payroll tax, taxes on State-owned lands, Payments in Lieu of Taxes (PILOT), and judgments awarded in the Court of Claims. Many of these payments are mandated by law or collective bargaining agreements. Employee fringe benefits are paid centrally through the General Fund. Some agencies with dedicated revenue sources outside of the General Fund partially reimburse the General Fund via the agency fringe benefit assessments process.

GENERAL STATE CHARGES (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change

Litigation	210	169	-19.5%	172	1.8%	171	-0.6%	172	0.6%

GSC spending over the Financial Plan period is primarily driven by the increased costs of health care services, with NYSHIP projections correlating with continued growth rates in the hospital, medical and pharmaceutical industries, as well as the changes in the healthcare industry as a result of new technology and medicines, such as GLP-1 drugs, that drive up costs and healthcare utilization. Pension growth in the outyears reflects projected costs associated with conservative pension fund investment returns and the continued growth in the State workforce.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

Programmatically, the State has and continues to fund employee and retiree health care expenses as they become due, on a PAYGO basis. To help limit the State's liability exposure to post-employment health benefits of retired employees and their dependents, the State has made aggregate deposits to the RHBTF totaling \$1.74 billion through FY 2025. The Financial Plan assumes \$250 million in annual deposits will continue if fiscal conditions permit. Under current law, the State may deposit into the RHBTF, in any given fiscal year, up to 1.5 percent of the total then-current unfunded actuarial accrued OPEB liability.

Social Security reflects the continued growth in the State workforce and other salary increases. Workers' compensation growth reflects current utilization. Other fringe benefits and fixed costs reflect wage and property tax increases, as well as the forecasted spending trends.

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

### Debt Service

The State pays debt service on all outstanding State-supported bonds. These include General Obligation Bonds for which the State is constitutionally obligated to pay debt service, as well as certain bonds issued by State public authorities, such as Empire State Development, Dormitory Authority of the State of New York, and New York State Thruway Authority, for which debt service is subject to annual appropriation by the State Legislature. Depending on the credit structure, debt service is financed by transfers from the General Fund and dedicated taxes and fees.

DEBT SERVICE SPENDING PROJECTIONS (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change
General Fund	274	301	9.9%	323	7.3%	329	1.9%	565	71.7%
Other State Support	3,502	1,987	-43.3%	3,419	72.1%	5,177	51.4%	5,541	7.0%
<b>Total State Operating Funds</b>	<b>3,776</b>	<b>2,288</b>	<b>-39.4%</b>	<b>3,742</b>	<b>63.5%</b>	<b>5,506</b>	<b>47.1%</b>	<b>6,106</b>	<b>10.9%</b>

State Operating Funds debt service is projected to be \$2.3 billion in FY 2026, of which \$301 million is paid from the General Fund and \$2.0 billion is paid from other State funds supported by dedicated tax receipts. The General Fund finances debt service payments on General Obligation Bonds and service contract bonds, including expected service contract payments to the Gateway Development Commission relating to the Hudson Tunnel Project. Debt service for other State-supported bonds is paid directly from other dedicated State funds, subject to appropriation, including PIT and Sales Tax Revenue bonds.

Debt service spending levels are impacted by prepayments. The Financial Plan reflects prepayments that totaled \$2.8 billion in FY 2025 and a new prepayment of \$750 million in FY 2026. As shown in the table below, the net impact of these prepayments and prior year prepayments decreases debt service costs in FY 2026 through FY 2029.

STATE DEBT SERVICE (millions of dollars)						
	FY 2025 Actuals	FY 2026 Projected	FY 2027 Projected	FY 2028 Projected	FY 2029 Projected	FY 2030 Projected

FY 2026 Prepayment	0	750	(750)	0	0	0
<b>Mid-Year Update Debt Service</b>	<b>3,776</b>	<b>2,288</b>	<b>3,742</b>	<b>5,506</b>	<b>6,106</b>	<b>8,616</b>

## STATE FINANCIAL PLAN MULTI-YEAR PROJECTIONS

The FY 2026 Enacted Budget authorized liquidity financing in the form of up to \$3 billion of PIT notes as a tool to manage unanticipated financial disruptions. The Financial Plan does not assume any PIT note issuances. DOB evaluates cash results regularly and may adjust the use of notes based on liquidity needs, market considerations, and other factors.

The Financial Plan estimates for debt service spending reflect bond sale results, including refundings, projections of future refunding savings, and the adjustment of debt issuances to align with projected bond-financed capital spending. Debt service projections were reduced to reflect the contribution of \$13.6 billion of PAYGO capital resources that were added since FY 2023.

---

# **FEDERAL AID**

---

The Federal government influences the economy and budget of New York State through various policies, mainly Federal tax policy, cost sharing for many State run programs, and various grants, as well as direct spending on its own programs such as Medicare and Social Security. The State's income tax system interacts closely with the Federal system and changes to the Federal tax code have significant flow-through effects on State tax burdens and concomitantly on State tax receipts. Federal resources support vital services such as health care, education, and transportation, as well as severe weather and emergency response and recovery, and climate resiliency and clean energy programs. Federal policymakers may place conditions on grants, mandate certain state actions, preempt state laws, alter taxpayer behavior through tax policies, such as placing limits on SALT deductions, and influence industries through regulatory action. Any changes to Federal policy or funding levels could have a materially adverse impact on the Financial Plan.

Routine Federal aid supports programs for vulnerable populations, including disabled individuals and those living at or near the poverty level. Such programs include Medicaid, SNAP, Temporary Assistance for Needy Families (TANF), Elementary and Secondary Education Act Title I grants, and Individuals with Disabilities Education Act (IDEA) grants. Other Federal resources are directed at infrastructure and public safety.

<b>Total Disbursements</b>	<b>93,455</b>	<b>95,172</b>	<b>82,700</b>	<b>78,459</b>	<b>79,544</b>

<sup>1</sup> All Other includes housing and homeless services, economic development, mental hygiene, parks, environment, higher education, and general government areas.

<sup>2</sup> Pandemic Assistance excludes \$12.8 billion in State aid provided through the American Rescue Plan Act, as this funding is reflected as a receipt to Federal Funds and transfer to the General Fund.

Over the past few years, Federal Funds spending has included COVID-19 pandemic response and recovery assistance provided to state and local governments, schools, hospitals, transit systems, businesses, families and individuals. More recently, the Federal government has also passed significant legislation dealing with transportation infrastructure, climate and energy policy, and advanced manufacturing. The State continues to monitor these Federal investments for opportunities to meet its policy goals amid changing Federal government priorities.

- **Medicaid/Health.** Funding shared by the Federal government helps support health care costs for over nine million New Yorkers, including more than two and a half million children. Medicaid is the single largest category of Federal funding. The Federal government also provides support for several health programs administered by DOH, including the EP (discussed below).
- **Social Welfare.** Federal funding helps with several programs managed by OTDA, including TANF-funded public assistance benefits and the Flexible Fund for Family Services, HEAP, SNAP, and Child Support. Funding from the Federal government also supports programs managed by OCFS, including Child Care, Child Welfare Services, Adult Protective & Domestic Violence Services, Foster Care, and Adoption Subsidies.
- **Education.** Federal funding supports K-12 education, special education, and higher education. Like Medicaid and the social services programs, significant portions of Federal education funding are directed toward vulnerable New Yorkers, such as students in schools with high poverty levels, students with disabilities, and higher education students who qualify for programs such as Pell grants and Work-Study.
- **Public Protection.** Federal funding supports various programs and operations of the State Police, DOCCS, the Office of Victim Services, DHSES, and DMNA. Federal funds are also distributed by the State to municipalities to support a variety of public safety programs.
- **Transportation.** Federal resources support infrastructure investments in highway and transit systems throughout the State, including funding participation in ongoing transportation capital plans. The Infrastructure Investment and Jobs Act increased the amount of Federal resources available to the State to fund capital costs associated with transportation projects.
- **All Other.** Other programs supported by Federal resources include housing, economic development, mental hygiene, parks and environmental conservation, and general government uses.

## Pandemic Assistance

The Federal government enacted six major laws between March 2020 and March 2021 in response to the COVID-19 pandemic and issued major disaster declarations for all states. These one-time funds to aid states in their response to and recovery from COVID-19 continue to wind down.

New York State was awarded \$12.75 billion under the SLRF program included in the ARP, of which the State utilized the remaining \$3.65 billion program balance in FY 2025. A small number of programs are expected to continue in the current State Fiscal Year, specifically:

- **Education ARP Funds.** The ARP granted additional education funding for Elementary and Secondary School Emergency Relief Fund and Emergency Assistance for Nonpublic Schools programs, as well as funding for homeless education, IDEA, library services and the arts. The State expects to expend nearly \$144 million in FY 2026.
- **FEMA Local Pass-through Funding.** Funding from this program is assumed to flow through the Financial Plan to reimburse local entities for their Federal share of COVID-19 claims submitted to FEMA.
- **Coronavirus Capital Projects Fund.** The ARP created the Coronavirus Capital Projects Fund to provide funding to carry out critical capital projects that directly enable work, education, and health monitoring, including remote options, in response to the COVID-19 PHE. The State has been allocated \$345 million for the program.
- **State Small Business Credit Initiative.** This program provides funding to empower small businesses to access capital needed to invest in job creating opportunities.
- **Federal Highway Administration Surface Transportation Block Grant.** This emergency funding was provided under the Coronavirus Response and Relief Supplemental Appropriations Act to address COVID-19 impacts related to Highway Infrastructure Programs and is expected to continue to disburse through FY 2026.

## EP

The State established the EP, a health insurance program which receives Federal subsidies authorized through the ACA. The EP includes health insurance coverage for New York State residents who are lawfully present in the United States, including lawfully present immigrants not eligible for Medicaid, CHP, or employer-sponsored coverage. Individuals who meet the EP eligibility standards are enrolled through the New York State of Health (NYSOH) insurance exchange, with the cost of insurance premiums subsidized by the State and Federal governments.

The Exchange – NYSOH – serves as a centralized marketplace to shop for, compare, and enroll in a health plan. Over 1.7 million New Yorkers are currently enrolled in the EP; however, in H.R. 1, a provision was included that disqualifies the lawfully present immigrant population from receiving Federal funding for their EP benefits. When effective, this provision would result in over half of the program's funding being eliminated. These lawfully present immigrants may otherwise qualify for the Medicaid program, which would generate additional State costs. To alleviate new State costs and maintain coverage for as many individuals as possible, DOH is seeking to terminate its 1332 State Waiver and EP expansion and reactivate its (currently suspended) Basic Health Program (BHP), which is authorized under Section 1331 of the ACA. This transition is subject to CMS approval. If approved, this action would allow enrollees with incomes below 200 percent of the FPL to maintain the same level of health coverage as under the 1332 Waiver. This transition would be anticipated to take effect by July 2026.

ESSENTIAL PLAN (millions of dollars)									
	FY 2025 Actuals	FY 2026 Projected	Change	FY 2027 Projected	Change	FY 2028 Projected	Change	FY 2029 Projected	Change
<b>Disbursements</b>	<b>12,859</b>	<b>14,602</b>	<b>13.6%</b>	<b>3,766</b>	<b>-74.2%</b>	<b>425</b>	<b>-88.7%</b>	<b>425</b>	<b>0.0%</b>
Assistance and Grants	12,349	14,039	13.7%	3,195	-77.2%	0	-100.0%	0	0.0%
State Operations	510	563	10.4%	571	1.4%	425	-25.6%	425	0.0%

Federal EP spending over the Financial Plan period reflects H.R. 1 as executed. Projections do not assume the transition to the BHP under Section 1331 of the ACA that is pending CMS approval. Additional revisions to the Federal EP spending will be reflected in future updates reflecting the status of CMS approval.

Under the original EP, Federal funding was received in advance pursuant to a formula that calculated what EP enrollees would have received had they enrolled in a qualified health plan and deposited 95 percent of that value into the EP Trust Fund. These funds were earmarked exclusively for eligible expenses under the Section 1331 Waiver, which was limited to reducing premiums and cost sharing, as well as providing additional benefits for eligible EP enrollees. Due to restrictions on eligible expenses, advances had exceeded disbursements, resulting in a fund balance of \$8.8 billion as of March 31, 2025. With approval of the 1332 Waiver, effective April 1, 2024, this accumulated balance was suspended for the life of the Waiver, previously expected through December 31, 2029. Pending CMS approval, these funds will be utilized once the EP has transitioned back to the original BHP.

## FY 2026 YEAR-TO-DATE OPERATING RESULTS

Operating results for the first six months of FY 2026 (April 2025 through September 2025) are compared to: (1) the projections set forth in the FY 2026 Enacted Budget Financial Plan ("initial estimates") and (2) prior fiscal year results for the same period (April 2024 through September 2024).

### Summary of General Fund Operating Results

The General Fund ended September 2025 with a positive variance driven in large part to routine timing related spending variances, FEMA reimbursement of previously incurred COVID-19 costs, and higher receipts inclusive of \$525 million in PTET collections, which are Financial Plan neutral at year end via the reserve set aside to fund credits and refunds in subsequent years. DOB has revised the Financial Plan projections for receipts and spending across several program and functional areas considering the operating results through the first half of the FY 2026.

GENERAL FUND OPERATING RESULTS FY 2026 April to September (millions of dollars)				
	Initial Estimate	Actuals	Variance Above/ (Below) Initial Estimate

<b>Change in Operations</b>	<b>(3,387)</b>	<b>722</b>	<b>4,109</b>	<b>121.3%</b>
<b>CLOSING BALANCE</b>	<b>53,529</b>	<b>57,638</b>	<b>4,109</b>	<b>7.7%</b>

<sup>1</sup> Includes transfers from other funds after debt service.

## FY 2026 YEAR-TO-DATE OPERATING RESULTS

Receipts, including transfers from other funds and excluding PTET receipts, exceeded the initial estimate by \$1.7 billion (3.2 percent). Higher PIT collections were driven by stronger than anticipated withholding, current estimated payments and assessments, partially offset by lower business tax collections, primarily gross CFT and Insurance tax receipts.

PTET collections exceeded the initial estimate driven by higher than projected estimated payments, slightly offset by increased State-City distribution offsets.

Higher miscellaneous receipts are comprised of greater than projected earnings from investment income and refunds and reimbursements. Transfers from Other Funds include FEMA reimbursement of previously incurred COVID-19 costs.

Spending, including transfers to other funds, was \$1.9 billion (3.1 percent) below the initial estimate, primarily due to routine timing-related delays across all categories. The largest assistance and grants variances were observed in the following areas:

- Children and Family Services (\$655 million lower) reflects lower than projected State spending for Day Care and Foster Care Block grants, as Federal spending is prioritized.
- School Aid (\$606 million lower) driven by lower than anticipated spending for General Aid (\$491 million), Excess Cost Aid (\$83 million), and categorical programs (\$28 million).
- Temporary and Disability Assistance (\$425 million lower) reflecting the timing of payments for Asylum Seeker Assistance to the City of New York, the ERAP and the Empire State Supportive Housing Initiative (ESSHI).
- Medicaid (\$444 million higher) due to pending General Fund reconciliation of MCO assessment revenues in the HSF, delays in Federal approval of Indigent Care payments that offset general fund expenses, and the timing of Global Hospital Budget Initiative payments.
- All Other Education (\$374 million higher) driven by the timing of preschool and summer special education claims and payments.
- Mental Hygiene (\$256 million higher) mainly driven by the OMH Adult Residential and Non-Residential programs.

Agency operations spending, including fringe benefits, varied marginally in aggregate. Transfers to Other Funds were lower than projected due mainly to slower spending for capital transportation projects.

<b>CLOSING BALANCE</b>	<b>70,731</b>	<b>75,215</b>	<b>4,484</b>	<b>6.3%</b>

## FY 2026 YEAR-TO-DATE OPERATING RESULTS

Higher All Funds receipts were driven by Federal receipts and tax collections, partly offset by lower than planned miscellaneous receipts. The timing of Federal operating aid spending that is principally reimbursement-based drives Federal receipts variances and the tax variance is consistent with the General Fund variances described above. Lower than projected miscellaneous receipts were comprised of the timing of MCO collections into the HSF, partially offset by higher investment income and refunds and reimbursements.

All Funds disbursements were below the initial estimate mainly due to timing-related spending delays for assistance and grants, consistent with the variances described in the General Fund section above, as well delays in transportation and environmental construction projects. Higher Federal operating aid spending occurred in the following areas:

- Medicaid (including administration) (\$991 million lower) due to timing of claims disbursements that were processed to align with the disbursement of State claims, as well as earlier timing of Mainstream and MLTC withhold payments, and increased offsets for CHP claims resulting from higher than anticipated utilization.
- Homeland Security and Emergency Services (\$751 million higher) for FEMA funding that flows through the Financial Plan to reimburse local entities for COVID-19 expenses.
- Children and Family Services (\$519 million higher) for prioritizing the use of Federal funds for Child Care, Title XX Equity grants and Child Welfare programs.
- Public Health (\$415 million higher) related to the timing of Federal CHP payments and credits.
- The EP (\$353 million higher) due to program expansion and increased utilization.
- Temporary and Disability Assistance (\$348 million higher) related to Child Care, the Flexible Fund for Family Services and Public Assistance Benefit Payments.
- School Aid (\$385 million lower) due primarily to lower-than-expected spending on COVID-19 related grants and Elementary and Secondary Education Title Act grants.

## FY 2026 YEAR-TO-DATE OPERATING RESULTS

### All Governmental Funds Results Compared to Prior Year

<b>CAPITAL PROJECTS (State and Federal Funds)</b>	<b>7,103</b>	<b>8,195</b>	<b>1,092</b>	<b>15.4%</b>
<b>FEDERAL OPERATING AID</b>	<b>44,783</b>	<b>45,893</b>	<b>1,110</b>	<b>2.5%</b>
<b>NET OTHER FINANCING SOURCES</b>	(71)	(6,123)	(6,052)	-8523.9%
<b>CHANGE IN OPERATIONS</b>	<b>8,118</b>	<b>1,519</b>	<b>(6,599)</b>	<b>-81.3%</b>
<b>CLOSING BALANCE</b>	<b>74,031</b>	<b>75,215</b>	<b>1,184</b>	<b>1.6%</b>

Compared to FY 2025 results through September, receipts and disbursements were higher in FY 2026 by \$7.0 billion and \$7.5 billion, respectively.

Excluding PTET collections, tax receipts grew by \$4.6 billion (9.6 percent) reflective of anticipated growth across all tax categories, including substantial growth in PIT receipts experienced in the April 2025 settlement. Growth in Federal receipts typically mirrors the timing of Federal grant spending.

## FY 2026 YEAR-TO-DATE OPERATING RESULTS

State Operating Funds spending through September increased 8.7 percent compared to the prior year and is consistent with the estimated annual growth. This spending growth reflects planned funding increases for nearly all areas, particularly for Mental Hygiene, Medicaid, School Aid (inclusive of increased General Aid spending), and Higher Education. Medicaid growth is largely attributable to increased Managed Care claims and non-recurring credits for HCBS. Other notable growth includes planned increases in support for CUNY Senior Colleges, and Tuition Assistance Program awards.

Executive agency operations spending growth is also in line with expectations and largely driven by staffing shortages at prisons throughout the State due to the correctional officer strike, resulting in assignment of National Guard members to correctional facilities and the temporary enhanced overtime rate for correctional staff. In addition, retroactive salary payments to State Police for Fiscal Years 2024 and 2025 were made in July 2025.

University systems' operations growth is largely due to salary increases pursuant to existing labor contracts, continued hiring, and expanded spending on campus and hospital operations. Elected Officials spending growth is primarily attributable to the Judiciary.

Increased hiring, which includes the additional 3,000 DMNA members to address prison staffing shortages and overtime use drives the growth in employer payroll tax and other salary sensitive fringe benefits.

Spending for capital projects increased by \$1.1 billion through September largely driven by increased support for social welfare and health projects.

Increased Federal operating spending is largely due to enrollment growth in the EP associated with the 1332 Waiver, increased managed care other long-term care spending, and pharmacy benefits. In addition, FEMA reimbursements for costs incurred for COVID-19 pandemic response and recovery efforts passed through to local entities and spending for COVID-19 related education and Elementary and Secondary Education Title Act grants are declining from prior year levels.

---

# **FINANCIAL PLAN ACCOMPANYING NOTES**

---

The notes to the Financial Plan tables herein should be read in conjunction with the tables that follow.

### Note 1 — Basis of Accounting

Pursuant to law, all Financial Plan tables presented herein are prepared on the cash basis of accounting, unless otherwise noted. Under the cash basis of accounting, revenues are recognized when received, and spending is recorded when cash is disbursed.

### Note 2 — Fund Types and Perspectives

The State records its transactions in the following fund types:

#### Governmental Funds

**General Fund** - This is the major operating fund of the State. It receives all State income not earmarked for a particular program or activity and not specified by law to be deposited in another fund. State income for Financial Plan purposes consists of moneys (taxes, fees, and miscellaneous receipts, including certain repayments of State advances) deposited to the credit of the General Fund or transferred from other funds during the fiscal year.

**Special Revenue** - These funds account for State receipts from specific revenue sources and are legally restricted to disbursement for specified purposes. This governmental fund type is divided into two classifications: (1) State Special Revenue Funds; and (2) Federal Special Revenue Funds. An example of a State Special Revenue Fund is the Conservation Fund which finances several State environmental programs. An example of a Federal Special Revenue Fund is the Health and Human Services Fund which finances various social services programs, including Medicaid and public assistance. Although any earmarked revenue fund is treated as a Special Revenue Fund for cash-basis budgeting and reporting purposes, some are combined with the General Fund for purposes of reporting based on GAAP.

**Debt Service** - All tax-financed State debt service on long-term debt and payments on certain lease-purchase or other contractual obligations is paid from Debt Service Funds. These account for the accumulation of money for, and the payment of principal and interest on, general long-term debt. Lease-purchase payments for Health and facilities under contractual agreements with public authorities are also paid from funds classified as Debt Service Funds. Debt service on highway bonds supported by dedicated highway revenues is also reflected in this fund type. Sources of revenue for this fund type include transfers from the General Fund, dedicated taxes, and other revenues.

**Capital Projects** - These funds finance a variety of capital construction costs including: (a) planning, land acquisition, design, construction, construction management and supervision, and equipment costs; (b) highway, parkway, and rail preservation projects; (c) outdoor recreation and environmental conservation projects; (d) buildings and other capital facilities required by various State departments and agencies; (e) payments to local governments to help finance their capital programs, including highway, parkway, bridge, mass transportation, aviation, economic development, port development, community college, community and State mental health, outdoor recreation, State-assisted housing, and environmental quality; and (f) advances for capital construction costs reimbursable by public authorities, instrumentalities of the State, the Federal government or local governments. Sources of revenue for this fund type include transfers from other State funds, including the General Fund and Special Revenue Funds, dedicated taxes and other revenues, reimbursement of advances, bond proceeds, and Federal capital grants.

### State Operating Funds

The State Operating Funds budget is a broader measure of spending for operations (as distinct from capital purposes) that is funded with State resources and is comprised of the General Fund and other State-supported activities financed by dedicated revenues in State Special Revenue Funds, as well as Debt Service Funds that account for the payment of debt service on tax-financed State debt.

### Proprietary Funds

**Internal Service Funds** - Account for the financing of goods or services supplied by one State agency to another State agency or other governmental entities on a cost-reimbursement basis.

**Enterprise Funds** - Account for operations that are like private business enterprises.

The Internal Service funds and Enterprise funds are treated as Proprietary funds for cash-basis budgeting and reporting purposes and are combined with the General Fund for purposes of reporting on a GAAP basis.

### Fiduciary Funds

**Private-Purpose Trust Funds** - Account for all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

**Trust Fund** - Accounts for the cash-basis results of operations for the administrative portion of the State's CRF and to fund the future costs of the Retiree Health Insurance Benefit Fund. It does not reflect investment activity, balances, or other assets available to the CRF. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

**Agency Funds** - Account for funds held by the State in a purely custodial capacity. Cash is held temporarily until disbursements are made to individuals, private organizations, or other governments.

### Note 3 — Disbursement Descriptions

The State's Financial Plan and reporting include only those payments made pursuant to an appropriation and paid from funds available in the State Treasury. All State spending is classified in one of the following categories:

**Assistance and Grants** - Include payments to counties, cities, towns, villages, school districts and other local entities, as well as certain financial assistance to, or on behalf of, individuals and non-profit organizations. Certain disbursements from Capital Projects Funds, including payments to local government units and public authorities, are recorded as assistance and grants.

**PS (Personal Service)** - Includes the payment of salaries and compensation for State employees.

**NPS (Non-Personal Service)** - Includes payments for operational costs such as miscellaneous contractual obligations, supplies and materials, travel, rentals and repairs, utilities, postage and shipping, printing, and telephone service.

**GSCs (General State Charges)** - Includes costs mandated by statute, collective bargaining agreements, or court order. Charges in this category can be further subdivided into the following:

**Fringe Benefits.** Contributions to pension systems, the employer's share of Social Security, Medicare Payroll Tax and health insurance, workers' compensation and UI, and payments to union employee benefit funds which provide vision care and other benefits to certain union members.

**Fixed Costs.** For State PILOT programs, as well as payments for taxes/local assessments on State-owned land, judgments against the State pursuant to the Court of Claims Act, defenses by private counsel, or alternatively payments on behalf of State officers and employees in civil judicial proceedings.

**Debt Service** - Includes payments made for tax-financed State debt service on long-term debt, contractual-obligation, and lease-purchase arrangements with several public authorities and municipalities.

**Capital Projects** - Includes payments made for the acquisition or construction of the State's capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs; highway, parkway, and rail preservation projects; and outdoor recreation and environmental conservation projects. Advances are made for capital construction costs reimbursable by public authorities, the Federal or local governments, or from the proceeds of State bond and note sales.

**Bond Proceeds** - Includes the proceeds of General Obligation Bonds and short-term notes issued in the form of commercial paper or Bond Anticipation Notes (BANs) and are stated net of notes redeemed from the proceeds of long-term bonds or reissued notes.

**Operating Transfers** - Constitutes legally authorized transfers from a fund receiving revenues to a fund through which disbursements will ultimately be made.

### Note 4 — Reservations of General Fund Balance

Funds of the General Fund may be legally segregated for specific future use or informally reserved for specified purposes.

The following funds of the General Fund are established pursuant to law:

**Community Projects Fund** was created to finance discretionary, usually local, projects ("member items") sponsored by individual legislators and the Governor. In previous years, the Budget included lump sum appropriations for the Governor, Senate, and the Assembly, to be designated for various grants, awards, and contracts with local governments, not-for-profit organizations, and community groups. The FY 2026 Enacted Budget includes no new appropriations.

**Contingency Reserve Fund** was created to provide a reserve to fund extraordinary needs arising from litigation against the State. These amounts may be used for payment of judgments against the State where the amount is more than \$25 million and such payments are not previously appropriated, emergency payments relating to natural or physical disasters, or to make payments for the enhancement of the State's economy.

**Rainy Day Reserves** was created to account for funds set aside for use during economic downturns or in response to a catastrophic event, as defined in the law. The economic downturn clause is triggered after five consecutive months of decline in the State's composite index of business cycle indicators. The reserve may have a maximum balance equal to 25 percent of projected General Fund spending in the current year.

**Tax Stabilization Reserve** was created to provide a reserve to finance a cash-basis operating deficit in the General Fund at the end of the fiscal year, and to make temporary loans to the General Fund during the year. Annual deposits may not exceed 0.2 percent of General Fund spending, and the balance may not exceed 2 percent of General Fund spending. These amounts may be borrowed by the General Fund temporarily and repaid within the same fiscal year. They may also be borrowed to cover an operating deficit at year end, but these loans must be repaid within six years in no fewer than three annual installments.

From time to time, DOB will informally designate undesignated fund balances in the General Fund for specific purposes. These amounts are typically identified with the phrase "reserved for" and are subject to revisions and adjustments at any time. Current discretionary designations include the following.

**Debt Management** reserve to support a) payment of principal, interest, or related expenses; b) retiring or defeasing existing State-supported debt obligations, including accrued interest; and c) funding of capital projects, equipment, or similar expenses that would otherwise be financed with debt.

**Economic Uncertainties** reserve is included in the State's Principal Reserves total and is a supplemental reserve to the statutory Rainy Day Reserves.

**Extraordinary Monetary Settlements** represents the remaining balance of Extraordinary Monetary Settlements previously accumulated and expected to support future planned uses.

**Future Operational Needs** is set aside of funds available for retroactive salary costs related to future labor agreements, as well as unanticipated or critical operational needs.

**Timing of PTET/PIT Credits** reserved for the purpose of offsetting the difference between PTET collections and related PIT credits annually due to the timing of the flow of funds in the PTET program.

**Timing of Resource Management** represents the accumulation of prior year resources that are routinely carried forward to offset the timing of payments and projected outyear budget gaps.

### Note 5 — Off-Budget Transactions

These represent certain capital spending that is not reported in cash spending results but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds on deposit at various public authorities, rather than from a STIP or General Fund loan.

### Note 6 — Statewide Cash Flow Administration

OSC invests General Fund moneys, bond proceeds, and other funds not immediately required to make payments through STIP, which is comprised of joint custody funds (Governmental Funds, Internal Service Funds, Enterprise Funds and Private Purpose Trust Funds), as well as several sole custody funds, including the Tobacco Settlement Fund.

OSC is authorized to make short-term loans from STIP to cover temporary cash shortfalls in certain funds and accounts, including the General Fund, that result from the timing of receipts and disbursements. The Legislature authorizes the funds and accounts that may receive loans each year, based on legislation submitted annually. Loans may be granted only for amounts that the Director of the Budget certifies are “receivable on account” or can be repaid from the current operating receipts of the fund (i.e., loans cannot be granted in expectation of future revenue enhancements).

The General Fund is authorized to borrow resources temporarily from STIP for up to four months, or to the end of the fiscal year, whichever period is shorter. The State last used this authorization in April 2011 when the General Fund needed to temporarily borrow a minimal amount of funds from STIP for a period of five days. The resources that can be borrowed by the General Fund is limited to the available balances in STIP, as determined by OSC. Available balances include money in the State’s governmental funds and a relatively small amount of other money belonging to the State. Several accounts in Debt Service Funds and Capital Projects Funds that are part of All Governmental funds are excluded from the balances deemed available in STIP. These excluded funds consist of bond proceeds and money obligated for debt service payments.

### Note 7 — Transfer Eliminations

The Special Revenue Funds and Capital Projects Funds include transfers of resources between Federal and State accounts within each fund. In some instances, Federal aid that is initially deposited into a Federal account is transferred to State accounts where the aid is used to support the programs it is intended to fund. To avoid recording spending twice, initially as the transfer of resources to another account and subsequently when payments are made, these transfers are eliminated in these funds. The transfer eliminations are consistent with OSC's accounting practices shown in Exhibit A of OSC's Annual Report to the Legislature.

### Note 8 - Extraordinary Monetary Settlements Received and Uses

The State receives fines and penalties during the normal course of business; however, beginning in FY 2015, the State began receiving Extraordinary Monetary Settlements for violations of State laws by major financial institutions and other entities. Due to the size of the settlement receipts, the State began to separately track these one-time resources for purposes of using the funds for non-recurring expenditures and to bolster State reserves.

Through FY 2025, the State identified \$13.6 billion in extraordinary settlements that have been dedicated for specific purposes. Effective FY 2026, DOB no longer separately tracks settlement payments. However, individual settlement receipts above \$100 million will be set aside in the General Fund Reserve for Economic Uncertainties and smaller receipts will be utilized annually for general operations consistent with past practice prior to the extraordinary levels that began in FY 2015.

Detailed descriptions for prior extraordinary monetary settlement receipts, by firm and amount, and expenditures, including capital investments, are available in previous Financial Plan publications. The following table summarizes past and planned uses of the Extraordinary Monetary Settlements received to date.

## FINANCIAL PLAN ACCOMPANYING NOTES

GENERAL FUND SUMMARY OF RECEIPTS AND USE/TRANSFER OF FUNDS FROM EXTRAORDINARY MONETARY SETTLEMENTS BETWEEN REGULATORS AND FINANCIAL INSTITUTIONS (millions of dollars)

Mobile Sports Wagering (Youth Sports)	5	5	5	5	5
Mobile Sports Wagering (Problem Gambling)	6	6	12	12	12

This note provides additional detail on State Operating Funds gaming receipts projections over the course of the Mid-Year Financial Plan.

FY 2026 education gaming receipts are estimated to increase from FY 2025 results, primarily due to expected growth in mobile sports wagering receipts. This is partially offset by an estimated decrease in traditional lottery receipts largely driven by an estimated decline in the lapsed prize surplus amount available. Education gaming receipts are projected to decline slightly in FY 2027 due to projected mobile sports wagering growth being more than offset by a projected decline in the lottery administrative surplus amount available. Education gaming receipts are projected to increase in the subsequent outyears primarily due to the expectation of continued growth in mobile sports wagering.

FY 2026 all other gaming receipts are estimated to increase significantly compared to FY 2025 results, largely due to the expected receipt of all outstanding delinquent slot share payments owed by the Saint Regis Mohawk Tribe, retroactive to March 2020, as well as the estimated receipt of Seneca slot share payments which are currently in escrow as a new Compact is being negotiated. The projected decrease in FY 2027 reflects the aforementioned expected receipt of delinquent Mohawk payments in FY 2026, as well as the Seneca slot share payments that are in escrow, while the subsequent outyears are projected to remain flat.

## Note 10 – FY 2025 Special Revenue Fund Balance Transfer

Section 16 of Part XX of Chapter 56 of the Laws of 2024 authorizes the Director of the Budget to transfer up to \$700 million from the unencumbered balance of any special revenue fund or account, or combination of funds and accounts, to the General Fund. Pursuant to such authority, the State transferred \$15.4 million from State Special Revenue Funds to the General Fund.

FY 2025 SPECIAL REVENUE FUND BALANCE TRANSFERS TO THE GENERAL FUND PURSUANT TO SECTION 16 OF PART XX OF CHAPTER 56 OF THE LAWS OF 2024 (in dollars)		
Sending Fund		Transfer Amount
339.21933	Transportation Surplus Property Account	8,505,000.00

## GLOSSARY OF ACRONYMS

ACA	Affordable Care Act
AG	Attorney General
APCD	All-Payer Claims Database
ARP	American Rescue Plan Act of 2021
AY	Academic Year (July 1 through June 30) – SUNY/CUNY
BANs	Bond Anticipation Notes
BEA	Bureau of Economic Analysis
BHP	Basic Health Program
BIL	Bipartisan Infrastructure Law
BLS	Bureau of Labor Statistics
BOCES	Boards of Cooperative Educational Services
C82 SSPU	Council 82 Security Supervisors Unit
CAC	Climate Action Council
CARES Act	Coronavirus Aid, Relief, and Economic Security Act
CBO	Congressional Budget Office
CBDTP	Central Business District Tolling Program
CCDF	Child Care Development Funds
CDPAP	Consumer Directed Personal Assistance Program
CEP	Community Eligibility Provision
CES	Current Employment Statistics
CFT	Corporate Franchise Tax
CHP	Child Health Plus
CISO	Chief Information Security Office
CLCPA	Climate Leadership and Community Protection Act of 2019
CMS	Centers for Medicare & Medicaid Services
CO	Correctional Officer
COVID-19	Coronavirus Disease 2019
CPI	Consumer Price Index
CRF	Common Retirement Fund
CRFB	Committee for a Responsible Federal Budget
CSE	Committees on Special Education
CSEA	Civil Service Employees Association
CTI	Critical Time Intervention
CUNY	City University of New York
CUT	Corporation and Utilities Tax
CW/CA	Clean Water/Clean Air
CY	Calendar Year
DACA	Deferred Action for Childhood Arrivals
DCJS	Division of Criminal Justice Services
DCS	Department of Civil Service
DEC	Department of Environmental Conservation
DFS	Department of Financial Services
DHCR	Division of Housing and Community Renewal
DHSES	Division of Homeland Security & Emergency Services
DIIF	Dedicated Infrastructure Investment Fund
DMNA	Division of Military and Naval Affairs
DOB	Division of the Budget
DOCCS	Department of Corrections and Community Supervision
DOH	Department of Health
DOL	Department of Labor
DOT	Department of Transportation
DPT	Directed Payment Template
DS	Debt Service
eFMAP	Enhanced Federal Medical Assistance Percentage
EI	Early Intervention

## GLOSSARY OF ACRONYMS

EMS	Emergency Medical Services
EP	Essential Plan
EPIC	Elderly Pharmaceutical Insurance Coverage
ERAP	Emergency Rental Assistance Program
ERS	Employees' Retirement System
ESSHI	Empire State Supportive Housing Initiative
FACT	Forensic Assertive Community Treatment
FAS	Final Average Salary
FEMA	Federal Emergency Management Agency
FFCRA	Families First Coronavirus Response Act
FFFS	Flexible Fund for Family Services
FFS	Fee-for-Services
FFY	Federal Fiscal Year (October 1 Through September 30)
FHWA	Federal Highway Administration
FI	Fiscal Intermediary
FMAP	Federal Medical Assistance Percentage
FPL	Federal Poverty Level
FTE	Full-Time Equivalent
FY	Fiscal Year
GAAP	Generally Accepted Accounting Principles
GASBS	Governmental Accounting Standards Board Statement
GCI	Global Cap Index
GDP	Gross Domestic Product
GLIP	Group Life Insurance Plan
GPHW	General Public Health Work
GSCs	General State Charges
